SUPPLEMENTARY INFORMATION: Under 2 U.S.C. 131, 136, and 149, the Librarian of Congress has general and specific authority for the administration and disposition of Library materials; it pertains to the organization and handling of duplicate materials and to the exchange and transfer operations of the Library, sale, donation to domestic educational institutions and public bodies, and the disposition of materials not needed for any of these uses. In order to enhance these operations and to fill gaps in its permanent collections, the Library of Congress has encouraged libraries and other agencies of the Federal Government to send to the Library's Exchange and Gift Division all library materials that are surplus to their needs. For several decades this program benefitted the Library, the Federal library community and the general public. Because of reductions in staffing levels, due to budgetary constraints, and reduced demand in some categories, the Library can no longer fully utilize these materials. In analyzing the costs and benefits to the Federal Government, the Library found that the expenses to administer the current program far outweigh the benefits. By implementing this regulation, the Library will be able to redirect its remaining fiscal and human resources to efficiently administer a reduced, but more focused, program. Other Federal agencies will achieve considerable savings in labor and postage by not having to handle and ship unwanted materials to the Library of Congress. The proposed replacement text for 36 CFR 701.33(a)(4) is revised to set forth the general policy on the transfer of surplus library materials to reduce the volume and type of materials it receives from Federal agencies.

Proposed Regulations

In consideration of the foregoing the Library of Congress proposes to amend 36 CFR part 701 as follows:

Authority: 2 U.S.C. 131, 136 & 149.

2. Section 701.33(a)(4) is revised to read as follows:

§ 701.33 Acquisition of library materials by non-purchase means and disposition of surplus library materials.

(4) Transfer. Libraries and other agencies of the Federal Government are encouraged to send to the Library for disposition soft or hard-bound books that are surplus to their needs in the following categories: Novels and Reference works (e.g. encyclopedias, directories, guides, such as Encyclopedia of Associations, The World of Learning, The Statesman's Yearbook, Books in Print, etc.) not older than three years. And not older than five years in: Humanities (art, music, belles lettres etc.); History and area studies; Social sciences (economics, politics, etc.); Education; and Science (agriculture, medicine, computer science, mathematics, physics, etc.). Such transferred materials are needed to fill gaps in the Library's holdings, for exchanges, to transfer to other Federal agencies, and to make available through the Surplus Books Program to qualified recipients. The Library's Exchange and Gift Division (E&G) requests notification at the earliest possible date of any government libraries that are scheduled to close or be substantially reduced. The Library also requests that shipments of 1,000 pounds or more be cleared with E&G in advance. The Library does not accept bound and unbound serials. Federal agencies should dispose of surplus serials, and other surplus library materials not specified above, in accordance with their agency's regulations governing the disposal of surplus materials.

Revisions to Subchapter 3D .1401-.1415; Reasonably Available Control Technology for Sources of Nitrogen Oxides (No_x RACT); .1501-.1504 Transportation Conformity; and .1601-.1603; General Conformity are being addressed in separate Federal Register documents.
