

and operate certain facilities in Texas under NGT's blanket certificate issued in Docket No. CP82-384-000, *et al.*, pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

NGT proposes to design, install, construct and operate a dual 6 inch meter and appurtenant facilities, 1.5 miles of 8-inch pipeline and a high pressure tap and valve assembly necessary to deliver gas. The proposed delivery lateral will interconnect with NGT's line AM-47 in Russell Survey, Marion County, Texas. This subject line, AM-199, will be used to deliver natural gas to Southwestern Electric Power Company's electric generating plant near Avinger, Texas. The estimated volumes to be delivered to this delivery tap are approximately 12,000 MMBtu per day or an estimated 4,380,000 MMBtu on an annual basis. The subject delivery lateral will be constructed at an estimated cost of approximately \$500,985.

Comment date: July 1, 1996, in accordance with Standard Paragraph G at the end of this notice.

#### 4. Williams Natural Gas Company

[Docket No. CP96-515-000]

Take notice that on May 8, 1996, Williams Natural Gas Company (WNG), P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP96-515-000 a request pursuant to Sections 157.205 and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.216) for authorization to abandon certain facilities originally installed for the receipt of transportation gas in Logan, Creek and Payne Counties, Oklahoma under WNG's blanket certificate issued in Docket No. CP82-479-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

WNG proposes to abandon by removal measuring and appurtenant facilities originally installed for receipt of transportation gas from Associated Gas, Inc. located in Logan County, Oklahoma; Engasco, Inc. and PanEnergy Field Services, Inc. located in Creek County, Oklahoma; and TAG Petroleum, Inc. located in Payne County, Oklahoma. WNG states that the subject facilities are no longer needed. WNG estimates the total abandonment cost to be approximately \$4,900 with a salvage value of \$650.

Comment date: July 1, 1996, in accordance with Standard Paragraph G at the end of this notice.

#### Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an

application for authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-P

## FEDERAL COMMUNICATIONS COMMISSION

### Public Information Collection Requirement Submitted to OMB for Review

May 15, 1996.

**SUMMARY:** The Federal Communications, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following proposed information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. The Commission has requested an emergency OMB review of the collection with an approval by June 15, 1996.

**DATES:** Persons wishing to comment on this information collection should submit comments on or before June 3, 1996.

**ADDRESS:** Direct all comments to Timothy Fain, Office of Management and Budget, Room 10236 NEOB, Washington, DC 20503, (202) 395-3561 or via internet at [fain\\_t@a1.eop.gov](mailto:fain_t@a1.eop.gov), and Dorothy Conway, Federal Communications, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to [dconway@fcc.gov](mailto:dconway@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collections contact Dorothy

Conway at 202-418-0217 or via internet at dconway@fcc.gov.

#### SUPPLEMENTARY INFORMATION:

*OMB Approval Number:* New Collection.

*Title:* Antenna Registration Number Required as Supplement to Application Forms.

*Form No.:* N/A.

*Type of Review:* Emergency Collection.

*Respondents:* Individuals or households; Businesses or other for-profit; State, Local or Tribal Government; Not-for-profit institutions; Farms; Federal Government.

*Number of Respondents:* 516,000.

*Estimated Time Per Response:* 5 minutes.

*Total Annual Burden:* 43,344 hours.

*Needs and Uses:* Effective July 1, 1996, the current antenna clearance procedures are replaced with a uniform registration procedure that applies to antenna structure owners. Structure owners will receive an Antenna Structure Registration Number which is a unique number that identifies an antenna structure. Once obtained, this number must be used on all filings related to the antenna structure.

Collecting the Registration Number will enable the Commission to efficiently maintain a Registration Database, as well as process the applications without unnecessary delay related to antenna structure discrepancies. By entering the Registration Number in the database, FCC's tower clearance processors can immediately locate the information provided by the structure owner regarding the antenna site and ensure the validity and accuracy of the data provided. Without the Registration Number, the FCC's tower clearance processors would be "guessing" the structure registration number using coordinates and other data supplied by the applicant, thereby decreasing the integrity of the new Registration database.

The Commission released a Report and Order on November 30, 1995, WT Docket No. 95-5, adopting these new rules to streamline the Commission's antenna structure clearance process. While the Report and Order contained information relative to the Antenna Structure Registration Number requirement, it did not address the necessary notification of additional burden to collect the Registration Number prior to revision of the FCC's application forms.

The Commission is requesting an Emergency clearance by June 15, 1996 to collect the Registration Number with

application forms for licensing, effective July 1, 1996.

Federal Communications Commission.

William F. Caton,

*Acting Secretary.*

#### Notice of Public Information Collections being Reviewed by the Federal Communications Commission; Comments Requested

May 16, 1996.

**SUMMARY:** The Federal Communications, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Written comments should be submitted on or before July 22, 1996. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESS:** Direct all comments to Dorothy Conway, Federal Communications, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to dconway@fcc.gov.

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collections contact Dorothy Conway at 202-418-0217 or via internet at dconway@fcc.gov.
