

SUPPLEMENTARY INFORMATION:**Background**

On July 31, 1996, the Department published the preliminary results of administrative review of the antidumping duty order on pure magnesium from Canada (61 FR 39947). The Department has now completed this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended ("the Tariff Act").

Applicable Statute and Regulations

Unless otherwise stated, all citations to the statute and to the Department's regulations are references to the provisions as they existed on December 31, 1994.

Scope of the Review

The product covered by this review is pure magnesium. Pure unwrought magnesium contains at least 99.8 percent magnesium by weight and is sold in various slab and ingot forms and sizes. Granular and secondary magnesium are excluded from the scope of this review. Pure magnesium is currently classified under subheading 8104.11.0000 of the Harmonized Tariff Schedule ("HTS"). HTS item numbers are provided for convenience and for Customs purposes. The written description remains dispositive.

The review covers one Canadian manufacturer/exporter, Norsk Hydro Canada Inc. ("NHCI"), and the period February 20, 1992, through July 31, 1993.

Final Results of Review

In its preliminary results of administrative review, the Department stated that there were no appropriate U.S. sales to analyze which were associated with the entries covered by this review and hence, there was no basis for assessing antidumping duties on these entries. The Department received no comments regarding this finding. Therefore, as stated in the preliminary results, we will liquidate these entries without regard to antidumping duties.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise, entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided for by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for NHCI will be 0.00 percent, the rate established in the third administrative review of this order (61 FR 41772, August 12, 1996); (2) for previously reviewed or investigated companies, the cash

deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review or the original less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review, the cash deposit rate will be 21 percent, the "all others" rate established in *Pure Magnesium from Canada: Amendment of Final Determination of Sales at Less than Fair Value and Order in Accordance with Decision on Remand*, 58 FR 62643 (November 29, 1993).

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Failure to comply is a violation of the APO.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: September 16, 1996.

Robert S. La Russa,

Acting Assistant Secretary for Import Administration.

Oil Country Tubular Goods From Canada; Final Results of Antidumping Duty Administrative Review and Revocation in Part of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review

and revocation in part of the antidumping duty order.

SUMMARY: On July 19, 1996, the Department of Commerce (the Department) published the preliminary results of antidumping duty administrative review and intent to revoke order (in part) on oil country tubular goods (OCTG) from Canada (51 FR 21782; June 16, 1986). The review covers one manufacturer, IPSCO Inc. (IPSCO), and the period June 1, 1994, through May 31, 1995.

We gave interested parties an opportunity to comment on the preliminary results of review and intent to revoke order (in part). Since the Department received no comments, the final results remain unchanged from the preliminary results and we revoke the antidumping duty order with respect to IPSCO.

EFFECTIVE DATE: September 23, 1996.

FOR FURTHER INFORMATION CONTACT: David Genovese or Zev Primor, Office of AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone (202) 482-5254.

SUPPLEMENTARY INFORMATION:**The Applicable Statute**

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930, as amended (the Act) by the Uruguay Rounds Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations, as amended by the interim regulations published in the Federal Register on May 11, 1995 (60 FR 25130).

Background

On June 21, 1995, IPSCO requested an administrative review of the antidumping duty order on OCTG from Canada. The Department initiated the review on July 14, 1995 (60 FR 36260), covering the period June 1, 1994, through May 31, 1995. On July 19, 1996, the Department published the preliminary results of review (61 FR 37720). The Department has now completed this review in accordance with section 751 of the Act.

