BILLING CODE 6450-01-P

**ENVIRONMENTAL PROTECTION AGENCY**

[FRL-5560-9]

**Agency Information Collection Activities: Submission For OMB Review; Comment Request; Operating Permits Regulations**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Part 70 Operating Permits Regulations, EPA ICR Number 1587.05, OMB Control Number 2060-0243, expiring September 30, 1996. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before September 26, 1996.

**FOR FURTHER INFORMATION OR A COPY CALL:** Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR Number 1587.04.

**SUPPLEMENTARY INFORMATION:**

*Title:* Part 70 Operating Permits Regulations, EPA ICR Number 1587.04, OMB Control Number 2060-0243, expiring September 30, 1996. This is a request for a revision to an existing collection.

*Abstract:* The information found in this ICR is required for the submittal of a complete permit application, as well as for the periodic reporting and recordkeeping necessary to maintain that permit once it has been approved. Under a fully functional permit program, the permitting authority, primarily States and local authorities, collect this information from air pollution sources. This information allows the permitting authority and the Federal government to manage air resources. The EPA certifies that the information collection is necessary for the proper performance of EPA's functions, and that it has practical utility; is not unnecessarily duplicative of information EPA otherwise can reasonably access; and reduces, to the extent practicable and appropriate, the

burden on persons providing the information to or for EPA.

Within 12 months of the effective date of a part 70 program (i.e., the approval of that program by EPA), all sources subject to the part 70 operating permits program must submit complete permit applications to the permitting authority (section 503(c)). Permitting authorities must submit to EPA all proposed and final permits and any permit applications, or portions thereof, necessary to carry out EPA's responsibilities (section 505(a)(1)). No less often than every 6 months sources must submit to the permitting authority the results of any required monitoring or other information necessary to assure compliance with applicable requirements (section 504(b)).

In accordance with title V, the information submitted by sources as a part of their applications for revisions and renewals is a matter of public record. To the extent that the information required for the completeness of a permit is proprietary, confidential, or of a nature that it could impair the ability of the source to maintain its market position, that information is collected and handled subject to the requirements of section 503(e) and section 114(c) of the Act.
