

Executive Order (i.e., Regulatory Impact Analysis, review by the Office of Management and Budget (OMB)). Under section 3(f), the order defines "significant" as those actions likely to lead to a rule (1) having an annual effect on the economy of \$100 million or more, or adversely and materially affecting a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local or tribal governments or communities (also known as "economically significant"); (2) creating serious inconsistency or otherwise interfering with an action taken or planned by another agency; (3) materially altering the budgetary impacts of entitlement, grants, user fees, or loan programs; or (4) raising novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in this Executive Order.

Pursuant to the terms of this Executive Order, EPA has determined that this rule is not "significant" and is therefore not subject to OMB review.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).

List of Subjects In 40 CFR Part 180

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements

Dated: March 6, 1996.

Peter Caulkins,

Director, Registration Division, Office of Pesticide Programs.

Therefore, chapter I of title 40 Code of Federal Regulations is amended as follows:

**PART 180—[AMENDED]**

1. The authority citation for Part 180 continues to read as follows:

Authority: 21 U.S.C. 346a and 371.

2. In § 180.464, by revising the introductory paragraph and amending the table by alphabetically adding the raw agricultural commodities, "corn, sweet, fodder (stover)" and "corn, sweet, forage," "corn, sweet (Kernels

plus cobs with husks removed)," "dry beans," "peanut hay," "peanut nutmeat," "sorghum grain fodder," "sorghum grain forage," "sorghum grain", to read as follows:

**§ 180.464 Dimethenamid, 1(R,S)-2-chloro-N-[(1-methyl-2-methoxy)ethyl]-N-(2,4-dimethylthien-3-yl)-acetamide; tolerance for residues.**

Tolerances are established for residues of the herbicide dimethenamid, 1(R,S)-2-chloro-N-[(1-methyl-2-methoxy)ethyl]-N-(2,4-dimethylthien-3-yl)-acetamide in or on the following raw agricultural commodities:

| Commodities  | Parts per million |
|--|-------------------|
| Beans, dry .....   | 0.01              |
| * * * *  | *                 |
| Corn, sweet, fodder (stover) .....                       | 0.01              |
| Corn, sweet, forage .....                                | 0.01              |
| Corn, sweet (Kernels plus cobs with husks removed) ..... | 0.01              |
| Peanut, hay .....  | 0.01              |
| Peanut, nutmeat .....                                    | 0.01              |
| Sorghum, grain, fodder .....                             | 0.01              |
| Sorghum, grain, forage .....                             | 0.01              |
| Sorghum, grain .....                                     | 0.01              |

BILLING CODE 6560-50-F

**40 CFR Part 271**

[FRL-5439-3]

**Illinois; Final Authorization of Revisions to State Hazardous Waste Management Program**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Immediate final rule.

**SUMMARY:** Illinois has applied for final authorization of revisions to its hazardous waste program under the Resource Conservation and Recovery Act of 1976 as amended (hereinafter RCRA). Illinois' revisions consist of provisions contained in rules promulgated between July 1, 1989, and June 30, 1993, otherwise known as Non-HSWA Cluster VI, HSWA Cluster II, and RCRA Clusters I-III. These requirements are listed in Section B of this document. The Environmental Protection Agency (EPA) has reviewed Illinois' application and has made a decision, subject to public review and comment, that Illinois' hazardous waste program revisions satisfy all of the requirements necessary to qualify for final authorization. Thus, EPA intends to approve Illinois' hazardous waste

program revisions, subject to authority retained by EPA under the Hazardous and Solid Waste Amendments of 1984 (hereinafter HSWA). Illinois' application for program revision is available for public review and comment.

**EFFECTIVE DATE:** Final authorization for Illinois shall be effective May 14, 1996 unless EPA publishes a prior Federal Register action withdrawing this immediate final rule. All comments on Illinois' program revision application must be received by the close of business April 15, 1996.

**ADDRESSES:** Copies of Illinois' program revision application are available for inspection and copying, from 9 a.m. to 4 p.m., at the following addresses: Illinois Environmental Protection Agency, 2200 Churchill Road, P.O. Box 19276, Springfield, Illinois 62794-9276, contact: Todd Marvel (217) 524-5024; U.S. EPA, Region 5, DR-7J, 77 W. Jackson Blvd., Chicago, Illinois 60604, contact: Gary Westefer (312) 886-7450. Written comments should be sent to Mr. Gary Westefer, Illinois Regulatory Specialist, U.S. EPA, Office of RCRA, DR-7J, 77 W. Jackson Blvd., Chicago, Illinois 60604, phone 312/886-7450.

**FOR FURTHER INFORMATION CONTACT:** Mr. Gary Westefer, U.S. EPA Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604. Phone: 312/886-7450.

