Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the System Management Branch, AAL-530, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587. Communications must identify the notice number of this NPRM. The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to modify Class E airspace at Cold Bay, Nome, and Tanana, AK. This action is necessary to correct the airspace legal description for Cold Bay, AK, and accommodate new GPS instrument approach procedures at Nome Airport, AK, and Ralph M. Calhoun Airport (Tanana), AK. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 of FAA Order 7400.9C, dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class E airspace designation listed in this document would be published subsequently in the Order. The FAA has determined that these proposed regulations only involve an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated

impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—[AMENDED]

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9C, Airspace Designations and Reporting Points, dated August 17, 1995, and effective September 16, 1995, is amended as follows:

SUPPLEMENTARY INFORMATION: EPA issued a notice, published in the Federal Register of July 13, 1994 (59 FR 35717), which announced that Miles Corp. had submitted pesticide petition PP 4F4313 and food/feed additive petition (FAP) 4H5687 to EPA. Pesticide petition 4F4313 requests that the Administrator, pursuant to section 408(d) of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a(d), amend 40 CFR 180.436 by establishing tolerances for residues of the insecticide cyfluthrin, [cyano[4-fluoro-3-phenoxyphenyl]-methyl-3-[2,2-dichloroethenyl]-2,2-dimethylcyclopropanecarboxylate] in or on the raw agricultural commodities group citrus, fruits at 0.2 parts per millions (PPM).

Food/feed additive petition 4H5687 requests that the Administrator, pursuant to section 409(b) of the FFDCA (21 U.S.C. 348), amend 40 CFR parts 185 and 186 by establishing food/feed additive regulations for cyfluthrin in or on the processed food commodity citrus oil at 1.0 ppm, and the feed commodities citrus dried pulp at 1.0 ppm and citrus molasses at 0.5 ppm.

There were no comments or requests for referral to an advisory committee received in response to the notice of filing.

On May 2, 1996, Miles Corp. requested that the proposed food/feed additive regulation (4H5687) for citrus oil, citrus dried pulp, and citrus molasses under section 409 of FFDCA be withdrawn and proposed establishment of a maximum residue level (MRL) for citrus oil and citrus dried pulp at 0.3 ppm under section 701 of FFDCA. The request to withdraw the feed additive petition for citrus molasses was submitted in response to EPA's determination that citrus molasses is no longer considered a significant feed item. See EPA's final 860 Series Residue Chemistry Guidelines (860.1000) published as public drafts on August 25, 1995 (60 FR 44343) (formerly Table II of Subdivision O, Residue Chemistry, of the Pesticide Assessment Guidelines).

The request to withdraw the food/feed additive petition under section 409 for citrus oil and citrus dried pulp and instead propose to establish a MRL for citrus oil and citrus dried pulp under section 701 was submitted in response to EPA's policy changes regarding when pesticide residues concentrate in processed food and whether a particular processed food is considered "ready to eat." In June 1995 (60 FR 31300, June 14, 1995), EPA issued a revised policy concerning when section 409 food and feed additive tolerances were needed to
