The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

In addition, under an MOU signed in December 1990 with DOE, the Department of Health and Human Services (HHS) has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production and use. HHS delegated program responsibility to CDC.

Community involvement is a critical part of ATSDR's and CDC's energy-related research and activities and input from members of the ICHHP is part of these efforts. The ICHHP will work with the HHES to provide input on Native American health effects at the Hanford, Washington, site.

Purpose: The purpose of these meetings is to address issues that are unique to tribal involvement with the HHES, including considerations regarding a proposed medical monitoring program and explorations of options and alternatives to providing support for tribal involvement in the HHES.

Matters to be Discussed: Agenda items will include a dialogue around issues that are unique to tribal involvement with the HHES. This will include exploring options and alternatives to providing support for tribal involvement in HHES and a discussion of tribal representation on HHES.

Agenda items are subject to change as priorities dictate.
