**[Docket No. CP96-322-000]**

**Northern Natural Gas Company; Notice of Application**

April 18, 1996.

Take notice that on April 15, 1996, Northern Natural Gas Company (Northern), 111 South 103rd Street, Omaha, Nebraska 68124, filed in Docket No. CP96-322-000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon and remove the Sterling Co. No. 1 compressor station in Sterling County, Texas, all as more fully set forth in the application on file with the Commission and open to public inspection.

Northern states that the Sterling Co. No. 1 compressor station, which consists of one 1,000 horsepower unit, is no longer being utilized due to changes in operating conditions which have eliminated the need for this station. Northern further states that the volumes produced upstream of this station are split connected and currently flow to other pipelines, therefore, Northern requests authorization to abandon the Sterling Co. No. 1 compressor station in its entirety with the exception of two 8-inch above-ground valves with appurtenances and an extended stem connected to the

existing 8-inch below-ground block valve which will remain at the site.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 9, 1996, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Northern to appear or be represented at the hearing.
