

**§ 71.1 [Amended]**

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9C, *Airspace Designations and Reporting Points*, dated August 17, 1995, and effective September 16, 1995, is amended as follows:

*Paragraph 6005: Class E Airspace areas extending upward from 700 feet or more above the surface of the earth.*

\* \* \* \* \*

ASW NM E5 Deming, NM [Revised]

Deming Municipal Airport, NM  
(Lat. 32°15'44" N., long. 107°43'14" W.)  
Deming VORTAC

(Lat. 32°16'33" N., long. 107°36'20" W.)  
That airspace extending upward from 700 feet above the surface within a 6.8-mile radius of Deming Municipal Airport, and within 1.6 miles each side of the 081° radial of the Deming VORTAC extending from the 6.8-mile radius to 12.3 miles east of the airport, and within 1.8 miles each side of the 232° bearing from the airport extending from the 6.8-mile radius to 8.2 miles southwest of the airport.

BILLING CODE 4910-13-M

**14 CFR Part 71**

**[Airspace Docket No. 95-ASW-12]**

**Establishment of Class E Airspace; Tallulah, LA**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action establishes Class E airspace extending upward from 700 feet above ground level (AGL) at Tallulah, LA. The development of a Global Positioning System (GPS) standard instrument approach procedure (SIAP) to Runway (RWY) 18 at Vicksburg/Tallulah Regional Airport has made this action necessary. This action is intended to provide adequate Class E airspace to contain instrument flight rule (IFR) operations for aircraft executing the GPS SIAP to RWY 18 at Vicksburg/Tallulah Regional Airport, Tallulah, LA.

**EFFECTIVE DATE:** 0901 U.T.C., August 15, 1996.

**FOR FURTHER INFORMATION CONTACT:**

Donald J. Day, Operations Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Fort Worth, TX 76193-0530, telephone 817-222-5593.

**SUPPLEMENTARY INFORMATION:****History**

On January 24, 1996, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish the Class E airspace at Tallulah, LA, was published in the Federal Register (61 FR 1863). A GPS SIAP to RWY 18 developed for Vicksburg/Tallulah Regional Airport, Tallulah, LA, requires the establishment of Class E airspace at this airport. The proposal was to establish controlled airspace extending upward from 700 feet AGL to contain IFR operations in controlled airspace during portions of the terminal operation and while transitioning between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace designations for airspace areas extending upward from 700 feet or more AGL are published in Paragraph 6005 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

**The Rule**

This amendment to part 71 of the Federal Aviation Regulations (14 CFR Part 71) amends the Class E airspace located at Tallulah, LA, to provide controlled airspace extending upward from 700 feet AGL for aircraft executing the GPS SIAP to RWY 18.

The FAA has determined that this regulation only involves an established body of technical regulations that need frequent and routine amendments to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**List of Subjects in 14 CFR Part 71**

Airspace, Incorporation by reference, Navigation (air).

**Adoption of the Amendment**

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

**PART 71—[AMENDED]**

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 40103, 40113, 40120; E.O. 10854; 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

**§ 71.1 [Amended]**

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9C, *Airspace Designations and Reporting Points*, dated August 17, 1995, and effective September 16, 1995, is amended as follows:

*Paragraph 6005: Class E Airspace areas extending upward from 700 feet or more above the surface of the earth.*

\* \* \* \* \*

ASW LA E5 Tallulah, LA [New]

Vicksburg/Tallulah Regional Airport, LA  
(Lat. 32°21'06" N., long. 091°01'39" W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of Vicksburg/Tallulah Regional Airport excluding that airspace which overlies the Vicksburg, MS, Class E area.

BILLING CODE 4910-13-M

**14 CFR Part 71**

**[Airspace Docket No. 95-ASW-13]**

**Revision of Class E Airspace; Santa Fe, NM**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action revises the Class E airspace extending upward from 700 feet above ground level (AGL) at Santa Fe, NM. The development of a Global Positioning System (GPS) Standard Instrument Approach Procedure (SIAP) to Runway (RWY) 28 at Santa Fe Municipal Airport has made this action necessary. This action is intended to

provide adequate Class E airspace to contain instrument flight rule (IFR) operations for aircraft executing the GPS SIAP to RWY 28 at Santa Fe Municipal Airport, Santa Fe, NM.

**EFFECTIVE DATE:** 0901 U.T.C., August 15, 1996.

**FOR FURTHER INFORMATION CONTACT:** Chuck Frankenfield, Operation Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Fort Worth, TX 76193-0530, telephone 817-222-5591.

**SUPPLEMENTARY INFORMATION:**

**History**

On January 24, 1996, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Class E airspace at Santa Fe, NM, was published in the Federal Register (61 FR 1862). A GPS SIAP to RWY 28 developed for Santa Fe Municipal Airport, Santa Fe, NM, requires the revision of the Class E airspace at this airport. The proposal was to revise the controlled airspace extending upward from 700 feet AGL to contain IFR operations in controlled airspace during portions of the terminal operation and while transitioning between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. However, the proposal was published with incorrect coordinates for the location of the Santa Fe Municipal Airport. The correct coordinates for the airport should have been (Lat. 35°37'00" N, long. 106°05'17" W). The description of the Class E airspace in this rule has been revised to reflect this change. The FAA has determined that this is an editorial change and will not increase the scope of this rule. Except for the non-substantive change just discussed, the rule is adopted as proposed. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace designations for airspace areas extending upward from 700 feet or more AGL are published in Paragraph 6005 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

**The Rule**

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) amends the Class E airspace located at Santa Fe Municipal Airport,

Santa Fe, NM, to provide controlling airspace extending upward from 700 feet AGL for aircraft executing the GPS SIAP to RWY 28.

The FAA has determined that this regulation only involves an established body of technical regulations that need frequent and routine amendments to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**List of Subjects in 14 CFR Part 71**

Airspace, Incorporation by reference, Navigation (air).

**Adoption of the Amendment**

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

**PART 71—[AMENDED]**

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 40103, 40113, 40120; E.O. 10854; 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

**§ 71.1 [Amended]**

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9C *Airspace Designations and Reporting Points*, dated August 17, 1995, and effective September 16, 1995, is amended as follows:

*Paragraph 6005: Class E Airspace areas extending upward from 700 feet or more above the surface of the earth.*

\* \* \* \* \*

**ASW NM E5 Santa Fe, NM [Revised]**

Santa Fe County Municipal Airport, NM  
(Lat. 35°37'00" N, long. 106°05'17" W)  
Santa Fe VORTAC  
(Lat. 35°32'26" N, long. 106°03'54" W)

That airspace extending upward from 700 feet above the surface within a 9.7-mile radius of Santa Fe County Municipal Airport, and within 8 miles east and 4 miles west of the 165° radial of the Santa Fe VORTAC extending from the 9.7-mile radius to 20.8 miles southeast of the airport and within 2 miles each side of the 112° radial from the Santa Fe County Municipal Airport

extending from the 9.7-mile radius to 10.4 miles east of the airport.