**SUPPLEMENTARY INFORMATION:**

A. Background

States with final authorization under Section 3006(b) of the Resource Conservation and Recovery Act (RCRA or the Act), 42 U.S.C. 6929(b), have a continuing obligation to maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal hazardous waste program. In addition, as an interim measure, the Hazardous and Solid Waste Amendments of 1984 (Pub. L. 98-616, November 8, 1984, hereinafter HSWA) allows States to revise their programs to become substantially equivalent instead of equivalent to RCRA requirements promulgated under HSWA authority. States exercising the latter option receive interim authorization for the HSWA requirements under Section 3006(g) of RCRA, 42 U.S.C. 6926(g), and later apply for final authorization for the HSWA requirements.

In accordance with 40 CFR 271.21, revisions to State hazardous waste programs are necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, State program revisions are necessitated by changes to

EPA's regulations in 40 CFR Parts 124, 260-266, 268, 270, 273 and 279.

B. Illinois

Illinois initially received final authorization for its program effective January 31, 1986. (51 FR 3778, January 30, 1986). Illinois received authorization for revisions to its program effective on March 5, 1988 (53 FR 126, January 5, 1988), April 30, 1990 (55 FR 7320, March 1, 1990), June 3, 1991 (56 FR 13595, April 3, 1991), and August 15, 1994 (59 FR 30525, June 14, 1994). On June 30, 1994, Illinois submitted a program revision application for additional program approvals. Today, Illinois is seeking approval of its

program revision in accordance with 40 CFR 271.21(b)(3).

EPA has reviewed Illinois' application, and has made an immediate final decision that Illinois' hazardous waste program revisions satisfy all of the requirements necessary to qualify for final authorization. Consequently, EPA intends to grant final authorization for the additional program modifications to Illinois. The public may submit written comments on EPA's immediate final decision up until April 15, 1996.. Copies of Illinois' application for program revision are available for inspection and copying at the locations indicated in the "Addresses" section of this notice.

Approval of Illinois' program revision shall become effective in 60 days unless an adverse comment pertaining to the State's revision discussed in this notice is received by the end of the comment period. If an adverse comment is received, EPA will publish either (1) a withdrawal of the immediate final decision or (2) a notice containing a response to comments which either affirms that the immediate final decision takes effect or reverses the decision.

On May 14, 1996, Illinois will be authorized to carry out, in lieu of the Federal program, those provisions of the State's program which are analogous to the following provisions of the Federal program:

| Federal requirement  | Analogous state authority  |
|--|--|
| Financial Responsibility—Settlement Agreement Amendment, June 26, 1990, 55 FR 25976.   | Rule 35 IAC 725.213, Effective June 17, 1991.  |

<sup>1</sup> Indicates HSWA Provision.

EPA shall administer any RCRA hazardous waste permits, or portions of permits, that contain conditions based upon the Federal program provisions for which the State is applying for authorization, and which were issued by EPA prior to the effective date of this authorization. EPA will suspend issuance of any further permits under the provisions for which the State is being authorized on the effective date of this authorization. EPA has previously suspended issuance of permits for the other provisions on January 31, 1986, March 5, 1988, April 30, 1990, June 3, 1991, and August 15, 1994, the effective dates of Illinois' final authorizations for the RCRA base program and for the subsequent program revisions, respectively.

This authorization includes authorization for Illinois to impose certain land disposal prohibitions.

Under 40 CFR 268.6, EPA may grant petitions of specific duration to allow land disposal of certain hazardous wastes provided certain criteria are met. States that have authority to impose land disposal prohibitions may ultimately be authorized under RCRA Section 3006 to grant petitions for such exemptions. However, EPA is currently requiring that these petitions be handled at EPA Headquarters. It should be noted that Illinois has its own procedures for petition submission and approval to allow land disposal of a prohibited waste. Therefore, the petitioner must satisfy both Federal and Illinois requirements, and be granted approval by both EPA and the State.

Illinois is not authorized to operate the Federal program on Indian lands. This authority remains with EPA unless provided otherwise in a future statute or regulation.

C. Decision

I conclude that Illinois' application for program revisions meets all of the statutory and regulatory requirements established by RCRA, and its amendments. Accordingly, Illinois is granted final authorization to operate its hazardous waste program as revised. Illinois now has responsibility for permitting treatment, storage, and disposal facilities within its borders and carrying out the aspects of the RCRA program described in its revised program application, subject to the limitations of the HSWA. Illinois also has primary enforcement responsibilities, although EPA retains the right to conduct inspections under Section 3007 of RCRA and to take enforcement actions under Sections 3008, 3013, and 7003 of RCRA.

#### D. Incorporation by Reference

EPA incorporates by reference, authorized State programs in 40 CFR Part 272, to provide notice to the public of the scope of the authorized program in each State. Incorporation by reference of the Illinois program will be completed at a later date.

