

**DEPARTMENT OF THE INTERIOR****Fish and Wildlife Service****50 CFR Part 20****RIN 1018-AD69****Migratory Bird Hunting; Proposed Migratory Bird Hunting Regulations on Certain Federal Indian Reservations and Ceded Lands for the 1996-97 Season****AGENCY:** Fish and Wildlife Service, Interior.**ACTION:** Proposed rule.

**SUMMARY:** This rule proposes special migratory bird hunting regulations for certain tribes on Federal Indian reservations, off-reservation trust lands, and ceded lands for the 1996-97 migratory bird hunting season.

**DATES:** The comment period for these proposed regulations will end August 26, 1996.

**ADDRESSES:** Comments should be sent to: Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, 634—ARLSQ, 1849 C St., NW., Washington, DC 20240. Comments received, if any, on these proposed special hunting regulations and tribal proposals will be available for public inspection during normal business hours in Room 634—Arlington Square Building, 4401 N. Fairfax Drive, Arlington, VA.

**FOR FURTHER INFORMATION CONTACT:** Ron W. Kokel, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, (703/358-1714).

**SUPPLEMENTARY INFORMATION:** In the March 22, 1996, Federal Register (61 FR 11986), the Service requested proposals from Indian tribes wishing to establish special migratory bird hunting regulations for the 1996-97 hunting season, under the guidelines described in the June 4, 1985, Federal Register (50 FR 23467). The Service developed guidelines in response to tribal requests for recognition of their reserved hunting rights and, for some tribes, recognition of their authority to regulate hunting by both tribal and non-tribal members on their reservations. The guidelines include possibilities for:

(1) on-reservation hunting by both tribal and nontribal members, with hunting by nontribal members on some reservations to take place within Federal frameworks but on dates different from those selected by the surrounding State(s);

(2) on-reservation hunting by tribal members only, outside of usual Federal frameworks for season dates and length, and for daily bag and possession limits; and

(3) off-reservation hunting by tribal members on ceded lands, outside of usual framework dates and season length, with some added flexibility in daily bag and possession limits.

In all cases, the regulations established under the guidelines must be consistent with the March 10 to September 1 closed season mandated by the 1916 Migratory Bird Treaty with Canada. The guidelines apply to those tribes having recognized reserved hunting rights on Federal Indian reservations (including off-reservation trust lands) and on ceded lands. They also apply to establishing migratory bird hunting regulations for nontribal members on all lands within the exterior boundaries of reservations where tribes have full wildlife management authority over such hunting or where the tribes and affected States otherwise have reached agreement over hunting by nontribal members on lands owned by non-Indians within the reservation.

Tribes usually have the authority to regulate migratory bird hunting by nonmembers on Indian-owned reservation lands, subject to Service approval. The question of jurisdiction is more complex on reservations that include lands owned by non-Indians, especially when the surrounding States have established or intend to establish regulations governing hunting by non-Indians on these lands. In such cases, the Service encourages the tribes and States to reach agreement on regulations that would apply throughout the reservations. When appropriate, the Service will consult with a tribe and State with the aim of facilitating an accord. The Service also will consult jointly with tribal and State officials in the affected States where tribes wish to establish special hunting regulations for tribal members on ceded lands.

Because of past questions regarding interpretation of what events trigger the consultation process, as well as who initiates it, the Service provides the following clarification. The Service routinely provides copies of Federal Register publications to all State Directors, tribes and others interested parties. It is the responsibility of the States, tribes and others to notify the Service of any concern regarding any feature(s) of any regulations to the attention of the Service. When the Service receives such notification, we will initiate consultation.

Service guidelines provide for the continued harvest of waterfowl and other migratory game birds by tribal members on reservations where it has been a customary practice. The Service does not oppose this harvest, provided

it does not take place during the closed season defined by the 1916 Migratory Bird Convention with Canada, and does not adversely affect the status of the migratory bird resource.

Before developing the guidelines, the Service reviewed available information on the current status of migratory bird populations; reviewed the current status of migratory bird hunting on Federal Indian reservations; and evaluated the potential impact of such guidelines on migratory birds. The Service concluded that the impact of migratory bird harvest by tribal members hunting on their reservations is minimal.

One area of interest in Indian migratory bird hunting regulations relates to hunting seasons for nontribal members on dates that are within Federal frameworks, but which are different from those established by the State(s) where the reservation is located. A large influx of nontribal hunters onto a reservation at a time when the season is closed in the surrounding State(s) could result in adverse population impacts on one or more migratory bird species. The guidelines make this unlikely, however, because tribal proposals must include:

(a) details on the harvest anticipated under the requested regulations;

(b) methods to be used in measuring or monitoring harvest (such as bag checks, mail questionnaires, etc.);

(c) steps to be used to limit level of harvest, where it could be shown that failure to limit such harvest would adversely impact the migratory bird resource; and

(d) the tribes ability to establish and enforce migratory bird hunting regulations.

The Service may modify or establish regulations experimentally, after evaluation and confirmation of harvest information obtained by the tribes.

The Service believes the guidelines provide appropriate opportunity to accommodate the reserved hunting rights and management authority of Indian tribes while ensuring that the migratory bird resource receives necessary protection. The conservation of this important international resource is paramount. The guidelines should not be viewed as inflexible. In this regard, the Service notes that they have been employed successfully since 1985. The Service believes they have been tested adequately and therefore, made them final beginning with the 1988-89 hunting season. It should be stressed here, however, that use of the guidelines is not mandatory and no action is required if a tribe wishes to observe the hunting regulations established by the

State(s) in which the reservation is located.

In summary, this document proposes 1996–97 season migratory bird hunting regulations for participating tribes.

#### Hunting Season Proposals from Indian Tribes and Organizations

For the 1996–97 hunting season, the Service received requests from twenty tribes and Indian organizations in accordance with 1985 proposal guidelines and appropriate for Federal Register publication. The Fond du Lac Band of Lake Superior Chippewa Indians (Minnesota), the Point No Point Treaty Tribes (Washington), and the Swinomish Indians (Washington) are included in the regulations this year for the first time.

The Service actively solicits regulatory proposals from other tribal groups that have are interested in working cooperatively for the benefit of waterfowl and other migratory game birds. The Service encourages tribes to work with us to develop agreements for management of migratory bird resources on tribal lands.

It should be noted that this proposed rule includes generalized regulations for both early- and late-season hunting. A final rule will be published later in an August 1996 Federal Register that will include tribal regulations for the early-hunting season. The early season begins on September 1 each year and most commonly includes such species as mourning doves and white-winged doves. A final rule will also be published in a September 1996 Federal Register that will include regulations for late-season hunting. The late season begins on or around October 1 and most commonly includes waterfowl species.

In this current rulemaking, because of the compressed timeframe for establishing regulations for Indian tribes and because final frameworks dates and other specific information are not available, the regulations for many tribal hunting seasons are described in relation to the season dates, season length and limits that will be permitted when final Federal frameworks are announced for early- and late-season regulations. For example, daily bag and possession limits for ducks on some areas are shown as "Same as permitted Pacific Flyway States under final Federal frameworks," and limits for geese will be shown as the same permitted by the State(s) in which the tribal hunting area is located.

The proposed frameworks for early-season regulations were published in the Federal Register on July 19, 1996 (61 FR 37994); early-season final

frameworks will be published in mid-August. Proposed late-season frameworks for waterfowl and coots will be published in mid-August, and the final frameworks for the late seasons will be published in mid-September. The Service will notify affected tribes of season dates, bag limits, etc., as soon as final frameworks are established.

