

information on or before July 5, 1996, but such final comments must not contain new factual information, or comment on information disclosed prior to the filing of posthearing briefs, and must otherwise comply with section 207.29 of the Commission's rules. All written submissions must conform with the provisions of section 201.8 of the Commission's rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules.

In accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the investigations must be served on all other parties to the investigations (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Authority: These investigations are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.20 of the Commission's rules.

By order of the Commission.

Issued: January 31, 1996.

Donna R. Koehnke,

Secretary.

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

#### Proposed Information Collection Request Submitted for Public Comment and Recommendations; Qualification and Certification Program

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506 (c)(2)(A)). This

program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA), is soliciting comments concerning the proposed extension of the information collection related to the "Qualification and Certification Program." A copy of the proposed information collection request can be obtained by contacting the employee listed below in the Addressee section of this notice.

**DATES:** Written comments must be submitted on or before April 8, 1996. The Department of Labor is particularly interested in comments which:

- \* evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- \* evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- \* enhance the quality, utility, and clarity of the information to be collected; and

- \* minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

**ADDRESSEE:** Patricia W. Silvey, Mine Safety and Health Administration, Office of Standards, Regulations, and Variances, 4015 Wilson Boulevard, Room 627, Arlington, VA 22203. For further information, contact Ms. Silvey at 703-235-1910 (this is not a toll-free number).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

Persons performing tasks and certain required examinations at coal mines

which are related to miner safety and health, and which require specialized experience, are required to be either "certified" or "qualified" to carry out these duties. The regulations recognize State certification and qualification programs. However, where state programs are not available, under the Mine Act and MSHA standards, the Secretary may certify and qualify persons for as long as they continue to satisfy the requirements needed to obtain the certification or qualification, fulfill any applicable retraining requirements, and remain employed at the same mine or by the same independent contractor.

Applications for Secretarial certification must be submitted to the MSHA Qualification and Certification Unit in Denver, Colorado. Forms 5000-4 and 5000-7 provide the coal mining industry with a standardized reporting format which expedites the certification process while ensuring compliance with the regulations. The information provided on the forms enables the Secretary of Labor's delegate—MSHA, Qualification and Certification Unit—to determine if the applicants satisfy the requirements to obtain the certification or qualification. Persons must meet certain minimum experience requirements depending on the type of certification or qualification applied for.

##### II. Current Actions

This request for collection of information contains provisions whereby persons may be temporarily qualified or certified to perform tests and examinations; requiring specialized expertise; related to miner safety and health at coal mines.

**Type of Review:** Reinstatement (without change).

**Agency:** Mine Safety and Health Administration.

**Title:** Qualification and Certification Program.

**OMB Number:** 1219-0069.

**Agency Number:** MSHA Forms 5000-4 and 5000-7.

**Affected Public:** Businesses of other for-profit.

**Citations:** 30 CFR 75.10, 75.155, 77.100 and 77.105.

Forms	Respondents	Frequency	Total responses	Average time per response	Burden hours
5000-4	565 On occas.	1,456 .....	10 min.	243.	
5000-7	59 On occas.	180 .....	8.5 min.	26.	
Totals	624		1,636		269

\* Frequency for each form has changed from "semi-annually" to "on occasion" because the certification is good for as long as this person continues to satisfy the requirements necessary for qualification and is employed at the same mine or by the same independent contractor.

*Estimated Total Burden Hours = 269*

*Estimated Burden Costs = \$7,207*

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: January 30, 1996.

George Fesak,

*Director, Program Evaluation and Information Resources.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-003]

### Consolidated Edison Company of New York Inc. (Indian Point Unit No. 1); Order Approving Decommissioning Plan and Authorizing Decommissioning of Facility

By application dated October 17, 1980, as revised October 13, 1981; July 31, 1986; March 28, 1988; August 10, 1989; March 28 and July 17, 1990; February 5, April 2, July 31, September 20, and October 12, 1993; May 13 and August 11, 1994; and July 19, 1995; Consolidated Edison Company of New York, Inc. (the licensee) requested the U.S. Nuclear Regulatory Commission (the Commission, NRC) to approve its proposed Decommissioning Plan (Plan) for Indian Point Unit No. 1 (IP-1) and an amendment to Provisional Operating License No. DPR-5 and the associated Technical Specifications (TSs) to make them consistent with the Decommissioning Plan. The Decommissioning Plan proposes long-term safe storage (SAFSTOR) of IP-1 spent fuel and residual radioactivity until the adjacent Indian Point Unit No. 2 (IP-2) has been permanently shut down. The licensee must submit a detailed dismantling plan for NRC review and approval prior to major dismantlement activities at IP-1.

Notice of Consideration of Issuance of Amendment and Opportunity for Prior Hearing was published in the Federal Register on December 31, 1985, (50 FR 53407). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has reviewed the application with respect to the provisions of the Commission's rules and regulations and has found that decommissioning as stated in the Plan is consistent with the regulations in 10 CFR Chapter I and will not be inimical to the common defense and security or to the health and safety of the public. The basis for these findings is given in the concurrently issued Safety
