## DEPARTMENT OF DEFENSE

### Department of the Navy

#### Record of Decision for the Disposal and Reuse of Naval Air Station Glenview, IL

The Department of the Navy (Navy), pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. § 4321 *et seq.*, and the regulations of the Council on Environmental Quality that implement NEPA procedures, 40 CFR Parts 1500-1508, hereby announces its decision to dispose of Naval Air Station (NAS) Glenview, Illinois.

Navy intends to dispose of the property in a manner that is consistent with the Glenview Naval Air Station Consensus Reuse Plan submitted by the Village of Glenview, the Local Redevelopment Authority (LRA) for NAS Glenview, described in the Final Environmental Impact Statement (FEIS) as the preferred alternative. The Consensus Reuse Plan proposed a mixed use approach of commercial,

residential, recreational, public service, and open space land uses.

In deciding to dispose of NAS Glenview in a manner consistent with the Consensus Reuse Plan, Navy has determined that mixed land use will meet the goals of local economic redevelopment and creation of new jobs, while also maintaining the Village of Glenview's character and fiscal integrity, minimizing adverse environmental impacts, and ensuring land uses that are compatible with surrounding properties. This Record Of Decision does not mandate a specific mix of land uses. Rather, it leaves selection of the particular means to achieve the mixed use redevelopment to the acquiring entity and the local zoning authority.

#### Background

The 1993 Defense Base Closure and Realignment Commission recommended closure of NAS Glenview. This recommendation was then approved by President Clinton and accepted by the One Hundred Third Congress in 1993. Operations at NAS Glenview ceased on September 9, 1995, and the property has been in caretaker status since that date.

NAS Glenview is located entirely within the Village of Glenview and consists of 1,121 acres of fee-owned land with 110 buildings that contain 1,332,138 square feet of office and storage space. Navy has reserved 78 acres containing military family housing and open space for use as family housing that will serve the Naval Training Center at Great Lakes, Illinois. The remaining property is surplus to the needs of the Federal Government and can be conveyed.

Navy published a Notice of Intent in the Federal Register on February 3, 1994, announcing that Navy would prepare an Environmental Impact Statement that would analyze the impacts of disposal and reuse of the land, buildings, and infrastructure at NAS Glenview. A 30-day public scoping period was established, and a scoping meeting was held on February 17, 1994, in the Village of Glenview.

On July 14, 1995, Navy distributed a Draft Environmental Impact Statement (DEIS) to Federal, State, and local agencies, elected officials, special interest groups, and interested persons. Navy held a public hearing on August 17, 1995, in the Village of Glenview. Federal agencies, Illinois State agencies, local governments, and the general public commented on the DEIS. These comments and Navy's responses were incorporated in the Final Environmental Impact Statement (FEIS) which was distributed to the public on December 1,

1995, for a review that concluded on January 2, 1996. Navy did not receive any comments on the FEIS.

#### Alternatives

NEPA requires Navy to evaluate a reasonable range of alternatives for disposal and reuse of this Federal property. In the NEPA process, Navy analyzed the environmental impacts of various proposed land uses that could result from disposal of the Air Station property. As the basis for this analysis, Navy relied upon the reuse and redevelopment alternatives identified by The Glenview Community Reuse Planning Group, an organization created by the Village of Glenview in its capacity as the LRA. The Community Reuse Planning Group analyzed various redevelopment scenarios and land uses and prepared the Glenview Naval Air Station Consensus Reuse Plan which was presented to the Department of the Navy on June 21, 1995.

The Community Reuse Planning Group initially considered ten preliminary scenarios for redevelopment that it described as: (1) General Aviation, which based reuse on continued use of the Air Station as a general aviation airport with compatible industrial, office, and warehouse uses; (2) Inherent Land Use Suitability, which based reuse on a variety of physical characteristics such as accessibility, area requirements, adjacent land use, site attractiveness, and environmental constraints; (3) Core Area Prominence, which based reuse on maximizing adaptive reuse of the core area buildings and related development of other areas; (4) Residential Neighborhood Focus, which based reuse on the establishment of new neighborhoods and the introduction of other uses compatible with the residential neighborhoods; (5) Open Space Focus, which dedicated half of the Air Station to open space and recreation; (6) Public Use Focus, which based reuse on recreational, cultural, educational, and public service facilities; (7) Major Institution Focus, which based reuse on the presence of a major institution such as a university campus, regional government center, or medical facility; (8) Commercial/Industrial Focus, which based reuse on revenue-generating activities that would create jobs, maximize revenue flow, and minimize government costs; (9) Sports/Leisure Complex Focus, which based reuse on the development of private and public sports and recreational facilities of regional interest; and (10) A Comprehensive Plan, which based reuse on the Village of Glenview's 1990 Comprehensive Plan that emphasized