As previously discussed, no action is required by tribes wishing to observe migratory bird hunting regulations established by the State(s) where they are located.

The proposed regulations for the twenty tribes with proposals that meet the established criteria are shown below.

#### *(a) Colorado River Indian Tribes, Colorado River Indian Reservation, Parker, Arizona (Tribal Members and Non-tribal Hunters)*

The Colorado River Indian Reservation is located in Arizona and California. The tribes own almost all lands on the reservation, and have full wildlife management authority.

In their 1996–97 proposal, dated June 21, 1996, the Colorado River Indian Tribes requested split dove seasons. They propose their early season begin September 1 and end September 15, 1996. Daily bag limits would be 10 mourning or 10 white-winged doves either singly or in the aggregate. The late season for doves is proposed to open November 16, 1996, and close January 15, 1997. A daily bag limit would be 10 mourning doves. The possession limit would be twice the daily bag limit. Shooting hours would be from one-half hour before sunrise to noon. Other special tribally set regulations would apply.

The tribes also propose split duck hunting seasons. The first season would run from October 13, 1996, through November 10, 1996, and the second from December 7, 1996, through January 5, 1997. The tribes propose the same season dates for coots and common moorhens. The daily bag limit for ducks, including mergansers, would be 4 birds, which would include no more than 2 redheads, 2 pintails, 1 canvasback, or 1 Mexican duck. The possession limit would be twice the daily bag limit. The daily bag limit for coots and common moorhens would be 25, singly or in the aggregate. The possession limit for coots and common moorhens would be twice the daily bag limit.

For geese, the Colorado River Indian Tribes propose a season of October 19, 1996, through January 19, 1997. The daily bag and possession limits for geese would be 5, which would include no

more than 3 white geese (snow and/or Ross and blue geese) and not more than 2 dark geese (Canada geese).

Under the proposed regulations described here and, based upon past seasons, the tribes estimate harvest will be less than 400 ducks and 100 geese.

Hunters must have a valid Colorado River Indian Reservation hunting permit in their possession while hunting. As in the past, the regulations would apply both to tribal and non-tribal hunters, and non-toxic shot is required for waterfowl hunting. The Service proposes to approve the Colorado River Indian Tribes regulations for the 1996–97 hunting season.

#### *(b) Confederated Salish and Kootenai Tribes, Flathead Indian Reservation, Pablo, Montana (Non-tribal Hunters)*

For the past several years, the Confederated Salish and Kootenai Tribes and the State of Montana have entered into cooperative agreements for the regulation of hunting on the Flathead Indian Reservation. The State and the tribes are currently operating under a cooperative agreement signed in 1990 that addresses fishing and hunting management and regulation issues of mutual concern. This agreement enables all hunters to utilize waterfowl hunting opportunities on the reservation. The tribes proposed special regulations for waterfowl hunting were submitted to the Service in a May 28, 1996, proposal.

As in the past, tribal regulations for nontribal members would be at least as restrictive as those established for the Pacific Flyway portion of Montana. Goose season dates would also be at least as restrictive as those established for the Pacific Flyway portion of Montana.

Shooting hours for waterfowl hunting on the Flathead Reservation are sunrise to sunset. Steel shot is the only legal shotgun load on the reservation for waterfowl.

The requested season dates and bag limits are generally similar to past regulations. Harvest levels are not expected to change significantly. Standardized check station data from the 1993–94 and 1994–95 hunting seasons indicated no significant changes in harvest levels and that the large majority of the harvest is by non-tribal hunters.

The Service proposes to approve the tribes' request for special migratory bird regulations for the 1996–97 hunting season.

*(c) Crow Creek Sioux Tribe, Crow Creek Indian Reservation, Fort Thompson, South Dakota (Tribal Members and Non-tribal Hunters)*

The Crow Creek Indian Reservation has a checkerboard pattern of land ownership, with much of the land owned by non-Indians. Since the 1993–94 season, the tribe has selected special waterfowl hunting regulations independent of the State of South Dakota. The tribe observes migratory bird hunting regulations contained in 50 CFR part 20.

In a May 20, 1996, proposal, the tribe requested duck season dates of October 26 to December 22, 1995, with the same daily bag and possession limits permitted by the final Federal frameworks. The season and bag limits would be essentially the same as last year, given the final Federal frameworks, and harvest is again expected to be low because of the small number of hunters. In 1994–95, duck harvest was 48 birds, down from 67 in 1993–94.

For geese, the tribe requested a goose hunting season of October 5, 1996, through January 5, 1997, with the daily bag and possession limits the same as those permitted by final Federal frameworks. The tribe's estimated harvest for last season has not been compiled, however, the 1994–95 harvest was 90 geese. This figure is less than half of the estimated harvest for the previous hunting season. Harvest for the 1996–97 coming season should be approximately the same as that in 1994–95.

The Service proposes to approve the tribal requests for duck and goose hunting regulations. As with all other groups, the Service requests the tribe continue to survey and report harvest.

*(d) Fond du Lac Band of Lake Superior Chippewa Indians, Cloquet, Minnesota (Tribal Members Only)*

For the first time, the Service and the Fond du Lac Band of Lake Superior Chippewa Indians are cooperating to establish special migratory bird hunting regulations for tribal members. In the past, the Service and the band established these special regulations under the auspices of the Great Lakes Indian Fish and Wildlife Commission. The Fond du Lac's May 29, 1996, proposal covers land ceded to the band under the Treaty of 1854 in northeast Minnesota.

The band's proposal for 1996–97 is essentially the same as that approved by the Service last year for the Great Lakes Indian Fish and Wildlife Commission. For a more complete review of the

history, and the Service's position, surrounding the establishment of special migratory bird hunting regulations on lands ceded under the Treaty of 1854, see the proposal by the Great Lakes Indian Fish and Wildlife Commission below.

Specifically, the Fond du Lac Band proposes a September 14 to November 24, 1996, season on ducks, mergansers, geese, coots and moorhens, sora and virginia rails, snipe, and woodcock. Proposed bag limits would consist of the following:

**Ducks**

*Daily Bag Limit:* 20 ducks, including no more than 10 mallards (only 5 of which may be hens), 4 black ducks, 4 redheads, 4 pintails, and 2 canvasbacks.

**Mergansers**

*Daily Bag Limit:* 5 mergansers, including no more than 1 hooded merganser.

**Geese**

*Daily Bag Limit:* 10 geese.

**Coots and Common Moorhens (Common Gallinules)**

*Daily Bag Limit:* 25 coots and common moorhens, singly or in the aggregate.

**Sora and Virginia Rails**

*Daily Bag and Possession Limit:* 25 sora and Virginia rails singly, or in the aggregate.

**Common Snipe**

*Daily Bag Limit:* 8 common snipe.

**Woodcock**

*Daily Bag Limit:* 5 woodcock.

