

interested in the suspension agreement, the Department would terminate the suspension agreement and resume the suspended investigation. Conversely, if BPW-RÁBA were to indicate that it was interested in the suspension agreement, the Department could initiate a changed circumstances administrative review to determine whether BPW-RÁBA should be treated as a successor in interest to RÁBA. The Department requested a response from BPW-RÁBA, indicating its interest in the continuation of the suspension agreement, no later than 60 days from the date of the letter. Absent a response from BPW-RÁBA by January 7, 1994, the Department would assume that BPW-RÁBA had no interest in the agreement and, therefore, the Department would resume the investigation.

On January 5, 1994, BPW-RÁBA notified the Department that the agreement seemed to have no relevance to it for the following reasons: 1) it had never been an exporter of truck trailer axles to the United States, although it had supplied RÁBA with certain truck trailer axle components; 2) it had stopped production of truck trailer axles for the United States in 1992; and 3) it had removed the truck trailer axle production equipment from its plant.

On May 5, 1994, the petitioner stated that they believed that BPW-RÁBA still produced axles, but that it was not currently exporting them to the United States. Rockwell stated that it would like the Department to inquire further into BPW-RÁBA's production capabilities. On September 29, 1994, the Department conducted a verification at the production facilities of BPW-RÁBA in Szombathely, Hungary. The primary purpose of the verification was to investigate BPW-RÁBA's claim that the agreement was no longer relevant due to BPW-RÁBA's cessation of production/exports of subject merchandise to the United States. Based on the verification, there was no evidence to support the claim that BPW-RÁBA was continuing to produce covered merchandise for the U.S. market. For further details of the verification, please see the verification report placed on the record.

On December 1, 1995, counsel to the petitioner notified the Department that Rockwell International Corporation had no further interest in the suspended investigation on truck trailer axle-and-brake assemblies and parts thereof from Hungary and that it was, therefore, withdrawing the petition.

On December 8, 1995, the Department notified parties to the proceeding of its intent to terminate the suspended investigation pursuant to § 353.17(a)(1) of the Department's regulations (19 CFR

353.17(a)(1)(1994)). We received comments from interested parties concerning the proposed termination on January 11, 1996.

#### Scope of Investigation

The merchandise covered by the investigation are those trailer axle-and-brake assemblies and parts thereof (the "product") imported under item numbers 692.32 and 692.60 of the Tariff Schedules of the United States (TSUS) or under item number 8716.40 and 8716.90 of the Harmonized Tariff Schedule (HTS) of the United States. This includes any parts which may be imported under any other TSUS category to be utilized in trailer axles. These parts include, but are not limited to the beam, spindle, brake spider, camshaft, brake shoes, and separate brake assemblies when imported for use on trailer axles. The agreement did not include separate brake assemblies and other parts which are to be utilized solely in truck components other than trailer axles.

#### Termination of Investigation

Under § 353.17(a) of the Department's regulations (19 CFR 353.17(a)(1994)) the Department may terminate an investigation if the petitioner withdraws the petition, after notifying all parties to the proceeding and after consultation with the International Trade Commission (ITC). Section 353.17(a) further provides that the Department may not terminate an investigation unless it concludes that the termination is in the public interest. We have notified all parties to the proceeding and have consulted with the ITC. We also conclude that termination of the investigation is in the public interest (see public interest assessment memo, March 6, 1996).

On December 1, 1995, Rockwell International Corporation notified the Department that it has no further interest in the suspended investigation on truck trailer axle-and-brake assemblies and parts thereof from Hungary and that it was, therefore, withdrawing its petition. Based on the Department's request for comments to the proposed termination, two letters were filed on January 11, 1996. Eaton Corporation (an importer of the subject merchandise) expressed its support for the proposed termination. Dana Corporation objected to the proposed termination. In its public interest assessment regarding the termination of the suspended investigation, the Department addresses the objections raised by Dana Corporation.

Based on information contained in the record, the Department is terminating

the antidumping duty investigation on truck trailer axle-and-brake assemblies and parts thereof from Hungary. This action is taken pursuant to section 734(a)(1) of the Tariff Act of 1930, as amended (19 U.S.C. 1673c(a)(2)), and § 353.17(a)(2) of Commerce's regulations (19 CFR 353.17(a)(2)(1994)).

Dated: March 14, 1996.