#### *Compliance With Executive Order 12866*

The Office of Management and Budget has exempted this rule from the requirements of Section 6 of Executive Order 12866.

#### *Unfunded Mandates Reform Act*

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104-4, establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local, and tribal governments and the private sector. Under section 202 of the UMRA, EPA generally must prepare a written statement, including a cost-benefit analysis, for proposed and final rules with "Federal mandates" that may result in expenditures to State, local, and tribal governments, in the aggregate, or to the private sector, of \$100 million or more in any one year. When a written statement is needed for an EPA rule, section 205 of the UMRA generally requires EPA to identify and consider a reasonable number of regulatory alternatives and adopt the least costly, most cost-effective or least burdensome alternative that achieves the objectives of the rule. The provisions of section 205 do not apply when they are inconsistent with applicable law. Moreover, section 205 allows EPA to adopt an alternative other than the least costly, most cost-effective or least burdensome alternative if the Administrator publishes with the final rule an explanation why that alternative was not adopted. Before EPA establishes any regulatory requirements that may significantly or uniquely affect small governments, including tribal governments, it must have developed under section 203 of the UMRA a small government agency plan. The plan must provide for notifying potentially affected small governments, giving them meaningful and timely input in the development of EPA regulatory proposals with significant Federal intergovernmental mandates, and informing, educating, and advising them on compliance with the regulatory requirements. EPA has determined that this rule does not contain a Federal mandate that may result in expenditures of \$100 million or more for State, local, and tribal governments, in the aggregate,

or the private sector in any one year. EPA does not anticipate that the approval of Illinois' hazardous waste program referenced in today's notice will result in annual costs of \$100 million or more. EPA's approval of State programs generally have a deregulatory effect on the private sector because once it is determined that a State hazardous waste program meets the requirements of RCRA section 3006(b) and the regulations promulgated thereunder at 40 CFR Part 271, owners and operators of hazardous waste treatment, storage, or disposal facilities (TSDFs) may take advantage of the flexibility that an approved State may exercise. Such flexibility will reduce, not increase, compliance costs for the private sector. Thus, today's rule is not subject to the requirements of sections 202 and 205 of the UMRA. EPA has determined that this rule contains no regulatory requirements that might significantly or uniquely affect small governments. The Agency recognizes that small governments may own and/or operate TSDFs that will become subject to the requirements of an approved State hazardous waste program. However, such small governments which own and/or operate TSDFs are already subject to the requirements in 40 CFR Parts 264, 265 and 270. Once EPA authorizes a State to administer its own hazardous waste program and any revisions to that program, these same small governments will be able to own and operate their TSDFs with increased levels of flexibility provided under the approved State program.

#### *Certification Under the Regulatory Flexibility Act*

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization effectively suspends the applicability of certain Federal regulations in favor of Illinois' program, thereby eliminating duplicative requirements for handlers of hazardous waste in the State. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

#### *Paperwork Reduction Act*

Under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, Federal agencies must consider the paperwork burden imposed by any information request contained in a proposed rule or a final rule. This rule will not impose any information requirements upon the regulated community.

#### List of Subjects in 40 CFR Part 271

Environmental protection, Administrative practice and procedure, Confidential business information, Hazardous materials transportation, Hazardous waste, Indian lands, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Water pollution control, Water supply.

Authority: This notice is issued under the authority of Sections 2002(a), 3006 and 7004(b) of the Solid Waste Disposal Act as amended 42 U.S.C. 6912(a), 6926, 6974(b).

Dated: February 23, 1996.

#### 40 CFR Part 300

[FRL-5440-9]

#### **National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List; Correction**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of deletion of the Lewisburg Dump Site from the National Priorities List (NPL); Correction.

**SUMMARY:** This document contains a correction to the announcement of the deletion of the Lewisburg Dump site in Lewisburg, Tennessee, from the National Priorities List (NPL), which was published Wednesday, February 21, 1996 at 61 FR 6556.

**EFFECTIVE DATE:** February 1, 1996.

**FOR FURTHER INFORMATION CONTACT:** Femi Akindele, Remedial Project Manager, U.S. Environmental Protection Agency, Region 4, North Superfund Remedial Branch, 345 Courtland Street, N.E., Atlanta, Georgia 30365, (404) 347-7791, extension 2042.

#### **SUPPLEMENTARY INFORMATION:**

##### Background

The site deleted was the Lewisburg Dump Superfund Site, Lewisburg, Tennessee. For the reasons set out in the preamble, 40 CFR part 300 must be amended.

##### Need for Correction

As published, the table from which the site was to be deleted was incorrectly stated.

##### Correction of Publication

Accordingly, the publication on February 21, 1996, of the deletion of the
