**DEPARTMENT OF TRANSPORTATION**

**Federal Aviation Administration**

**Notice of Availability of a Written Reevaluation/Technical Report on Changes to the Proposed JFK Airport Access Program, New York, NY**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of availability of written reevaluation/technical report and request for comments.

**SUMMARY:** The FAA is making available and invites public comment on changes to the proposed JFK Airport Access Program in New York, New York.

**DATES:** Comments must be received on or before September 20, 1996.

**ADDRESSES:** Requests to obtain a copy of the Technical Report, and written comments on the project changes should be made to:

Mr. Laurence Schaefer, Federal Aviation Administration, AEA-620, John F. Kennedy International Airport, Jamaica, NY 11430, Telephone: 718-553-3340; Fax: 718-995-9219  
Mr. Charles Andreski, New York State Department of Transportation, Region II, Hunters Point Plaza, 47-40 21st Street, Long Island City, NY 11101, Telephone: 718-482-4631; Fax: 718-482-4660

**FOR FURTHER INFORMATION CONTACT:** Messrs. Schaefer and Andreski as listed herein.

**SUPPLEMENTARY INFORMATION:** The Federal Aviation Administration (FAA) and the New York State Department of Transportation (NYSDOT) are Joint Lead Agencies for purposes of implementing the procedures required by the National Environmental Policy Act of 1969, as amended, on a proposed transportation system access improvement project sponsored by the Port Authority of New York and New Jersey (Project Sponsor) to John F. Kennedy International (JFK) Airport located in Queens, New York. The purpose of this notice is to inform

the public that there are changes in the proposed project since publication of the Draft Environmental Impact Statement (DEIS-Notice of Availability published Volume 59, No. 121 of the Federal Register, dated June 24, 1994) which are described in the FAA Written Reevaluation/Technical Report. This document is now available for public comment.

In response to issues raised during the NEPA review process for the originally proposed project and in light of the anticipated level of available funding for construction of the project, the Project Sponsor has concluded that an 8.4-mile long portion of the original 22 mile system in Queens using the same general alignment between Jamaica Station and JFK, an on-airport link to Howard Beach Station, and within the JFK Central Terminal Area, together comprise the proposed action. Each of the three segments has already been evaluated in the DEIS. The project sponsor has also focused its consideration of guideway technologies to light rail and refers to the revised project as the JFK-Light Rail System (LRS) Project.

The primary purpose of the proposed Project remains to improve ground access for air passengers and airport employees by providing a safe, quick, reliable and efficient means of travel to, from and on the Airport. Providing connecting links to the regional transit system will help the Airport realize its effective capacity and continue operating successfully.

Projected system ridership has changed as a result of the modification to the originally proposed project. In light of these changes, the FAA has analyzed the currently proposed project with respect to the following transportation system operational and related impacts: (1) Vehicular and pedestrian traffic at access locations; (2) system operational characteristics; (3) enplanements; (4) highway travel; and (5) air quality and noise including both airside and groundside impacts. The effects of the changes in system scope and ridership will not result in environmental impacts that differ substantially from those disclosed in the DEIS.

The FAA's Written Reevaluation/Technical Report contains the following information: Revised project description; review of the project purpose and need; revised alternatives analysis; revised ridership data; and identification and assessment of the environmental consequences of the project changes.

The FAA and NYSDOT will respond to comments received on the Written
