OMB Review of Agency Information Collection Activities; Renewal of ICRs: Data Generation for Reregistration Activities; OMB #2070-0107; and FIFRA Section 29 Annual Reports on Conditional Registrations; OMB #2070- 0026

AGENCY: Environmental Protection
Agency (EPA), Office of Pesticide
Programs.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this notice announces that the Office of Prevention, Pesticides, and Toxic Substances (OPPTS) has submitted the following Information Collection Requests (ICRs) to the Office of Management and Budget (OMB) for renewed approval: (1) *Data Generation for Reregistration Activities* (OMB Control No. 2070-0107, EPA ICR No. 1504.03); and (2) *FIFRA Section 29 Annual Reports on Conditional Registrations* (OMB Control No. 2070-0026, EPA ICR No. 0601.05), which are both abstracted below. The ICRs describe the nature of the information collection and their expected cost and burden; where appropriate, they include the actual data collection instrument. A Federal Register notice proposing this submission and seeking public comment on this ICR was issued on February 14, 1996 (61 FR 1922). EPA did not receive any comments in response to that notice.

DATES: Comments must be submitted on or before May 31, 1996.

**FOR FURTHER INFORMATION OR A COPY
CALL:** Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1504.03 or EPA ICR No. 0601.05, as appropriate.

SUPPLEMENTARY INFORMATION:

(1) *Title:* Data Generation for Reregistration Activities (OMB Control No. 2070-0107, EPA ICR No. 1504.03). This is a request for the extension of a currently approved information collection which expires on June 30, 1996.

Abstract: FIFRA as amended in 1988 mandates that EPA reregister pesticides originally registered before November 1984. It establishes a process and a schedule for the development of the information EPA needs to assess whether reregistration of a pesticide or pesticide product causes an unreasonable adverse effect on human health or the environment. Pesticide registrants seeking reregistration must generate and report the required data according to specified time tables.

The purpose of this information collection activity is for EPA to obtain the data needed to assess whether a certain pesticide should be reregistered. Data may consist of toxicology studies, fish and wildlife studies, environmental fate studies, chemistry studies or other data needed to analyze the potential risks and benefits associated with pesticide chemicals and products.

Pesticide chemicals were divided into List A-D; and the reregistration process was divided into five phases. Reregistration phases 1 through 4 for chemicals on Lists B, C, and D are completed.

In Phase 5, EPA must conduct a comprehensive review of all data received on the active ingredient, and decide whether or not it is eligible to be reregistered. Additional or supplemental data may be needed before a final reregistration decision can be made. Also, FIFRA '88 requires registrants to provide product-specific data within 8 months of receipt of an eligibility decision on a pesticide active ingredient.

Data call-ins may be completed during the current ICR authorization, however, there is a good possibility that the need for DCIs will carry over to the

new ICR authorization. Additionally, follow up call-ins may be necessary after the data have been reviewed.

There are no third party disclosures associated with this activity.

Respondents/Affected Entities:

Producers of pesticide products who seek to support reregistration of their product.

Estimated No. of Respondents: 111.

Estimated Annual burden per respondent: 359.5 hours.

Estimated Total Annual Burden on Respondents: 39,909 hours.

Frequency of Collection: This information is collected on occasion when the data call-in is needed for reregistration.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 181 hours per list "A" chemicals; 318 hours per list "B" chemicals, 860 hours per list "C" and "D" chemicals, and 368 hours per product specific information. The average estimated burden per respondent is 359.5 hours. This estimate includes the time needed to Process, compile, and review information for accuracy; complete written forms; record, disclose, and display information; store, file, or maintain information. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

(2) *Title:* FIFRA Section 29 Annual Reports on Conditional Registrations (OMB Control No. 2070-0026, EPA ICR No. 0601.05). This is a request for the extension of a currently approved information collection which expires on July 31, 1996.

Abstract: Under Section 29 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), the EPA Administrator must submit an annual report to Congress. Included in this report is the total number of applications for conditional registration

of pesticides under FIFRA section 3(c)(7)(B) and 3(c)(7)(C) that were filed during the immediately preceding fiscal year. The information collected under this information collection request is the pesticide production volume for the previous fiscal year.

The information collected under section 29 of FIFRA is required by Congress to monitor the conditional registration program. The submission of annual production data is a requirement of a conditional registration as described in 40 CFR Part 152.115(b).

There are no third party disclosures associated with this activity.

Respondents/Affected Entities: Producers of pesticide products who seek conditional registrations.

Estimated No. of Respondents: 12.

Estimated Annual burden per respondent: 3 hours.

Estimated Total Annual Burden on Respondents: 36 hours.

Frequency of Collection: This information is collected once per year for the report to congress when a conditional registration is needed.

Burden Statement: The total annual public reporting and recordkeeping burden for this collection of information is estimated to average 36 hours. This estimate includes the time needed to read correspondences, plan activities, gather information, compile and review information, and complete paperwork. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to the following addresses. Please refer to EPA No. 1504.03 and OMB Control No. 2070-0107, or EPA No. 601.05 and OMB Control No. 2070-0026 as appropriate, in any correspondence.
