Reimbursements for increased state and/or local tax liabilities may also be available. Participants must have qualifying educational debt in excess of 20 percent of their annual NIH base salary on the expected date of program eligibility.

The Loan Repayment Program for Research Generally is designed to recruit and retain biomedical professionals to the research laboratories of the NIH in exchange for repayment of qualifying educational loan debt. The information proposed for collection will be used by the Office of Loan Repayment and Scholarship to determine an applicant's eligibility for participation in the Program. The application consists of three parts: Part I (Information about the Applicant) is completed by the applicant; Part II (Loan Data Verification) is completed by the financial institution; and Part III (Recommendation) is completed by the recommenders.

The annual burden estimates are as follows:

	Number respondents	Number responses per respondent	Average burden per response (hours)
