The estimates of costs for Form 5700-33H are discussed below. The annual burden costs for respondents consist of reading instructions, compiling information, completing forms, and filing the forms with EPA. The total time associated with providing the enforcement activity projections and quarterly accomplishments reports is 24 hours, times 70 respondents, which equals 1680 hours at an annual cost of \$25,200.00. The total time associated with providing the certification and training activities projections and semiannual accomplishment reports is nine hours, times 55 respondents, which equals 495 hours at an annual cost of \$7425.00. The entire annual cost of this collection is \$32,625.00.

Send comments regarding these matters, or any other aspect of the information collection, including suggestions for reducing the burden, to the address listed above.

**SUPPLEMENTARY INFORMATION:** Sections 108 to 109 of the Clean Air Act (CAA) govern the establishment, review, and revision of National Ambient Air Quality Standards (NAAQS). Section 108 directs the Administrator of the U.S. Environmental Protection Agency (EPA) to list pollutants that may reasonably be anticipated to endanger public health or welfare and to issue air quality criteria for them. The air quality criteria are to reflect the latest scientific information useful in indicating the kind and extent of all effects on public health and welfare that may be expected from the presence of the pollutant in ambient air. In keeping with these CAA mandates, this document evaluates the latest scientific information useful in deriving criteria to form scientific bases for decisions regarding possible revision of current PM NAAQS.
