

licensing reviews. The NRC anticipates that competitive reviews over the next 5 to 10 years will arise primarily from changes in control of licensed facilities. The regulatory review addressing transfer of control of licenses under 10 CFR 50.80 will be used to determine whether new owners or operators will be subject to an NRC significant change review with respect to antitrust matters.

**Electronic Access**

Comments may be submitted electronically, in either ASCII text or WordPerfect format (version 5.1 or later), by calling the NRC electronic Bulletin Board (BBS) on FedWorld. The bulletin board may be accessed by using a personal computer, a modem, and one of the commonly available communications software packages, or directly via Internet. Background documents on the draft policy statement are also available, as practical, for downloading and viewing on the bulletin board.

If using a personal computer and modem, the NRC Rulemaking subsystem on FedWorld can be accessed directly by dialing the toll free number (800) 303-9672. Communication software parameters should be set as follows: parity to none, data bits to 8, and stop bits to 1 (N,8,1). Using ANSI or VT-100 terminal emulation, the NRC Rulemaking subsystem can then be accessed by selecting the "Rules Menu" option from the "NRC Main Menu." Many NRC subsystems and data bases also have a "Help/Information Center" option that is tailored to the particular subsystem.

The NRC subsystem on FedWorld can also be accessed by a direct dial telephone number for the main FedWorld BBS, (703) 321-3339, or by using Telnet via Internet: fedworld.gov. If using (703) 321-3339 to contact FedWorld, the NRC subsystem will be accessed from the main FedWorld menu by selecting the "Regulatory, Government Administration and State Systems," then selecting "Regulatory Information Mail." At that point, a menu will be displayed that has an option "U.S. Nuclear Regulatory Commission" that will take you to the NRC Online main menu. The NRC Online area also can be accessed directly by typing "/go nrc" at a FedWorld command line. If you access NRC from FedWorld's main menu, you may return to FedWorld by selecting the "Return to FedWorld" option from the NRC Online Main Menu. However, if you access NRC at FedWorld by using NRC's toll-free number, you will have full access to all NRC systems, but you

will not have access to the main FedWorld system.

If you contact FedWorld using Telnet, you will see the NRC area and menus, including the Rules Menu. Although you will be able to download documents and leave messages, you will not be able to write comments or upload files (comments). If you contact FedWorld using FTP, all files can be accessed and downloaded but uploads are not allowed; all you will see is a list of files without descriptions (normal Gopher look). An index file listing all files within a subdirectory, with descriptions, is available. There is a 15-minute time limit for FTP access.

Although FedWorld can also be accessed through the World Wide Web, like FTP that mode only provides access for downloading files and does not display the NRC Rules Menu.

For more information on NRC bulletin boards call Mr. Arthur Davis, Systems Integration and Development Branch, NRC, Washington, DC 20555, telephone (301) 415-5780; e-mail AXD3@nrc.gov.

#### SUPPLEMENTARY INFORMATION:

##### Background

On June 13, 1996, ATF published a  
notice of proposed rulemaking (NPRM)  
in the Federal Register soliciting  
comments from the public and industry  
on a proposal to amend the regulations  
to permit the optional use of the word  
"unaged", instead of "immature", to  
describe grape brandy which has never  
been stored in oak containers (Notice  
No. 826; 61 FR 30015).

The comment period for Notice No.  
826 was scheduled to close on  
September 11, 1996. Prior to the close  
of the comment period ATF receive a  
request from a national trade

association, the American Brandy  
Association (ABA), to extend the  
comment period until December 10,  
1996. The ABA, representing 90 percent  
of the producers of American Brandy,  
stated that it needed additional time to  
develop data and information related to  
several issues addressed in the notice.

In consideration of the above, ATF  
finds that a reopening of the comment  
period is warranted. However, the  
comment period is being reopened until  
November 11, 1996. The Bureau  
believes that a comment period totaling  
150 days is a sufficient amount of time  
for all interested parties to respond.