The following general conditions apply:

1. While hunting waterfowl, a tribal member must carry on his/her person a valid tribal waterfowl hunting permit.
2. Except as otherwise noted, tribal members will be required to comply with tribal codes that will be no less restrictive than the provisions of Chapter 10 of the Model Off-Reservation Code. Except as modified by the Service rules adopted in response to this proposal, these amended regulations parallel Federal requirements in 50 CFR Part 20 as to hunting methods, transportation, sale, exportation and other conditions generally applicable to migratory bird hunting.
3. Band members in each zone will comply with State regulations providing for closed and restricted waterfowl hunting areas.
4. Possession limits for each species are double the daily bag limit, except on

the opening day of the season, when the possession limit equals the daily bag limit, unless otherwise noted above. Possession limits are applicable only to transportation and do not include birds which are cleaned, dressed, and at a member's primary residence. For purposes of enforcing bag and possession limits, all migratory birds in the possession or custody of band members on ceded lands will be considered to have been taken on those lands unless tagged by a tribal or State conservation warden as having been taken on-reservation. All migratory birds which fall on reservation lands will not count as part of any off-reservation bag or possession limit.

The band anticipates harvest will be fewer than 500 ducks and geese and 150 coots. Estimated harvest is based on mail survey results from the 1995 season.

The Service proposes to approve the request for special migratory bird hunting regulations for the Fond du Lac Band of Lake Superior Chippewas.

*(e) Grand Traverse Band of Ottawa and Chippewa Indians, Suttons Bay, Michigan (Tribal Members Only)*

In the 1995–96 migratory bird seasons, the Grand Traverse Band of Ottawa and Chippewa Indians and the Service first cooperated to establish special regulations for waterfowl. The Grand Traverse Band is a self-governing, federally recognized tribe located on the west arm of Grand Traverse Bay in Leelanau County, Michigan. The Grand Traverse Band is a signatory tribe of the Treaty of 1836. The Service has approved special regulations for tribal members of the 1836 treaty's signatory tribes on ceded lands in Michigan since the 1986–87 hunting season.

For the 1996–97 season, the Grand Traverse Band of Ottawa and Chippewa Indians proposes a tribal member duck season that would run from September 15 through November 30, 1996. A daily bag limit of 7 would include no more than 1 pintail, 1 canvasback, 1 black duck, 2 wood ducks, 2 redheads, and 2 hen mallards.

For Canada geese, the tribe proposes a September 1 through November 30, 1996, and a January 1 through February 7, 1996, season. For white-fronted geese, brant, and snow geese, the tribe proposes an October 1 through November 30, 1996, season. The daily bag limit for all geese (including brant) would be 5 birds. Based on Service information, it is unlikely that any Canada geese from the Southern James Bay Population would be harvested by the tribe. All other Federal regulations

contained in 50 CFR part 20 would apply.

The tribe proposes to closely monitor harvest through game bag checks, patrols, and mail surveys. In particular, the tribe proposes monitoring the harvest of Southern James Bay Canada geese to assess any impacts of tribal hunting on the population.

The Service proposes to approve the Grand Traverse Band of Ottawa and Chippewa Indian's requested 1996-97 special migratory bird hunting regulations.

*(f) Great Lakes Indian Fish and Wildlife Commission, Odanah, Wisconsin (Tribal Members Only)*

Since 1985, various bands of the Lake Superior Tribe of Chippewa Indians have exercised judicially recognized off-reservation hunting rights for migratory birds in Wisconsin. The specific regulations were established by the Service in consultation with the Wisconsin Department of Natural Resources and the Great Lakes Indian Fish and Wildlife Commission (GLIFWC, which represents the various bands). Beginning in 1986, a tribal season on ceded lands in the western portion of the State's Upper Peninsula was developed in coordination with the Michigan Department of Natural Resources, and the Service has approved special regulations for tribal members in both Michigan and Wisconsin since the 1986-87, hunting season. In 1987, the GLIFWC requested and the Service approved special regulations to permit tribal members to hunt on ceded lands in Minnesota, as well as in Michigan and Wisconsin. The States of Michigan and Wisconsin concurred with the regulations, although Wisconsin has raised some concerns each year. Minnesota did not concur with the regulations, stressing that the State would not recognize Chippewa Indian hunting rights in Minnesota's treaty area until a court with jurisdiction over the State acknowledges and defines the extent of these rights. The Service acknowledged the State's concern, but pointed out that the United States Government has recognized the Indian hunting rights decided in the Voigt case, and that acceptable hunting regulations have been negotiated successfully in both Michigan and Wisconsin even though the Voigt decision did not specifically address ceded land outside Wisconsin. The Service believes this is appropriate because the treaties in question cover ceded lands in Michigan (and Minnesota), as well as in Wisconsin. Consequently, in view of the above, the

Service has approved special regulations since the 1987-88 hunting season on ceded lands in all three States. In fact, this recognition of the principle of reserved treaty rights for band members to hunt and fish was pivotal in a Service decision to approve a special 1991-92 season for the 1836 ceded area in Michigan.

Recently, certain GLIFWC member bands have brought suit to resolve the issue of hunting, fishing and gathering rights in the Minnesota ceded areas covered under the 1837 and 1854 treaties. The Federal Government has intervened in support of the bands.

In a May 29, 1996, letter, the GLIFWC proposed off-reservation special migratory bird hunting regulations for the 1996-97 seasons. Details of the proposed regulations are shown below. In general, the proposal is essentially identical to the regulations approved for the 1995-96 season for ducks (including mergansers) and geese for all of the Minnesota and Wisconsin ceded areas. Bag limits for ducks and geese in these areas would be 20 and 10, respectively, although certain sex and species restrictions would apply. Regulations proposed for the 1836 and 1842 Treaty areas located in Michigan would be the same as those permitted for the State of Michigan, except for the daily bag limit of geese. In the past, the GLIFWC's request for increased goose bag limits was objected to by the Service in the belief that the Southern James Bay Population of Canada Geese, a population that has declined dramatically in the past several years, could potentially be further hurt by this action. We now know that this goose population is not a major contributor to the GLIFWC member band harvest; probably less than 25 geese from this population are taken annually by the Bay Mills Community hunters.

Results of the 1995-96 hunter survey show that 2747 ducks and 391 geese were actually harvested. Under the proposed regulations, harvest is expected to be similar to last year and most likely would not exceed 3000 ducks and 900 geese.

The Service believes that regulations advanced by the GLIFWC for the 1996-97 hunting season are biologically acceptable and recommends approval. If the regulations are finalized as proposed, the Service would request that the GLIFWC closely monitor the member band duck harvest and take any actions necessary to reduce harvest if locally nesting populations are being significantly impacted.

The Commission and the Service are parties to a Memorandum of Agreement (MOA) designed to facilitate the ongoing

enforcement of Service-approved tribal migratory bird regulations. Its intent is to provide long-term cooperative application.

Also, as in recent seasons, the proposal contains references to Chapter 10 of the Migratory Bird Harvesting Regulations of the Model Off-Reservation Conservation Code. Chapter 10 regulations parallel State and Federal regulations and, in effect, are not changed by this proposal.

The GLIFWC's proposed 1996-97 waterfowl hunting season regulations are as follows:

**Ducks**

*A. Wisconsin and Minnesota 1837 and 1842 Zones:*

*Season Dates:* Begin September 15 and end November 7, 1996.

*Daily Bag Limit:* 20 ducks, including no more than 10 mallards (only 5 of which may be hens), 4 black ducks, 4 redheads, 4 pintails, and 2 canvasbacks.

*B. Michigan, 1842 Treaty Zone:* Same dates, season lengths, and daily bag limits permitted the State of Michigan for this area under final Federal frameworks.

*C. Michigan, 1836 Treaty Zone:* Same dates, season lengths, and daily bag limits permitted the State of Michigan for this area under final Federal frameworks.

