Revised Notice

On Wednesday, November 29, 1995 SAMHSA published a notice in the Federal Register inviting public comment on the FY 1997 Substance Abuse Prevention and Treatment (SAPT) Block Grant Application Format. The Public Health Service Act (42 U.S.C. 300x 21–35 & 51–64) authorizes block grants to States for the purpose of providing substance abuse prevention and treatment services. Under the provisions of the law, States may receive allotments only after an application is submitted and approved by the Secretary, DHHS. The notice of November 29 stated that the block grant application format SAMHSA proposed to distribute to States for FY 1997 would be the same as the FY 1996 format. (The FY 1996 SAPT Block Grant Application Format was approved under OMB No. 0930–0080.) This notice amends the earlier notice. On Friday, January 19, the Tobacco Regulation for Substance Abuse Prevention and Treatment Block Grant (45 CFR Part 96) was issued as a final rule. (See Federal Register Vol. 61, No. 13.) This final rule requires States applying for a block grant to report annually on their activities and plans related to enforcing State laws prohibiting the sale or distribution of tobacco products to minors. The report is to be submitted as part of the block grant application. The addition of the forms and narrative implementing this reporting requirement is the only substantive change that SAMHSA plans to make to the FY 1997 block grant application format. It is estimated that the additional response burden will average 24 hours per State. The total annual burden estimate is shown below:
