Notice is hereby given that the Office of Research on Women's Health, Office of the Director, National Institutes of Health, will convene a meeting on September 25, 26, and 27, 1996, at the DoubleTree Hotel Philadelphia, Broad Street at Locust, Philadelphia, Pennsylvania.

The purpose of the meeting is to update the current biomedical and behavioral research agenda for women's health, as presented in the Report of the National Institutes of Health:

Opportunities for Research on Women's Health, a publication based on a conference held in Hunt Valley, Maryland, September, 1991.

The first day, September 25, from 1:00 to 6:00 p.m., will be devoted to receiving public testimony from individuals representing organizations interested in biomedical and behavioral research on women's health issues. On September 26 and 27, concurrent working groups will discuss areas of science particularly relevant to women's health with attention to research design, health impact of collaborative and multidisciplinary research efforts, and issues of importance to young investigators. The meeting of September 26 will be from 9:00 a.m. to 5:30 p.m., and that of September 27 from 9:30 a.m. to approximately 3:30 p.m. All sessions of the meeting are open to the public.

Experts in fields of basic and clinical science; practitioners interested in women's health; representatives of scientific, professional and women's health organizations; and women's

health advocates will be asked to assess the current status of research in women's health in several defined areas, to identify gaps in existing knowledge, and to recommend scientific approaches and strategies to take advantage of promising opportunities for research on women's health. The conference will focus on scientific issues such as cardiovascular biology/vascular biology, neuroscience, immunology, infectious diseases and emerging infections, mental and addictive disorders, population science and health outcomes, reproductive health, and cancer. Other topics will focus on the conduct of research on women's health, including design strategies, and methods, and special issues for young investigators.

In the opening portion of the meeting devoted to public testimony, the Office of Research on Women's Health is inviting individuals representing organizations with an interest in research areas related to women's health to provide written and oral testimony on these topics:

1. Continuing or Emerging Gaps in Knowledge About Women's Health
2. Successful Models for the Recruitment, Retention, Reentry, and/or Advancement of Women in Biomedical Careers

Due to time constraints, only one representative from each organization may present oral testimony, with presentations limited to 10 minutes. A letter of intent to present such testimony should be sent by interested individuals and organizations to Ms. Kim Zink, Houston Associates, 1010 Wayne Avenue, Suite 1200, Silver Spring, MD 20910. Date of receipt of the letter will establish the order of presentation at the September meeting.

Presenters should send three (3) written copies of their testimony, including a brief description of their organization, to the above address no later than September 9, 1996.

Individuals and organizations wishing to provide written statements only may send three (3) copies of their statements to the above address by September 9, 1996. All written testimony will be made available to the conferees prior to the September 26 meeting day. Comments and questions related to the September meeting should be addressed to Ms. Zink.

This meeting is the first of three regional public hearings and scientific workshops of similar design to be convened by the Office of Research on Women's Health. At the conclusion of this series of meetings, the Office of Research on Women's Health will

convene a national meeting to address the deliberations and recommendations from the regional public hearings and scientific workshops for the purpose of developing a report on priorities for research on women's health for the 21st Century.

Dates and locations for future regional meetings will be announced.

Dated: August 3, 1996.
