

40 CFR Part 52**[AZ 063-0001b; FRL-5452-3]****Clean Air Act Approval and Promulgation of Prevention of Significant Deterioration (PSD) and General Permitting Provisions Implementation Plan for Arizona State Pinal County Air Quality Control District****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA is proposing approval of portions of a requested State Implementation Plan (SIP) revision submitted by the State of Arizona for the purpose of meeting requirements of the Clean Air Act, as amended in 1990 (CAA or Act) with regard to general permitting programs and prevention of significant deterioration (PSD) in areas of Pinal County that are in attainment of the national ambient air quality standards (NAAQS). The requested revision was submitted by the State to satisfy certain Federal requirements for an approvable SIP.

EPA is taking this action to approve the portions of Pinal's rules identified below into the SIP for the purpose of meeting the PSD and preconstruction permitting requirements of 40 CFR 51.160 through 51.164 and 51.166, under the authority granted by 40 CFR 51.105. Approval of Pinal's rules for the purposes of meeting the nonattainment preconstruction permitting requirements of 40 CFR 51.165 will take place under a separate action. This action does *not* in any way imply that Pinal's nonattainment permitting provisions meet the requirements of sections 171, 172, 173, 181, 182, 187, or 189 of the CAA. Failure on Pinal's part to submit rules which meet the requirements of 40 CFR 51.165 may trigger sanctions as provided for under section 179 of the Clean Air Act.

In the final rules section of this Federal Register, EPA is promulgating approval of Pinal's PSD and general permitting rules as a direct final rule without prior proposal because EPA views this submittal as noncontroversial and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rulemaking. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA

will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by May 9, 1996.

ADDRESSES: Written comments on this action should be addressed to: Jessica Gaylord, New Source Section (A-5-1), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 20

[CC Docket No. 94-54, FCC 96-126]

Wireless Telecommunications Services; Commercial Mobile Radio Service

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; dismissal.

SUMMARY: This *Order* terminates the Commission's inquiry into the imposition of equal access requirements on commercial mobile radio services (CMRS) providers. In light of recent amendments to the Communications Act of 1934, as amended, the Commission now finds that it no longer has the authority to require CMRS providers to offer equal access to common carriers for the provision of telephone toll services, and although the Commission is authorized in certain circumstances to prescribe regulations to afford subscribers unblocked access to the provider of telephone toll services of the subscribers' choice, the record does not establish a need for such a prescription at this time. The *Order* terminates further inquiry into these two aspects of the instant proceeding. The *Order* does not affect the status of the Commission's inquiry into related issues in this or other proceedings, including CMRS resale, roaming, and interconnection.

FOR FURTHER INFORMATION CONTACT: Jeffrey Steinberg, Wireless Telecommunications Bureau, Policy Division (202) 418-1310.
