

certain minimum requirements intended to reduce future flood losses. One such requirement is that the community obtain the elevation of the lowest flood (including basement) of all new and substantially improved structures, and maintain a record of all such information. These data may be generated and retained as part of the community's permit issuance and building inspection processes. The Elevation Certificate is one convenient way for a community to comply with this requirement. The Floodproofing Certificate may similarly be used to establish the required record in those instances when floodproofing for non-residential structures is a permitted practice.

Title. Post Construction Elevation Certificate/Floodproofing Certificate.
Type of Information Collection. Extension.

OMB Number. 3067-0077.

Form Numbers. FEMA Form 81-31, Elevation Certificate, FEMA Form 81-65, Floodproofing Certificate for Non-Residential Structures.

Abstract. The Elevation Certificate and Floodproofing Certificate are adjuncts to the application for flood insurance. The certificates are required for proper rating of post-Flood Insurance Rate Map (FIRM) structures, which are buildings constructed after publication of the FIRM, for flood insurance in Special Flood Hazard Areas. In addition, the Elevation Certificate is also needed for pre-FIRM structures being rated under post-FIRM flood insurance rules. The certificates provide community officials and others standardized documents to readily record needed information.

The certificates are supplied to insurance agents, community officials, surveyors, engineers, architects, and NFIP policyholders/applicants. The community officials or other professionals provide the elevation data required to document conformance with floodplain management regulations and for the applicants so that actuarial insurance rates can be charged. The elevation data is transmitted to the NFIP by the insurance applicant or agent with the appropriate NFIP policy forms.

The data is also used to assist FEMA in measuring the effectiveness of the NFIP regulations in eliminating or decreasing damage caused by flooding and the appropriateness of the NFIP premium charges for insuring property against the flood hazard.

Affected Public: Individuals and households, Businesses or other for-profit, Not-for-profit institutions, Farms, and State, local or tribal governments.

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act, including whether the acquisition of the nonbanking company can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices"