**Mergansers**

*A. Wisconsin and Minnesota 1837 and 1842 Zones:*

*Season Dates:* Begin September 15 and end November 7, 1996.

*Daily Bag Limit:* 5 mergansers.

*B. Michigan, 1842 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 5, including no more than 1 hooded merganser.

*C. Michigan, 1836 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 5, including no more than 1 hooded merganser.

**Geese: Canada Geese**

*A. Wisconsin and Minnesota 1837 and 1842 Zones:*

*Season Dates:* Begin September 15 and end December 1, 1996.

*Daily Bag Limit:* 10 Canada geese, minus the number of blue, snow or white-fronted geese taken.

*B. Michigan, 1842 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 5.

*C. Michigan, 1836 Treaty Zone:* Same dates, season length and daily bag limit permitted the State of Michigan for this area under final Federal frameworks.

Geese: Blue, Snow and White-fronted Geese

*A. Wisconsin and Minnesota 1837 and 1842 Zones:*

*Season Dates:* Begin September 15 and end December 1, 1996.

*Daily Bag Limit:* 10 geese, minus the number of Canada geese taken.

*B. Michigan, 1842 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 7 geese, minus the number of Canada geese taken and including no more than 2 white-fronted geese.

*C. Michigan, 1836 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 7 geese, minus the number of Canada geese taken and including no more than 2 white-fronted geese.

Other Migratory Birds: Coots and Common Moorhens (Common Gallinules)

*A. Wisconsin and Minnesota 1837 and 1842 Zones:*

*Season Dates:* Begin September 15 and end November 7, 1996.

*Daily Bag Limit:* 20 coots and common moorhens (common gallinules), singly or in the aggregate.

*B. Michigan, 1842 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 20, singly or in the aggregate.

*C. Michigan, 1836 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 20, singly or in the aggregate.

Sora and Virginia Rails

*A. Wisconsin and Minnesota 1837 and 1842 Zones:*

*Season Dates:* Begin September 15 and end November 7, 1996.

*Daily Bag Limit:* 25 sora and Virginia rails singly, or in the aggregate.

*B. Michigan, 1842 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag and possession limit would be 25 sora and Virginia rails singly, or in the aggregate.

*C. Michigan, 1836 Treaty Zone:* Same dates and season length permitted the

State of Michigan for this area under final Federal frameworks. The daily bag and possession limit would be 25 sora and Virginia rails singly, or in the aggregate.

Common Snipe

*A. Wisconsin and Minnesota 1837 and 1842 Zones:*

*Season Dates:* Begin September 15 and end November 7, 1996.

*Daily Bag Limit:* 8 common snipe.

*B. Michigan, 1842 Treaty Zone:* Same dates and season length permitted for the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 8 common snipe.

*C. Michigan, 1836 Treaty Zone:* Same dates and season length permitted for the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 8 common snipe.

Woodcock

*A. Wisconsin and Minnesota 1837 and 1842 Zones:*

*Season Dates:* Begin September 3 and end November 30, 1996.

*Daily Bag Limit:* 5 woodcock.

*B. Michigan, 1842 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 5 woodcock.

*C. Michigan, 1836 Treaty Zone:* Same dates and season length permitted the State of Michigan for this area under final Federal frameworks. The daily bag limit would be 5 woodcock.

*D. General Conditions*

1. While hunting waterfowl, a tribal member must carry on his/her person a valid tribal waterfowl hunting permit.

2. Except as otherwise noted, tribal members will be required to comply with tribal codes that will be no less restrictive than the provisions of Chapter 10 of the Model Off-Reservation Code. Except as modified by the Service rules adopted in response to this proposal, these amended regulations parallel Federal requirements in 50 CFR Part 20 as to hunting methods, transportation, sale, exportation and other conditions generally applicable to migratory bird hunting.

3. Tribal members in each zone will comply with State regulations providing for closed and restricted waterfowl hunting areas.

4. Possession limits for each species are double the daily bag limit, except on the opening day of the season, when the possession limit equals the daily bag limit, unless otherwise noted above. Possession limits are applicable only to transportation and do not include birds which are cleaned, dressed, and at a

member's primary residence. For purposes of enforcing bag and possession limits, all migratory birds in the possession or custody of tribal members on ceded lands will be considered to have been taken on those lands unless tagged by a tribal or State conservation warden as having been taken on-reservation. In Wisconsin, such tagging will comply with applicable State laws. All migratory birds which fall on reservation lands will not count as part of any off-reservation bag or possession limit.

5. Minnesota and Michigan--Duck Blinds and Decoys. Tribal members hunting in Michigan and Minnesota will comply with tribal codes that contain provisions that parallel applicable State laws concerning duck blinds and/or decoys.

*(g) Jicarilla Apache Tribe, Jicarilla Indian Reservation, Dulce, New Mexico (Tribal Members and Non-tribal Hunters)*

The Jicarilla Apache Tribe has had special migratory bird hunting regulations for tribal members and nonmembers since the 1986-87 hunting season. The tribe owns all lands on the reservation and has recognized full wildlife management authority. In general, the proposed seasons would be more conservative than allowed by the Federal frameworks of last season and by States in the Pacific Flyway.

In a May 15, 1996, proposal, the tribe proposed a 1996-97 waterfowl season opening date of October 5 and a closing date of November 30, 1996. Daily bag and possession limits would be the same as Pacific Flyway States. The tribe proposes, however, a closed season on canvasbacks and Canada geese. Other regulations specific to the Pacific Flyway guidelines for New Mexico would be in effect.

The Jicarilla Game and Fish Department's annual estimate of waterfowl harvest is relatively small. In the 1995-96 season, estimated duck harvest was 1,104, down from 1,212 in 1994-95. The species composition in the past has included mainly mallards, gadwall, teal, and wigeon. Northern pintail comprised only 2 percent of the total harvest in 1994.

The proposed regulations are essentially the same as were established last year and the tribe anticipates the maximum 1996-97 waterfowl harvest would be around 1,300 ducks. However, a severe drought which occurred on the reservation could limit waterfowl hunting opportunities and result in a significantly decreased harvest.

The Service proposes to approve the tribe's requested 1996–97 hunting seasons.

*(h) Kalispel Tribe, Kalispel Reservation, Usk, Washington (Tribal Members and Non-tribal Hunters)*

The Kalispel Reservation was established by Executive Order in 1914, and currently comprises approximately 4600 acres. The tribe owns all Reservation land and has full management authority. The Kalispel Tribe has a fully developed wildlife program with hunting and fishing codes. The tribe enjoys excellent wildlife management relations with the State. The tribe and the State have an operational Memorandum of Understanding with emphasis on fisheries but also for wildlife. The non-tribal member seasons described below pertain to a 176 acre waterfowl management unit. The tribe is utilizing this opportunity to rehabilitate an area that needs protection because of past land use practices, as well as to provide additional waterfowl hunting in the area.

For the first time, the requested 1996–97 regulations also include a proposal for Kalispel-member only migratory bird hunting on Kalispel-ceded lands within Washington and Idaho.

