INTERNATIONAL TRADE COMMISSION

Report to the President on Investigations Nos. TA-201-65 and NAFTA-302-1; Broom Corn Brooms¹

Investigation No. TA-201-65

Determinations and Findings With Respect to Injury

On the basis of the information in the investigation—

Chairman Rohr and Commissioners Newquist, Nuzum, and Bragg—

(1) Determine that broom corn brooms are being imported into the United States in such

¹ Broom corn brooms are provided for in subheadings 9603.10.05, 9603.10.15, 9603.10.35, 9603.10.40, 9603.10.50, and 9603.10.60 of the Harmonized Tariff Schedule of the United States (HTS).

increased quantities as to be a substantial cause of serious injury to the domestic industry producing an article like or directly competitive with the imported article; and

(2) find, pursuant to section 311(a) of the North American Free-Trade Agreement (NAFTA) Implementation Act, that imports of broom corn brooms produced in Mexico account for a substantial share of total imports of such brooms and contribute importantly to the serious injury caused by imports; but find that imports of broom corn brooms produced in Canada do not account for a substantial share of total imports and thus do not contribute importantly to the serious injury caused by imports.

Commissioners Crawford and Watson determine that broom corn brooms are not being imported into the United States in such increased quantities as to be a substantial cause of serious injury or threat of serious injury to the domestic industry producing an article like or directly competitive with the imported article.

Findings and Recommendations With Respect to Remedy

Chairman Rohr and Commissioner Newquist—

(1) Recommend that the President increase the rate of duty, for a 4-year period, on each of the categories of imports of broom corn brooms that are the subject of this investigation to a rate equal to the column 1 general rate of duty plus 12 percent ad valorem in the first year, 9 percent ad valorem in the second year, 6 percent ad valorem in the third year, and 3 percent ad valorem in the fourth year;

(2) having found that imports the product of Mexico account for a substantial share of total imports and have contributed importantly to the serious injury, recommend that Mexico not be excluded from this relief action; but having made a negative finding with respect to imports the product of Canada, recommend that such imports be excluded from any relief action;

(3) recommend that the President, for the duration of the relief action, suspend duty-free treatment on the subject articles entered from Caribbean Basin and Andean countries and apply the column 1 general rate plus the additional ad valorem rates of duty described above to imports from such countries; and

(4) recommend that this import relief action not apply to imports the product of Israel.

They find that this remedy will address the serious injury that they have found to exist and will be the most effective in facilitating the efforts of the domestic industry to make a positive adjustment to import competition. This remedy recommendation incorporates their separate recommendation with regard to NAFTA-302-1, discussed below.

Commissioners Nuzum and Bragg—

(1) Recommend that the President impose a rate of duty, in lieu of the current column
