

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 52**

[WA43-7116b; FRL-5514-5]

**Approval and Promulgation of Air Quality Implementation Plans; Washington; Revision to the State Implementation Plan Vehicle Inspection and Maintenance Programs****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Washington for the purpose of approving the Inspection and Maintenance (I/M) State Implementation Plan (SIP), for Washington State. On August 21, 1995, Washington submitted SIP revision requests to the EPA to satisfy the requirements of sections 182(b)(4) and 182(c)(3) of the Clean Air Act, as amended, and Federal I/M rule 40 CFR part 51, subpart S. These SIP revisions will require vehicle owners to comply with the Washington I/M program in the two Washington ozone nonattainment areas classified as "marginal" and in the three carbon monoxide nonattainment areas classified as "moderate". This revision applies to the Washington counties of Clark, King, Pierce, Snohomish, and Spokane. In the Final Rules Section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action.

**DATES:** Comments on this proposed rule must be received in writing by August 22, 1996.

**ADDRESSES:** Written comments should be addressed to Montel Livingston, Environmental Protection Specialist (OAQ-107), Office of Air Quality, at the EPA Regional Office listed below. Copies of the documents relevant to this proposed rule are available for public

inspection during normal business hours at the following locations. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day.

**FEDERAL EMERGENCY MANAGEMENT AGENCY****44 CFR Part 67**

[Docket No. FEMA-7187]

**Proposed Flood Elevation Determinations; Illinois et al.****AGENCY:** Federal Emergency Management Agency, FEMA.**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

**ADDRESSES:** The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

**FOR FURTHER INFORMATION CONTACT:** Michael K. Buckley, P.E., Chief, Hazard

Identification Branch, Mitigation Directorate, 500 C Street SW., Washington, DC 20472, (202) 646-2756.

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

*National Environmental Policy Act.*

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

*Regulatory Flexibility Act.* The Acting Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. As a result, a regulatory flexibility analysis has not been prepared.

*Regulatory Classification.* This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

*Executive Order 12612, Federalism.* This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

*Executive Order 12778, Civil Justice Reform.* This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

#### 49 CFR Parts 383 and 391

[FHWA Docket No. MC-93-23]

RIN 2125-AD20

#### Commercial Driver Physical Qualifications as Part of the Commercial Driver's License Process

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice of first meeting of negotiated rulemaking advisory committee.

**SUMMARY:** The FHWA announces the first meeting of an advisory committee (the Committee) established under the Federal Advisory Committee Act and the Negotiated Rulemaking Act to consider the relevant issues and attempt to reach a consensus in developing regulations governing the proposed merger of the State-administered commercial driver's license (CDL) procedures of 49 CFR Part 383 and the driver physical qualifications requirements of 49 CFR Part 391. The Committee is composed of persons who represent the interests that would be substantially affected by the rule.

**DATES:** The first meeting of the advisory committee will begin at 10:00 a.m. on August 7 and 8, 1996.

**ADDRESSES:** The first meeting of the advisory committee will be held in the Nassif Building, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, D.C. Subsequent meetings will be held at locations to be announced. The Committee will meet in room 4438 on August 7 and rooms 3200-3204 on August 8.

**FOR FURTHER INFORMATION CONTACT:** Ms. Teresa Doggett, Office of Motor Carrier Research and Standards, (202) 366-4001, or Ms. Grace Reidy, Office of Chief Counsel, (202) 366-0834, Federal Highway Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m. e.t., Monday through Friday, except Federal holidays.

#### SUPPLEMENTARY INFORMATION:

##### Background

On April 29, 1996, the FHWA published a notice of intent to establish an advisory committee for regulatory negotiation to develop regulations governing the proposed merger of the State-administered commercial driver's license procedures of 49 CFR Part 383 and the driver physical qualifications requirements of 49 CFR Part 391 (61 FR 18713). The notice requested comment on membership, the interests affected by the rulemaking, the issues the Committee should address, and the procedures it should follow. The notice also announced the May 14 public meeting that was sponsored by the agency. This organizational meeting was held in order to help identify and select organizations or interests to be represented on the Committee.

The FHWA received 20 comments on the notice of intent. None of the comments opposed using regulatory negotiation for this rulemaking; most endorsed the process and included requests to serve on the Committee and submitted nominations. Based on the responses to the notice of intent and for the reasons the FHWA stated in that notice, the Department of Transportation has determined that establishing an advisory committee on this subject is necessary and in the public interest. In accordance with section 9(c) of the Federal Advisory Committee Act, the Department of Transportation filed the charter for this Committee on July 12, authorizing the Committee to meet and begin negotiations. The Department has also selected the members of the Committee.

#### Negotiated Rulemaking Process

##### Mediator/Facilitator

In the notice of intent, the FHWA stated that it retained the services of a contractor, Mr. Philip J. Harter, to act as a convener and provide advice on the feasibility of using negotiated rulemaking for this rule. The FHWA is pleased to announce that Mr. Harter will be the mediator/facilitator of the Commercial Driver Physical Qualifications Negotiated Rulemaking Advisory Committee.

##### Membership

In addition to a mediator/facilitator, the Committee will consist of the following members:

- Federal Highway Administration
- American Association of Motor Vehicle Administrators
- New York (State commercial driver licensing agency)
- Utah (State commercial driver licensing agency)
- Wisconsin (State commercial driver licensing agency)
- Montana (State commercial driver licensing agency)