For the 1996–97 migratory bird hunting seasons, the Kalispel Tribe proposed, in a June 18, 1996, letter, tribal and non-tribal member waterfowl seasons. For non-tribal members, the tribe requests seasons which begin 2 weeks earlier and end 2 weeks later than those for the State of Washington in the same area. The outside frameworks, however, for ducks and geese would run from October 1, 1996, through January 31, 1997. In that period, non-tribal hunters would be allowed to hunt on weekends, holidays and continuously in the month of December for a total of 68 days. Hunters should obtain further information on days from the Kalispel Tribe. Daily bag and possession limits would be the same as those for the State of Washington. Harvest is expected to be less than 200 geese and 250 ducks.

All other State and Federal regulations contained in 50 CFR Part 20, such as use of steel shot and possession of a signed migratory bird hunting stamp, would be required.

For tribal members on Kalispel-ceded lands, the Kalispel proposes outside frameworks for ducks and geese of October 1, 1996, through January 31, 1997. However, during that period, the tribe proposes that the season run continuously. Daily bag and possession limits would be the same as those for the States of Washington and Idaho.

Harvest is expected to be less than 200 geese and 250 ducks.

Tribal members would be required to possess a signed Federal migratory bird stamp and a tribal ceded lands permit.

The Service proposes to approve the regulations requested by the Kalispel Tribe.

*(i) Klamath Tribe, Chiloquin, Oregon (Tribal Members Only)*

The Klamath Tribe currently has no reservation, per se. However, the Klamath Tribe has reserved hunting, fishing and gathering rights within its former reservation boundary. This area of former reservation, granted to the Klamaths by the Treaty of 1864, is over 1 million acres. Tribal natural resource management authority is derived from the Treaty of 1864, and carried out cooperatively under the judicially enforced Consent Decree of 1981. The parties to this Consent Decree are the Federal Government, the State of Oregon and the Klamaths. The Klamath Indian Game Commission sets the seasons. The tribal biological staff and tribal Regulatory Enforcement Officers monitor tribal harvest by frequent bag checks and hunter interviews.

In a May 31, 1996, letter, the Klamath Tribe proposed season dates that run from October 1, 1996, through January 31, 1997. Daily bag limits would be 9 for ducks and 6 for geese with possession limits twice the daily bag limit. The daily bag and possession limit for coots would be 25. Shooting hours would be one-half hour before sunrise to one-half hour after sunset.

Based on the number of birds produced in the Klamath Basin, the tribe expects that this year's duck harvest will be similar to last year's while goose harvest will most likely be above 1995 levels. Information on tribal harvest suggests that more than 70 percent of the annual goose harvest is local birds produced in the Klamath basin.

The Service proposes to approve the regulations of the Klamath Tribe.

*(j) Lower Brule Sioux Tribe, Lower Brule Reservation, Lower Brule, South Dakota (Tribal Members and Non-tribal Hunters)*

The Lower Brule Sioux Tribe first established tribal migratory bird hunting regulations for the Lower Brule Reservation in 1994. The Lower Brule Reservation is about 214,000 acres in size and is located on and adjacent to the Missouri River, south of Pierre. Land ownership on the reservation is mixed, however, the Lower Brule Tribe currently has full management

authority. On-reservation management authority over fish and wildlife was established for the Lower Brule Sioux Tribe via a MOA with the State of South Dakota, dated October 24, 1986. The MOA provides the tribe jurisdiction over fish and wildlife on reservation lands, including deeded and Corps of Engineers taken lands. Although the tribe is in litigation with the State of South Dakota regarding jurisdiction, this MOA has continued to be in effect until ultimate settlement by the Federal District Court. This year, the Federal District Court granted a recent motion for a stay which will allow the existing MOA to continue. Meetings between the Lower Brule Sioux Tribe, the South Dakota Department of Game, Fish and Parks and the Service are continuing. For the 1996–97 season, this stay will allow the public a clear understanding of the Lower Brule Sioux Wildlife Department license requirements and hunting season regulations. The Lower Brule Reservation waterfowl season is open to tribal and non-tribal hunters.

For the 1996–97 migratory bird hunting season, the Lower Brule Sioux Tribe proposes a duck season length of 83 days, the same number of days as allowed in the High Plains Management Unit. The tribe's proposed season would run from October 10 through December 31, 1996. The daily bag limit would be the same as that allowed by South Dakota. Possession limits would be twice the daily bag limits.

The tribe's proposed goose season would run from October 7 through December 31, 1996, with a daily bag limit of 2 dark geese, which may not include more than 1 white-fronted geese. The daily bag limit for light geese would be 10. Possession limits would be twice the daily bag limits.

In the 1995–96 season, hunters harvested an estimated 411 geese and 362 ducks. In 1994, duck harvest species composition was primarily mallard (57 percent), gadwall (10 percent), and green-winged teal (10 percent). Goose harvest was 98 percent Canada geese. Additionally, 1995 tribal goose camp harvest was 2,511 geese. For the past 3 years, goose camp harvest averaged approximately 3,000 geese. In 1994, 97 percent of this traditional harvest was Canada geese.

The tribe anticipates a duck harvest of 500 birds and a goose harvest similar to the 3-year average if its 1996–97 regulations are approved. All basic Federal regulations contained in 50 CFR Part 20, including the use of steel shot, Migratory Waterfowl Hunting and Conservation Stamp, etc., would be observed by the tribe's proposed regulations. In addition, the Lower

Brule Sioux Tribe has an official Conservation Code that was established by Tribal Council Resolution on June 1982 and updated in 1996.

The Service proposes to approve the tribe's proposed regulations for the Lower Brule Reservation.

*(k) Navajo Nation, Navajo Indian Reservation, Window Rock, Arizona (Tribal Members and Non-tribal Hunters)*

Since 1985, the Service has established uniform migratory bird hunting regulations for tribal members and nonmembers on the Navajo Indian Reservation (in parts of Arizona, New Mexico, and Utah). The nation owns almost all lands on the reservation and has full wildlife management authority.

In a July 17, 1996, communication, the tribe proposed special migratory bird hunting regulations on the reservation for both tribal and non-tribal members for the 1996–97 hunting season for ducks (including mergansers), Canada geese, coots, band-tailed pigeons, and mourning doves. For waterfowl, the Navajo Nation requests the earliest opening dates and longest seasons, and the same daily bag and possession limits, permitted Pacific Flyway States under final Federal frameworks.

For both mourning dove and band-tailed pigeons, the Navajo Nation proposes seasons of September 1 through 30. The Navajo Nation also proposes daily bag limits of 10 and 5 for mourning dove and band-tailed pigeon, respectively. Possession limits would be twice the daily bag limits.

In addition, the nation proposes to require tribal members and nonmembers to comply with all basic Federal migratory bird hunting regulations in 50 CFR Part 20 pertaining to shooting hours and manner of taking. In addition, each waterfowl hunter 16 years of age or over must carry on his/her person a valid Migratory Bird Hunting and Conservation Stamp (Duck Stamp) signed in ink across the face. Special regulations established by the Navajo Nation also apply on the reservation.

The Service proposes to approve the Navajo Nation request for these special regulations for the 1996–97 migratory bird hunting seasons.

*(l) Oneida Tribe of Indians of Wisconsin, Oneida, Wisconsin (Tribal Members Only)*

Since 1991–92, the Oneida Tribe of Indians of Wisconsin and the Service have cooperated to establish uniform regulations for migratory bird hunting

by tribal and non-tribal hunters within the original Oneida Reservation boundaries. Since 1985, the Oneida Tribe's Conservation Department has enforced their own hunting regulations within those original reservation limits. The Oneida Tribe also has a good working relationship with the State of Wisconsin and the majority of the seasons and limits are the same for the tribe and Wisconsin.

