5. Florida Gas Transmission Company
[Docket No. CP96-132-000]

Take notice that on January 4, 1996, Florida Gas Transmission Company (FGT), 1400 Smith Street, P.O. Box 1188, Houston, Texas 77251-1188, filed in Docket No. CP96-132-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to operate an existing meter station as a jurisdictional facility, under FGT's blanket certificate issued in Docket No. CP82-553-000 pursuant to Section 7 of the Natural Gas Act (NGA), all as more fully set forth in the request that is on file with the Commission and open to public inspection.

FGT proposes to operate an existing meter station as a jurisdictional facility under 7(c) of the NGA for the purpose of transporting and delivering natural gas for Alabama Electric Cooperative, Inc. and Southeast Alabama Gas District (AEC/SEAGD). FGT states that the subject meter station, located in Escambia County, Alabama, was previously constructed under Section 311 of the Natural Gas Policy Act of 1978 and serves as a delivery point to AEC/SEAGD from FGT's existing 36-inch and 30-inch mainlines under a firm transportation service agreement dated November 1, 1995. Initial gas deliveries commenced on November 19, 1995. FGT states that the present and proposed quantity of natural gas delivered at the subject meter station is up to 16,530 MMBtu per day and 2,496,030 MMBtu annually.

FTG states that the gas quantity proposed to be delivered to AEC/SEAGD at the subject meter station would be within the existing authorized levels of service and would have no incremental effect on FGT's pipeline system.
