SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meeting

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission

will hold the following open meeting during the week of March 18, 1996.

An open meeting will be held on Thursday, March 21, 1996, at 10:00 a.m., in Room 1C30.

The subject matter of the open meeting scheduled for Thursday, March 21, 1996, at 10:00 a.m., will be:

(1) The Commission will consider whether to adopt amendments to rule 2a-7, the rule under which money market funds are regulated under the Investment Company Act of 1940, and related rules and forms. The amendments are intended to tighten the risk limiting conditions of rule 2a-7, particularly as they apply to tax exempt funds, and to provide investors in those funds with protections similar to those provided to taxable money market fund investors. The amendments would revise the diversification and credit quality conditions which tax exempt money market funds are required to meet, and make limited changes to the rule for taxable money market funds. The Commission will also consider a new rule under the Investment Company Act—rule 17a-9—which would permit certain affiliated transactions involving money market funds. For further information, contact Martha Platt at (202) 942-0725.

(2) The Commission will consider whether to propose for public comment amendments to rule 10f-3, and new rule 17a-10, both under the Investment Company Act of 1940. The proposed amendments to rule 10f-3 would address the various conditions of the rule. The proposed amendments would broaden the scope of the rule, for example, by permitting funds that are subject to the rule to purchase securities of foreign issuers sold in offerings not registered under the Securities Act of 1933, subject to certain conditions. Proposed rule 17a-10 would provide an exemption from section 17(a)(1) of the Investment Company Act for certain transactions that would be permitted by the proposed amendments to rule 10f-3. For further information, contact David M. Goldenberg at (202) 942-4525.

At times, changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: The Office of the Secretary at (202) 942-7070.

Dated: March 15, 1996.

Jonathan G. Katz,
Secretary.

Federal Aviation Administration

Existence of Proposed Powered Parachute Design Standards for Acceptance Under the Primary Category

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of availability and request for comments.

SUMMARY: This notice announces the existence of and request for comments on proposed powered parachute design standards for acceptance under the primary category rule. The proposed design standards are the culmination of more than 500,000 hours experience as either ultralite or amateur-built vehicles. The applicability is four-place maximum and 2,700 pound maximum weight. The aircraft is designed to be stall proof. The minimum control speed is zero at flare.

DATES: Comments must be received on or before April 18, 1996.

ADDRESSES: Send all comments to: Federal Aviation Administration, Small Airplane Directorate, Aircraft Certification Service, Standards Office, ACE-110, 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Terre Flynn, Regulations and Policy Branch, ACE-111, at the address above, telephone number (816) 426-6941.

SUPPLEMENTARY INFORMATION: Any person may obtain a copy of this information by contacting the person named above under **FOR FURTHER INFORMATION CONTACT**.

Comments Invited

Interested parties are invited to submit comments on the proposed design standards. Commenters must identify the design standards (powered parachute) and submit comments to the address above. All communications received on or before the closing date for comments will be considered by the FAA before issuing the final acceptance. The proposed design standards and comments received may be inspected at the Standards Office, ACE-110, Suite 900, 1201 Walnut, Kansas City, Missouri, between the hours of 7:30 a.m. and 4:00 p.m. weekdays, except Federal holidays.

Background

Sport aviation, essentially a fly-for-fun activity, is dependent upon simple, low performance, low cost aircraft. The FAA recognizes this in the creation of primary category (14 CFR 21.17), which establishes simpler process for certification, production control, and establishment of design standards for all types of aircraft. This notice proposes design standards for powered parachute airplanes.

The value of this class of airplane is demonstrated by the number of 14 CFR part 103 ultralite and amateur-built designs currently active. Accordingly, the FAA is proposing and requesting comments on these design standards.

Issued in Kansas City, Missouri, on March 8, 1996.

Henry A. Armstrong,
*Acting Manager, Small Airplane Directorate,
Aircraft Certification Service.*
