

rehabilitation of the Haslett Warehouse. A distinct, 19th century San Francisco design theme would clearly establish the exceptional maritime identity of the park. The intersection at Hyde and Jefferson Streets would be redesigned to enhance pedestrian access and visibility of the pier and historic ships, and to expand interpretive opportunities. In addition to information regarding park facilities and programs, visitors would be encouraged to experience other related sites in the Bay Area.

Two additional alternatives are evaluated in the DEIS/GMP. Alternative B (Alt. B), similar to the proposed action, would emphasize the preservation and maintenance of the historic ships, small watercraft, library, and archival materials. Space would be upgraded and expanded for the park's collection. The park would pursue multiple strategies for major ship restoration work. Under Alt. B, the intersection of Hyde and Jefferson Streets would be developed further as an expanded/permanent pedestrian plaza with public seating, unobstructed views of the ships and Bay, and additional space for interpretive demonstrations, displays, and public programs.

Alternative C (Alt. C) is the "No Action/Minimum Requirements" option, and would continue current management strategies, with minimal actions implemented to stabilize and preserve the park's collection and historic properties.

SUPPLEMENTARY INFORMATION: The environmental consequences of the proposed action and the two other alternatives are fully documented in the DEIS/GMP, and appropriate mitigation measures to minimize impacts are identified. Copies of the DEIS/GMP will be available for public inspection at the park and at area libraries. Requests for copies of the document should be directed to: Superintendent, San Francisco Maritime National Historical Park, Attn: DEIS/GMP, National Park Service, Building E, Fort Mason, San Francisco, California, 94123, or by telephone at (415) 556-1659. Written comments on the draft document should also be directed to the Superintendent at the above address and must be received not later than 60 days after the publication of Notice of Availability by the Environmental Protection Agency.

Two public meetings will be held to facilitate public review of the DEIS/GMP. NPS officials will be available at these sessions to explain the alternatives, answer questions, and receive public comments. The first meeting will be held August 21, from

10:00 a.m. until 1:00 p.m., at Building F (Firehouse), Fort Mason, San Francisco, California. The second meeting will be held August 22, from 7:00 p.m. until 10:00 p.m., at the same location. For more details, contact San Francisco Maritime National Historical Park, Attn: DEIS/GMP, National Park Service, Bldg. E, Fort Mason, San Francisco, California, 94123, or inquire by telephone at (415) 556-1659.

Antitrust Division

[Civil Action No. 56-344 (AGS)]

United States District Court; Southern District of New York—United States of America, Plaintiff, vs. International Business Machines Corporation, Defendant

Take Notice that International Business Machines Corporation ("IBM"), defendant in this antitrust action, has filed a motion for an order terminating the final judgment entered by the United States District Court for the Southern District of New York on January 25, 1956 (the "Final Judgment"). IBM and the United States of America have consented to modify the Final Judgment to establish specific sunset periods for all provisions currently in effect, but the parties have reserved the right to withdraw their consent for at least 90 days after publication of this Notice. Prior to entry of an order modifying the Final Judgment, the Court and the parties will consider public comments. Any such comments on the proposed termination described in this Notice must be filed within 60 days following the publication of the last notice required by the Court's Order Directing Publication. The Complaint, Final Judgment and proposed modification are further described below.

The Complaint, filed on January 21, 1952, alleged that IBM had monopolized, attempted to monopolize and restrained trade in the tabulating industry, in violation of Sections 1 and 2 of the Sherman Act. The Final Judgment was entered by consent between the United States and IBM. The Final Judgment applies to IBM's conduct with respect to tabulating machines and cards, both of which IBM has not manufactured for many years, and "electronic data processing machines" ("computers"). Certain provisions of the Final Judgment have expired or no longer apply to IBM's business. However, other provisions of the Final Judgment continue to apply to IBM's computer business. On June 13, 1994, IBM filed its motion to terminate