In a June 3, 1996, letter to the Service, the tribe proposed special migratory bird hunting regulations. For ducks, geese, and woodcock, the tribe described the general "outside dates" as being September 1 through November 30, 1996, inclusive.

The tribe recommends a season quota of 150 Canada geese. Canada goose bag limits would be 2 tribally tagged geese per day. The tribe will reissue 2 tags when 2 birds are registered. The possession limit for Canada geese is 4. If the quota is attained before the season concludes, the tribe will recommend closing the season early.

For ducks, the tribe proposes a daily bag limit of 5 birds, which could include no more than 3 mallards, 1 hen mallard, 4 wood ducks, 1 canvasback, 1 redhead, 2 pintails, and 1 hooded merganser.

For woodcock, the tribe proposes a daily bag and possession limit of 6 and 12, respectively.

The tribe proposes shooting hours be one-half hour before sunrise to sunset. Tribal members and non-tribal members hunting on the Reservation or on lands under the jurisdiction of the tribe will observe all basic Federal migratory bird hunting regulations found in 50 CFR, with the following exceptions. Indian hunters would be exempt from the purchase of the Migratory Waterfowl Hunting and Conservation Stamp (Duck Stamp); and shotgun capacity would not be limited to 3 shells.

The Service proposes to approve the request for special migratory bird hunting regulations for the Oneida Tribe of Indians of Wisconsin, provided the tribe continues to delay the opening of their duck season until September 15. The Oneida tribe has traditionally delayed the opening of their duck season to September 15 to avoid possible significant impacts on local nesting duck populations. The Service commends the tribe for these conservation efforts.

*(m) Point No Point Treaty Tribes, Kingston, Washington (Tribal Members and Non-tribal Hunters)*

For the first time, the Service and the Point No Point Treaty Tribes, consisting of the Skokomish, Port Gamble

Sklallam, Jamestown Sklallam, and Elwha Sklallam tribes, are cooperating to establish special regulations for migratory bird hunting. The four tribes have reservations located on the Olympic Peninsula in Washington. All four tribes have successfully administered tribal hunting regulations since 1985 and each tribe has a comprehensive hunting ordinance.

The tribes' May 10, 1996, proposal requests seasons for ducks, geese, brant, snipe, grebes, and mourning doves with the earliest opening date available, and the same daily bag and possession limits and season length allowed under final Federal frameworks for the Pacific Flyway and the State of Washington in 1996. For conservation, the tribes request a closed season on wood ducks, harlequin ducks, Aleutian Canada geese, cackling Canada geese, band-tailed pigeons and swans.

Anticipated tribal harvest under the proposed regulations is approximately 300 to 350 birds for all four tribes. Harvest is monitored using a mail survey after the season.

The Service proposes to approve the Point No Point Treaty Tribes requested 1996–97 regulations.

*(n) Seminole Tribe of Florida, Big Cypress Seminole Reservation, Clewiston, Florida (Tribal Members and Non-tribal Hunters)*

For the first time, in the 1995–96 migratory bird seasons, the Seminole Tribe of Florida and the Service cooperated to establish regulations for the 70,000 acre Big Cypress Seminole Reservation. Located northwest of Miami, the Big Cypress Seminole Reservation is totally tribally owned and the tribe has full wildlife management authority.

For the 1996–97 season, the Seminole Tribe proposes establishing a mourning dove season from September 22, 1996, through January 15, 1997. Hunting would be allowed for tribal and non-tribal members, but would be on Sundays only from 1:00 p.m. to sunset. Daily bag limits would be the same as those allowed within the Federal frameworks for the State of Florida. All other Federal regulations contained in 50 CFR part 20 would apply.

The tribe expects the harvest for the Reservation to be 6,000 doves, and will cease hunting after the anticipated harvest has been reached. The tribe controls all entry to the hunt area.

The Service proposes to approve the Seminole Tribe's requested 1996–97 special migratory bird hunting regulations.

*(o) Shoshone-Bannock Tribes, Fort Hall Indian Reservation, Fort Hall, Idaho (Non-tribal Hunters)*

Almost all of the Fort Hall Indian Reservation is tribally-owned. The tribes claim full wildlife management authority throughout the reservation, but the Idaho Fish and Game Department has disputed tribal jurisdiction, especially for hunting by non-tribal members on reservation lands owned by non-Indians. As a compromise, since 1985, the Service has established the same waterfowl hunting regulations on the reservation and in a surrounding off-reservation State zone. The regulations were requested by the tribes and provided for different season dates than in the remainder of the State. The Service agreed to the season dates because they seemed to provide additional protection to mallards and pintails. The State of Idaho concurred with the zoning arrangement. The Service has no objection to the State's use of this zone again in the 1996-97 hunting season, provided the duck and goose hunting season dates are the same as on the reservation.

In a May 22, 1996, proposal for the 1996-97 hunting season, the Shoshone-Bannock Tribes requested a continuous duck (including mergansers) season with the maximum number of days and the same daily bag and possession limits permitted Pacific Flyway States, under final Federal frameworks. The tribes propose that, if the same number of hunting days (93) are permitted as last year, the season would have an opening date of October 8, 1996, and a closing date of January 8, 1997. Coot and snipe season dates would be the same as for ducks, with the same daily bag and possession limits permitted Pacific Flyway States. The tribes anticipate harvest will be between 2,000 and 5,000 ducks.

The tribes also requested a continuous goose season with the maximum number of days and the same daily bag and possession limits permitted Idaho under Federal frameworks. The tribes propose that, if the same number of hunting days (93) are permitted as in previous years, the season would have an opening date of October 8, 1996, and a closing date of January 8, 1997. The tribes anticipate harvest will be between 4,000 and 6,000 geese.

Non-tribal hunters must comply with all basic Federal migratory bird hunting regulations in 50 CFR Part 20, pertaining to shooting hours, use of steel shot, and manner of taking. Special regulations established by the Shoshone-Bannock Tribes also apply on the reservation.

The Service notes that the requested regulations are nearly identical to those of last year and proposes they be approved for the 1996-97 hunting season.

*(p) Squaxin Island Tribe, Squaxin Island Reservation, Shelton, Washington (Tribal Members Only)*

For the first time, in the 1995-96 migratory bird seasons, the Squaxin Island Tribe of Washington and the Service cooperated to establish special tribal migratory bird hunting regulations. These special regulations would apply to tribal members on the Squaxin Island Reservation, located in western Washington near Olympia, and all lands within the traditional hunting grounds of the Squaxin Island Tribe.

For the 1996-97 season, the tribe proposes establishing duck, coot, and snipe seasons that would run from September 15, 1996, through January 15, 1997. The daily bag limit for ducks would be 5 per day and could include only 1 canvasback. The season on harlequin ducks would be closed. For coots and snipe, the daily bag limit would be 25 and 8, respectively.

For geese, the tribe proposes establishing a season that would run from September 15, 1996, through January 15, 1997. The daily bag limit for geese would be 4 per day and could include only 2 snow geese and 1 dusky Canada goose. The season on Aleutian and Cackling Canada geese would be closed.

For brant, the tribe proposes establishing a September 15 to December 31, 1996, season with a daily bag limits of 2 birds per day. The tribe also proposes a September 15 to December 1, 1996, season for band-tailed pigeons with a daily bag limit of 2 per day.

