Summary Statement of Serious Damage—El Salvador

Cotton and Manmade Fiber Skirts—Category 342/642

March 1996

The sharp and substantial increase in imports of cotton and manmade fiber skirts, Category 342/642, is causing serious damage or actual threat thereof to the U.S. industry producing cotton and manmade fiber skirts.

U.S. imports of Category 342/642 from all sources increased from 6,884,065 dozen in 1992 to 7,660,844 dozen in 1994, an increase of 11 percent. Category 342/642 imports continued to increase in 1995, reaching 9,247,612 dozen, 21 percent above the 1994 level.

Serious damage or actual threat thereof to the domestic industry producing cotton and manmade fiber skirts, Category 342/642, is attributed to a sharp and substantial increase in imports from El Salvador. The combination of high import levels, surging imports, and low priced goods from El Salvador has resulted in loss of domestic output, market share, employment, and man-hours worked.

U.S. imports of cotton and manmade fiber skirts, Category 342/642, from El Salvador reached 209,563 dozen in 1995, a sharp and substantial increase of 92 percent above the 1994 level. Imports from El Salvador of Category 342/642 were 109,070 dozen in 1994, 41 percent above the 77,220 dozen imported in 1993 and 29 percent above its 1992 level. 1995 imports from El Salvador were 2.3 percent of total U.S. imports in 1995 and 3.4 percent of U.S. production in the year-ending September 1995.

Department of the Navy

Notice of Public Hearing for the Draft Environmental Impact Statement for the Disposal and Reuse of Naval Station Long Beach, CA

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969 as implemented by the Council on Environmental Quality regulations (40 CFR Parts 1500-1508), the Department of the Navy has prepared and filed with the U.S. Environmental Protection Agency a Draft Environmental Impact Statement (DEIS) for the disposal and reuse of Naval Station (NAVSTA) Long Beach, California. The DEIS has been distributed to various federal, state and local agencies, elected officials, special interest groups, and the public. A Notice of Availability of the DEIS was published in the Federal Register on April 5, 1996. It also is on file and available for review at the Long Beach Public Library, Main Branch, 101 Pacific Avenue, Long Beach.

The Navy has analyzed the environmental effects of three alternatives, which include: (1) Development of the NAVSTA Long Beach as a marine container terminal, (2) development of the station as an intermodal railyard, and (3) a "No Action" alternative, which would maintain the station in a "caretaker" status.

No decision on the proposed action will be made until the NEPA process has been completed and the Secretary of the Navy, or a designated representative, releases the Record of Decision.

ADDRESSES: The Navy will conduct a public hearing on Wednesday, May 8, 1996, beginning at 7:00 p.m. at the Long Beach Public Library, Main Branch, 101 Pacific Avenue, Long Beach, California, to inform the public of the DEIS findings and to solicit comments. Federal, state and local agencies, and interested parties are invited to be present or represented at the hearing. Oral comments will be heard and transcribed by a stenographer. To assure accuracy of the record, all comments should be submitted in writing. All comments, both oral and written, will become part of the public record in the study. In the interest of available time, each speaker will be asked to limit oral
