**Palm Springs-South Coast Resource Area; Adjustment of Daily Recreation Usage Fees****AGENCY:** Bureau of Land Management, Interior.**ACTION:** Notice of increase in fees at Corn Springs Campground.

**SUMMARY:** Daily recreation use fees at Corn Springs Campground are increased from \$4.00 per campsite to \$6.00 per campsite. This action is necessary to recover increasing costs associated with campground maintenance.

**EFFECTIVE DATE:** April 1, 1996.

**FOR FURTHER INFORMATION CONTACT:**

Mark A. Conley, Outdoor Recreation Planner, Palm Springs-South Coast Resource Area, Post Office Box 2000, North Palm Springs, CA 92258-2000, (619) 251-4800.

**SUPPLEMENTARY INFORMATION:** The Corn Springs campground was developed and daily recreation use fees established during the mid-1960s. The current use fee of \$4.00 has been charged for more than a decade; information pertaining to use fees for these sites prior to the 1980s is unavailable.

An increase in daily recreation use fees reflects steadily increasing costs associated with maintenance of campground facilities. This action does not result in fees which exceed those established for similar facilities by other Federal agencies, non-Federal public agencies and the private sector located within the service area of Corn Springs campground.

Authority for establishing daily recreation use fees is found at 36 CFR part 71 as promulgated pursuant to section 4, Land and Water Conservation Fund Act of 1965, 16 U.S.C.A. 4601-6a (Supp., 1974), and section 3, Act of July 11, 1972, 86 Stat. 461.

Dated: January 11, 1996.

**Notice of Extension of Public Comment Period for the Draft Texas Resource Management Plan/ Environmental Impact Statement (TX RMP/EIS)**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** The Bureau of Land Management (BLM), Tulsa District, announces that the public comment period for the Draft Texas RMP/EIS will be extended from January 6, 1996 to January 30, 1996 due to the effects of the recent Federal government shutdown. This document analyzes land use planning options for BLM managed Federal lands and minerals throughout the state of Texas.

**DATES:** Comments on the Draft RMP/EIS will be accepted if they are submitted or post-marked no later than January 30, 1996.

**ADDRESSES:** Comments can be sent to: Paul Tanner, Assistant District Manager,

Bureau of Land Management, 221 North Service Road, Moore, Oklahoma 73160.

**FOR FURTHER INFORMATION CONTACT:**

For further information or copies of the Draft RMP/EIS contact the Bureau of Land Management, 221 North Service Road, Moore, Oklahoma 73160 Telephone: (405) 794-9624.

**SUPPLEMENTARY INFORMATION:** The Draft Texas Resource Management Plan (RMP) and Environmental Impact Statement (EIS) identifies and analyzes the future options for managing the Federal mineral estate situated within Texas administered by the Bureau of Land Management (BLM), Tulsa District.

The Texas RMP is being prepared using the BLM planning regulations issued under the authority of the Federal Land Policy and Management Act of 1976. When completed, the RMP will provide a comprehensive framework for managing the Federal minerals within Texas over the next 20 years. The contents of this Draft RMP/EIS focus on resolving on resource management issue, the leasing and development of Federal oil and gas resources in Texas. Three RMP alternatives have been developed to describe the different management options available to the BLM for administering Federal oil and gas in Texas. These alternatives were specifically developed to respond to that issue. Each alternative presents a different level of oil and gas leasing stipulation application.

**Alternative A. No Action**

This alternative represents a continuation of present resource allocation levels and management practices. This alternative provides a baseline for comparison of other alternatives, and may not adequately resolve the issues identified in the RMP/EIS.

**Alternative B. Intensive Surface Protection (Agency Preferred Alternative)**

This represents an alternative which would place primary emphasis on protecting important environmental values through the use of additional leasing stipulations. The goal of this alternative is to change present management direction so that identified surface resource values are considered in the leasing process in a manner that provides additional protection for valuable surface resources.

**Alternative C. No Leasing**

This represents an alternative which would remove Federal oil and gas from availability for leasing and

development. It would change management direction so that the issue is resolved in a manner that places highest priority on the preservation of the oil and gas resource and protection of the associated surface resources.

**FOR FURTHER INFORMATION CONTACT:** For further information or copies of the Draft RMP/EIS contact the Bureau of Land Management, 221 North Service Road, Moore, Oklahoma 73160 Telephone: (405) 794-9624.
