Controlled Power Corporation, Canton, OH; Notice of Revised Determination On Reconsideration

On May 29, 1996, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The notice was published in the Federal Register on June 19, 1996 (FR 61 31165).

Investigation findings show that the workers produced low, medium and

high voltage metal clad switchgears. The workers were denied TAA because the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met. This test is generally determined through a survey of the workers' firm's major declining customers.

Findings on reconsideration show that the major domestic firms which were awarded the contract used foreign suppliers located in Italy, Switzerland, Germany and England for production.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that the workers of

Controlled Power Corporation of Canton, Ohio were adversely affected by increased imports of articles like or directly competitive with low, medium and high voltage metal clad switchgears produced at the subject firm.

All workers of Controlled Power Corporation, Canton, Ohio who became totally or partially separated from employment on or after November 26, 1994 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.