In all cases, the possession limit would be twice the daily bag limit. Shooting hours would be from one-half hour before sunrise to one-half hour after sunset and steel shot would be required for migratory bird hunting. Further, the tribe requires all harvest be reported to their Natural Resources Office within 72 hours.

Under the proposed regulations, the tribe estimates the harvest for the Reservation will be as follows: 400 ducks; 2,500 coots; 800 snipe; 400 geese; and 200 brant. In 1995, the tribe reports that there was no harvest of any species. Tribal regulations are enforced by the tribe's Law Enforcement Department.

The Service proposes to approve the Squaxin Island Tribe's requested 1996-97 special migratory bird hunting regulations.

*(q) The Tulalip Tribes of Washington, Tulalip Indian Reservation, Marysville, Washington (Tribal Members and Non-tribal Hunters)*

The Tulalip Tribes are the successors in interest to the Snohomish, Snoqualmie and Skykomish tribes and other tribes and bands signatory to the Treaty of Point Elliott of January 22, 1855. The Tulalip Tribes' government is located on the Tulalip Indian Reservation at Marysville, Washington. The tribes or individual tribal members own all of the land on the reservation, and they have full wildlife management authority. All lands within the boundaries of the Tulalip Tribes Reservation are closed to non-member hunting unless opened by Tulalip Tribal regulations.

In a June 19, 1996, letter, the Tulalip Tribes proposed tribal and non-tribal hunting regulations for the 1996-97 seasons as follows:

For ducks and coot, the proposed season for tribal members would be from September 15, 1996, through February 1, 1997. In the case of non-tribal hunters hunting on the reservation, the season would be the latest closing date and the longest period of time allowed for the State of Washington under final Pacific Flyway Federal frameworks. Daily bag and possession limits for Tulalip Tribal members would be 6 and 12 ducks, respectively, except that for blue-winged teal, canvasback, harlequin, pintail, and wood duck, the bag and possession limits would be the same as those established for the State of Washington in accordance with final Federal frameworks. For non-tribal hunters, bag and possession limits would be the same as those permitted the State of Washington under final Federal frameworks. Non-tribal members should check with the Tulalip tribal authorities regarding additional conservation measures which may apply to specific species managed within the region.

For geese, tribal members are proposed to be allowed to hunt from September 15, 1996, through February 1, 1997. Non-tribal hunters would be allowed the longest season and the latest closing date permitted for the State of Washington under final Federal frameworks. For tribal hunters, the goose daily bag and possession limits would be 6 and 12, respectively, except that the bag limits for brant, cackling Canada geese and dusky Canada geese would be those established for the Pacific Flyway in accordance with final Federal frameworks. For non-tribal hunters hunting on reservation lands,

the daily bag and possession limits would be those established in accordance with final Federal frameworks for the State of Washington. The Tulalip Tribes also set a maximum annual bag limit on ducks and geese for those tribal members who engage in subsistence hunting.

Snipe open seasons would follow seasons proposed for ducks and coot detailed above. For both tribal and non-tribal hunters, snipe daily bag and possession limits would be 6 and 12, respectively.

All hunters on Tulalip Tribal lands are required to adhere to shooting hour regulations set at one-half hour before sunrise to sunset, special tribal permit requirements, and a number of other tribal regulations enforced by the tribe. Non-tribal hunters sixteen years of age and older, hunting pursuant to Tulalip Tribes' Ordinance No. 67, must possess a valid Federal Migratory Bird Hunting and Conservation Stamp and a valid State of Washington Migratory Waterfowl Stamp. Both stamps must be validated by signing across the face.

Although the season length requested by the Tulalip Tribes appears to be quite liberal, 1990–92 harvest information indicates a total take by tribal and non-tribal hunters under 1,000 ducks and 500 geese, annually. The Service proposes approval of the Tulalip Tribes request for the above seasons. The Service requests that harvest be monitored closely and regulations be reevaluated for future years if harvest becomes too great in relation to population numbers.

*(r) White Mountain Apache Tribe, Fort Apache Indian Reservation, Whiteriver, Arizona (Tribal Members and Non-tribal Hunters)*

The White Mountain Apache Tribe owns all reservation lands, and the tribe has recognized full wildlife management authority. The White Mountain Apache Tribe has requested regulations that are essentially unchanged from those agreed to for the 1995–96 hunting year.

The hunting zone for waterfowl continues to be restricted and is described as: the entire length of the Black and Salt Rivers forming the southern boundary of the reservation; the White River, extending from the Canyon Day Stockman Station to the Salt River; and all stock ponds located within Wildlife Management Units 4, 6 and 7. All other waters of the reservation would be closed to waterfowl hunting for the 1996–97 season.

For non-tribal hunters, the tribe proposes a continuous duck, coot,

merganser, gallinule and moorhen hunting season, with an opening date of November 9, 1996, and a closing date of January 19, 1997. For tribal members, the tribe proposes a closing date of February 2, 1997. The tribe proposes a daily duck bag limit of 3, which can have no more than 1 redhead, 2 canvasbacks, 1 pintail, and 1 hen mallard. The daily bag limit for mergansers is 3. The daily bag limit for coots, gallinules and moorhens would be 25 singly, or in the aggregate.

For geese, the season is proposing a non-tribal hunter season from November 9, 1996, through January 19, 1997. For tribal members, the tribe is proposing a closing date of February 2, 1997. Hunting would be limited to Canada geese, and the daily bag limit would be 2.

Season dates for band-tailed pigeons and mourning doves would run concurrently from September 6 through September 15, 1996, in Wildlife Management Units 7 and 10, only. Proposed daily bag limits for band-tailed pigeons and mourning doves would be 3 and 8, respectively.

Possession limits for the above species are twice the daily bag limits. Shooting hours would be from one-half hour before sunrise to sunset. There would be no open season for sandhill cranes, rails and snipe on the White Mountain Apache lands under this proposal. A number of special regulations apply to tribal and non-tribal hunters, which may be obtained from the White Mountain Apache Tribe Game and Fish Department.

The Service proposes to approve the regulations requested by the tribe for the 1996–97 seasons.

*(s) Yankton Sioux Tribe, Marty, South Dakota (Tribal Members and Non-tribal Hunters)*

On May 30, 1996, the Yankton Sioux Tribe submitted a waterfowl hunting proposal for the 1996–97 season. The Yankton Sioux tribal waterfowl hunting season would be open to both tribal members and non-tribal hunters. The waterfowl hunting regulations would apply to tribal and trust lands within the external boundaries of the reservation.

For duck (including mergansers) and coots, the Yankton Sioux Tribe proposes a season starting October 19, 1996, and running for the maximum amount of days allowed under the final Federal frameworks. Daily bag and possession limits would be the same as those adopted by the State of South Dakota.

For geese, the tribe has requested a dark geese (Canada geese, brant, white-fronts) and snow geese hunting season

starting November 2, 1996, and ending January 31, 1997. Daily bag and possession limits would be the same as those adopted by the State of South Dakota.

All hunters would have to be in possession of a valid tribal license while hunting on Yankton Sioux trust lands. Tribal and non-tribal hunters must comply with all basic Federal migratory bird hunting regulations in 50 CFR Part 20, pertaining to shooting hours and the manner of taking. Special regulations established by the Yankton Sioux Tribe also apply on the reservation.

