Change of Dates and Locations for Ward Valley Public Scoping Workshops

AGENCY: Bureau of Land Management, Interior.

ACTION: Change to May 17, 1996; notice of intent.

SUMMARY: The Bureau of Land Management (BLM) in California announces a change of dates and locations for the Ward Valley public scoping workshops. The new dates and times will change those identified in BLM's May 17, 1996 Notice of Intent to prepare a Supplemental Environmental Impact Statement (SEIS) for a proposed land transfer to the State of California for the purpose of developing a low-level radioactive waste disposal facility at Ward Valley. The site of the proposed federal land transfer is located in San Bernardino County, California, approximately 20 miles west of the city of Needles.

DATES: Three public scoping workshops will be held, and each will be open to the public at the following dates and locations:

June in Sacramento 2-5 pm and 7-9 pm at the Red Lion Hotel, 2001 Point West Way, Sierra Room;
 June 15 in San Bernardino from 2-5 pm and 7-9 pm at the National Orange Show Grounds, Arrowhead Avenue, Gate 9, Renaissance Room;
 June 26 in Needles from 2-5 and 7-9 pm at Elks Lodge No. 1608, 1000 Lily Hill Drive.

The purpose of the workshops is to provide interested parties the opportunity to give us their views on the scope of issues to be addressed in the SEIS. The workshops will be conducted in an open house format, and participants may work individually with a BLM employee to record their comments on the range of issues to be considered in the SEIS. Written comments will also be accepted at the workshops.

No formal presentations or oral testimony before the public will be received during the scoping workshops; however, BLM is committed to having formal public hearings, with recorded oral public testimony, during the public comment period in the Draft SEIS.

ADDRESS: Any written comments or requests to be placed on the mailing list should be sent to Ward Valley Land Transfer Coordinator (CA-930), Bureau of Land Management, 2800 Cottage Way, Sacramento, CA 95825.

FOR FURTHER INFORMATION CONTACT: Richard F. Johnson or John S. Mills at (916) 979-2820.

SUPPLEMENTARY INFORMATION: The SEIS will focus on new information and circumstances, including the May 1995 National Academy of Sciences Report; the results of tritium and related testing to be conducted at the site; recent U.S. Geological Survey information concerning tritium and other radioactive materials detected in proximity to a closed LLRW facility at Beatty, Nevada, and other evidence of migration of radioactive and other wastes from the Beatty facility; the results of consultation with Native American Tribes; the possible effect of the proposed transfer, construction, and operation of the LLRW facility on areas of cultural importance to nearby Native American Tribes and any Tribal rights recognized by federal law; the designation of Ward Valley by the U.S. Fish and Wildlife Service as critical habitat for the desert tortoise and a 1995 FWS Biological Opinion evaluating the potential impacts of the land transfer and facility on the tortoise and its critical habitat; a report prepared by the U.S. Environmental Protection Agency concerning release of radionuclides into the atmosphere and effects on desert

tortoise habitat; a hydrogeologic report on the proposed facility site commissioned by the Metropolitan Water District of Southern California; and other information submitted by the public. Issues that were fully analyzed in the 1991 EIS/EIR and the 1993 SEIS (which was limited to the changed land transfer method from indemnity selection to direct sale), and are not the subject of new information or circumstances, will not be addressed in this SEIS.

A separate public notice will be issued in the near future regarding procedures for tritium and related testing to be done at the site.

Dated: May 29, 1996.

Ed Hastey,

State Director.
