

(d) Within 30 working days of receipt of the request for review, the Agency shall advise the individual of the final disposition of the request.

(e) In those cases where the initial determination is reversed, the individual will be so informed and the Agency will take appropriate action.

(f) In those cases where the initial determination is sustained, the individual shall be advised:

(1) In the case of a request for access to a record, of the individual's right to seek judicial review of the Agency refusal for access.

(2) In the case of a request to correct or amend the record:

(i) Of the individual's right to file a concise statement of his or her reasons for disagreeing with the Agency's decision in the record,

(ii) Of the procedures for filing a statement of the disagreement, and

(iii) Of the individual's right to seek judicial review of the Agency's refusal to correct or amend a record.

§ 318.9 Exemption rules.

(a) *Exemption for classified material.* All systems of records maintained by the Defense Special Weapons Agency shall be exempt under section (k)(1) of 5 U.S.C. 552a, to the extent that the systems contain any information properly classified under E.O. 12598 and that is required by that E.O. to be kept secret in the interest of national defense or foreign policy. This exemption is applicable to parts of all systems of records including those not otherwise specifically designated for exemptions herein which contain isolated items of properly classified information.

(b) *System identifier and name:* HDSWA 007, Security Operations.

(1) *Exemption.* Portions of this system of records may be exempt from the provisions of 5 U.S.C. 552a(c)(3), (d)(1) through (d)(4), (e)(1), (e)(4)(G), (H), (I), and (f).

(2) *Authority.* 5 U.S.C. 552a(k)(5).

(3) *Reasons.* (i) From subsection (c)(3) because it will enable DSWA to safeguard certain investigations and relay law enforcement information without compromise of the information, and protect the identities of confidential sources who might not otherwise come forward and who have furnished information under an express promise that the sources' identity would be held in confidence (or prior to the effective date of the Act, under an implied promise.)

(ii) From subsection (d)(1) through (d)(4) and (f) because providing access to records of a civil investigation and

the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of security investigations.

Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1), (e)(4)(G), (H), (I) because it will provide protection against notification of investigatory material including certain reciprocal investigations and counterintelligence information, which might alert a subject to the fact that an investigation of that individual is taking place, and the disclosure of which would weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy who furnished information; under an express promise that the sources' identity would be held in confidence (or prior to the effective date of the Act, under an implied promise.)

(d) *System identifier and name:* HDSWA 011, Inspector General Investigation Files.

(1) *Exemption.* Portions of this system of records may be exempt from the provisions of 5 U.S.C. 552a(c)(3); (d)(1) through (4); (e)(1); (e)(4)(G), (H), and (I); and (f).

(2) *Authority.* 5 U.S.C. 552a (k)(2).

(3) *Reasons.* (i) From subsection (c)(3) because it will enable DSWA to conduct certain investigations and relay law enforcement information without compromise of the information, protection of investigative techniques and efforts employed, and identities of confidential sources who might not otherwise come forward and who furnished information under an express promise that the sources' identity would be held in confidence (or prior to the effective date of the Act, under an implied promise.)

(ii) From subsection (d)(1) through (d)(4) and (f) because providing access to records of a civil investigation and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and

thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1), (e)(4)(G), (H), and (I) because it will provide protection against notification of investigatory material including certain reciprocal investigations and counterintelligence information, which might alert a subject to the fact that an investigation of that individual is taking place, and the disclosure of which would weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy who furnished information under an express promise that the sources' identity would be held in confidence (or prior to the effective date of the Act, under an implied promise).

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 16

RIN 2900-AH68

Treatment of Research-Related Injuries to Human Subjects

AGENCY: Department of Veterans Affairs.

ACTION: Proposed rule.

SUMMARY: The Department of Veterans Affairs (VA) proposes to amend its regulations to provide (or to pay for the provision of) necessary medical treatment to human subjects injured as a result of participation in VA research. All participants in research approved by a VA Research and Development Committee (regardless of source of funding) and conducted by a VA employee would be eligible for such treatment. Experience suggests the

incidence of research-related injury is low and, therefore, the additional costs of this policy will be minimal.

DATES: Comments must be received on or before November 8, 1996.

ADDRESSES: Mail or hand deliver written comments to: Director, Office of Regulations Management (02D), Department of Veterans Affairs, 810 Vermont Ave., NW, Room 1154, Washington, DC 20420. Comments should indicate that they are submitted in response to "RIN 2900-AH68". All written comments will be available for public inspection at the above address in the Office of Regulations Management, Room 1158, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday (except holidays).

FOR FURTHER INFORMATION CONTACT: Theodore W. Lorei, (202) 273-8285.

SUPPLEMENTARY INFORMATION: It is a commonly accepted ethical position that research subjects deserve to receive free medical treatment if their participation in the research results in unforeseen adverse health effects. Although current VA regulations are silent regarding this policy, the acceptance of this right in practice is suggested by the inclusion of the following statement on the research consent form (VA Form 10-1086): "If any medical problems occur in connection with this study, VA will provide emergency care". It is important to clarify this issue in regulation so that research participants can be confidently informed of their rights and research administrators can take appropriate action to provide such benefits when appropriate.

The Secretary hereby certifies that this rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601-612.

There is no Catalog of Federal Domestic Assistance Program Number.

Human research subjects, reporting and record keeping requirements.

Approved: May 28, 1996.

Jesse Brown,

Secretary of Veterans Affairs.

For the reasons set out in the preamble, 38 CFR part 16 is proposed to be amended as set forth below:

PART 16—PROTECTION OF HUMAN SUBJECTS

1. The authority citation for part 16 continues to read as follows:

Authority: 5 U.S.C. 301; 38 U.S.C. 501, 7331, 7334; 42 U.S.C. 300v-1(b).

2. Section 16.125 is added to read as follows:

§ 16.125 Treatment of research-related injuries to human subjects.

(a) VA medical facilities shall provide necessary medical treatment to research subjects who are injured as a result of participation in a research project approved by a VA Research and Development Committee and conducted by VA employees. This regulation does not apply to:

(1) Treatment for injuries due to noncompliance by a subject with study procedures, or

(2) Research conducted for VA under a contract with a non-VA institution.

Note: Veterans who are injured as a result of participation in such research may be eligible for care from VA under other provisions of this part.

(b) Except in the following situations, care for VA research subjects under this regulation shall be provided in VA medical facilities:

(1) If VA medical facilities are not capable of furnishing economical care or are not capable of furnishing the care or services required, VA medical facility directors shall contract for the needed care.

(2) If inpatient care must be provided to a non-veteran under this policy, VA medical facility directors may contract for such care.

(3) If a research subject needs treatment in a medical emergency for a condition covered by this policy, VA medical facility directors shall provide reasonable reimbursement for the emergency treatment in a non-VA facility.
