**DATES:** Written objections to the withdrawal of Voluntary Product Standard PS 73-89 Glass Bottles for Carbonated Soft Drinks must be submitted to Barbara M. Meigs, Technical Standards Activities, office of

**SUPPLEMENTARY INFORMATION:** On October 27, 1995, the Glass Packaging Institute (GPI), the proponent organization that has provided financial support to cover costs for administrative and technical support services for Voluntary Product Standard PS 73-89 Glass Bottles for Carbonated Soft Drinks, notified NIST that it did not intend to renew the financial maintenance agreement for the support of PS 73-89. On November 7, 1995, NIST informed the Standing Committee for PS 73-89 and requested assistance in attempting to identify organizations or agencies that might be interested in assuming financial responsibility for the maintenance of the standard. No interested organizations were identified.

As set out in 10.13(a)(2) of the Procedures, NIST will provide a 30-day period for the filing of written objections to the withdrawal. Such objections will be considered and analyzed by the Director of NIST before a determination is made to withdraw the standard. Under Section 10.13(b) of the Procedures, the filing under 10.13(a) to retain a standard shall operate to stay the withdrawal of such standard until the Director's determination has been made. If the Director determines that the requested standard shall be withdrawn, the stay will remain in effect if an appeal is filed in accordance with the requirements of Section 10.14 until the decision of the Director is announced in the Federal Register. If, however, no appeal is received, the Director shall announce withdrawal of the standard. Section 10.14 of the Procedures pertains to the handling of appeals that are filed. A copy of this section of the Procedures may be obtained, upon request, from the contact person listed in this notice.

Voluntary Product Standards PS 73-89 Glass Bottles for Carbonated Soft Drinks was developed under the Procedures for the Development of