During the 1995–96 hunting season, the tribe reported that 34 non-tribal hunters took 75 Canada geese, 10 snow geese, and 25 ducks. Tribal members harvested less than 50 geese. For the 1996–97 season, the tribe anticipates a harvest of less than 150 geese and 50 ducks.

The Service concurs with the Yankton Sioux proposal for the 1996–97 hunting season, and requests that the tribe continue monitoring and reporting the harvest of Canada, snow and white-fronted geese.

*(t) Swinomish Indian Tribal Community, LaConner, Washington (Tribal Members Only)*

For the first time, the Service and the Swinomish Indian Tribal Community are cooperating to establish special regulations for migratory bird hunting. The Swinomish Indian Tribal Community is a federally recognized Indian tribe consisting of the Suittale, Skagit, and Kikialos tribes. The Swinomish Reservation was established by the Point Elliott Treaty of 1855 and lies in the Puget Sound area north of Seattle, Washington.

The Tribal Community proposes an off-reservation duck, merganser, Canada goose, brant, and coot season opening on the earliest possible date allowed by the final Federal frameworks for the Pacific Flyway and closing 30 days after the State of Washington closes. Daily bag and possession limits would be the same as those allowed by the State except that the Swinomish request an additional three birds of each species over that allowed by the State.

The Community anticipates that the proposed regulations will result in the harvest of approximately 200 to 300 ducks, 25 to 50 Canada geese, 75 mergansers, 100 brant, and 50 coot. The Swinomish propose a tag and permit system to monitor harvest and will implement steps to limit harvest where conservation is needed. All tribal regulations will be enforced by tribal fish and game officers.

On reservation, the Tribal Community proposes a hunting season for the above mentioned species beginning on the earliest possible opening date and closing March 9, 1997. The Swinomish propose to manage harvest by a tagging system and anticipate harvest will be similar to that expected off reservation.

The Service believes the estimated harvest by the Swinomish will be minimal and will not adversely effect migratory bird populations. The Service proposes to approve the Tribal Community's proposed regulations for the 1996-97 season.

#### Public Comment

The Service intends that adopted final rules be as responsive as possible to all concerned interests and wants to obtain comments from all interested areas of the public, as well as other government agencies. Such comments, and any additional information received, may lead to final regulations that differ from these proposals.

However, special circumstances involved in the establishment of these regulations limit the amount of time the Service can allow for public comment. Specifically, two considerations compress the time in which the rulemaking process must operate: the need to establish final rules before September 1, 1995, and the unavailability until late July of specific reliable data for each year's status of waterfowl. Therefore, the Service believes allowing comment periods past the dates specified is contrary to the public interest.

No public comment was provided to the Service regarding the Notice of Intent published on March 22, 1996, which announced rulemaking on regulations for migratory bird hunting by American Indian tribal members.

#### Comment Procedure

It is the policy of the Department of the Interior to afford the public an opportunity to participate in the rulemaking process, whenever practical. Accordingly, interested persons may participate by submitting written comments to the Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, ms 634—ARLSQ, 1849 C Street, NW., Washington, D.C. 20240. The public may inspect comments during normal business hours at the Service's office in Room 634, Arlington Square Building, 4401 N. Fairfax Drive, Arlington, VA. The Service will consider all comments received and will try to acknowledge received comments, but may not provide an individual response to each commenter.

#### NEPA Consideration

Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(C)), the "Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES-75-74)" was filed with the Council on Environmental Quality on June 6, 1975, and notice of availability was published in the Federal Register on June 13, 1975, (40 FR 25241). A supplement to the final environmental statement, the "Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (SEIS 88-14)" was filed on June 9, 1988, and notice of availability was published in the Federal Register on June 16, 1988 (53 FR 22582), and June 17, 1988 (53 FR 22727). Copies of these documents are available from the Service at the address indicated under the caption ADDRESSES. In addition, an August 1985 environmental assessment titled "Guidelines for Migratory Bird Hunting Regulations on Federal Indian Reservations and Ceded Lands" is available from the Service.

#### Endangered Species Act Considerations

Section 7 of the Endangered Species Act, as amended (16 U.S.C. 1531-1543; 87 Stat. 884), provides that, "The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act" (and) shall "insure that any action authorized, funded or carried out ... is not likely to jeopardize the continued existence of any endangered species or threatened species or result in the destruction or adverse modification of [critical] habitat..." Consequently, the Service has initiated Section 7 consultation under the Endangered Species Act for the proposed migratory bird hunting seasons including those which occur on Federally recognized Indian reservations and ceded lands.

Findings from these consultations will be included in a biological opinion and may cause modification of some regulatory measures proposed in this document. The final rule will reflect any modifications. The Service's biological opinion resulting from its Section 7 consultation are public documents available for public inspection in the Service's Division of Endangered Species and Office of Migratory Bird Management, U.S. Fish and Wildlife Service, at the address indicated under the caption ADDRESSES.

#### Regulatory Flexibility Act, Executive Order 12866, and the Paperwork Reduction Act

In the March 22 Federal Register, the Service reported measures it took to comply with requirements of the Regulatory Flexibility Act and Executive Order 12866. One measure was to prepare a Small Entity Flexibility Analysis (Analysis) in 1995 documenting the significant beneficial economic effect on a substantial number of small entities. The Analysis estimated that migratory bird hunters would spend between \$258 and \$586 million at small businesses. Copies of the Analysis are available from the Office of Migratory Bird Management. The Service is currently updating and expanding the 1995 Analysis.

This rule was not subject to review by the Office of Management and Budget under Executive Order 12866.

The Service has examined these proposed regulations under the Paperwork Reduction Act of 1995 and found no information collection requirements.

#### Unfunded Mandates

The Service has determined and certifies in compliance with the requirements of the Unfunded Mandates Act, 2 U.S.C. 1502 *et seq.*, that this rulemaking will not impose a cost of \$100 million or more in any given year on local or State government or private entities.

#### Civil Justice Reform - Executive Order 12988

The Department, in promulgating this proposed rule, has determined that these regulations meet the applicable standards provided in Sections 3(a) and 3(b)(2) of Executive Order 12988.

#### List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

Based on the results of soon to be completed migratory game bird studies, and having due consideration for any data or views submitted by interested parties, this proposed rulemaking may result in the adoption of special hunting regulations for migratory birds beginning as early as September 1, 1996, on certain Federal Indian reservations, off-reservation trust lands, and ceded lands. Taking into account both reserved hunting rights and the degree to which tribes have full wildlife management authority, the regulations only for tribal members or for both tribal and non-tribal members may differ from those established by States in which the

reservations, off-reservation trust lands, and ceded lands are located. The regulations will specify open seasons, shooting hours, and bag and possession limits for rails, coot, gallinules (including moorhen), woodcock, common snipe, band-tailed pigeons, mourning doves, white-winged doves, ducks (including mergansers) and geese.

The rules that eventually will be promulgated for the 1996-97 hunting

season are authorized under the Migratory Bird Treaty Act (MBTA) of July 3, 1918 (40 Stat. 755; 16 U.S.C. 703 et seq.), as amended. The MBTA authorizes and directs the Secretary of the Interior, having due regard for the zones of temperature and for the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory game birds, to determine when, to what extent, and

by what means such birds or any part, nest or egg thereof may be taken, hunted, captured, killed, possessed, sold, purchased, shipped, carried, exported or transported.

Dated: August 12, 1996

Donald J. Barry,

*Acting Assistant Secretary for Fish and Wildlife and Parks.*