Scope of the Review

The products covered by this review include shipments of OCTG from Canada. This includes American Petroleum Institute (API) specification OCTG and all other pipe with the

following characteristics except entries which the Department determined through its end-use certification procedure were not used in OCTG applications: Length of at least 16 feet; outside diameter of standard sizes published in the ALI or proprietary specifications for OCTG with tolerances of plus $\frac{1}{8}$ inch for diameters less than or equal to $8\frac{5}{8}$ inches and plus $\frac{1}{4}$ inch for diameters greater than $8\frac{5}{8}$ inches, minimum wall thickness as identified for a given outer diameter as published in the ALI or proprietary specifications for OCTG; a minimum of 40,000 PSI yield strength and a minimum 60,000 PSI tensile strength; and if with seams, must be electric resistance welded. Furthermore, imports covered by this review include OCTG with non-standard size wall thickness greater than the minimum identified for a given outer diameter as published in the ALI or proprietary specifications for OCTG, with surface scabs or slivers, irregularly cut ends, ID or OD weld flash, or open seams; OCTG may be bent, flattened or oval, and may lack certification because the pipe has not been mechanically tested or has failed those tests.

This merchandise is currently classifiable under the Harmonized Tariff Schedules (HTS) item numbers 7304.20, 7305.20, and 7306.20. The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

Final Results of Review

We gave interested parties an opportunity to comment on the preliminary results. The Department received no comments. Accordingly, we have determined that a margin of zero percent exists for IPSCO for the period June 1, 1994 through May 31, 1995.

Based on information submitted by IPSCO during this and the two previous reviews (see Final Results of Antidumping Duty Administrative Review on Oil Country Tubular Goods from Canada, ((60 FR 35898; July 12, 1995) and (59 FR 34409; July 5, 1994)), we determine that IPSCO has met the requirements for revocation set forth in sections 353.25(a)(2) and 353.25(b) of the Department's regulations. IPSCO has demonstrated three consecutive years of sales at not less than normal value and has submitted the required certifications stating that it will not in the future sell OCTG at less than normal value and it agrees to its immediate reinstatement in the antidumping duty order if the Department concludes that IPSCO sold OCTG at less than normal value subsequent to revocation. Moreover, on the basis of no sales at less than normal value for a period of three consecutive

years and the lack of any indication that IPSCO will make sales below normal value in the future, the Department concludes that IPSCO is not likely to sell subject merchandise at less than normal value in the future. Therefore, the Department is revoking the order with respect to IPSCO.

The Department will instruct the U.S. Customs Service to liquidate, without regard to antidumping duties, all shipments of subject merchandise produced by IPSCO and entered on or after June 1, 1994.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise, entered or withdrawn from warehouse, for consumption on or after the publication date of these final results of review, other than shipments of subject merchandise produced by IPSCO, as provided by section 751(a)(1) of the Act: (1) For merchandise exported by manufacturers or exporters not covered in this review but covered in a previous review or the original less-than-fair-value (LTFV) investigation, the cash deposit rate will continue to be the rate published in the most recent final results or determination for which the manufacturer or exporter received a company-specific rate; (2) if the exporter is not a firm covered in this review, earlier reviews, or the original investigation, but the manufacturer is, the cash deposit rate will be that rate established for the manufacturer of the merchandise in these final results of review, earlier reviews, or the original investigation, whichever is the most recent; and (3) the "all others" rate will be 16.65 percent.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested.

Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Act and 19 CFR 353.22.

Dated: September 16, 1996.

Robert S. LaRussa,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

National Oceanic and Atmospheric Administration

[I.D. 091696E]

Western Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Western Pacific Fishery Management Council (Council) will hold a meeting of its Crustacean Plan Team.

DATES: The meeting will be held on October 21, 1996, from 8:30 a.m. to 5:00 p.m.

ADDRESSES: The meeting will be held at the Executive Center, 1088 Bishop St., Room 4003, Honolulu, HI; telephone: (808) 539-3000.

Council address: Western Pacific Fishery Management Council, 1164 Bishop St., Suite 1405, Honolulu, HI 96813.

FOR FURTHER INFORMATION CONTACT: Kitty M. Simonds, Executive Director; telephone: (808) 522-8220.

SUPPLEMENTARY INFORMATION: The Plan Team will discuss and may make recommendations to the Council on the following agenda items:

1. Report on the 1996 Northwestern Hawaiian Islands lobster fishery, including possible highgrading, misreporting, Vessel Monitoring System reporting of data, and enforcement concerns;
2. Consider whether to add information on the Hawaii deepwater shrimp fishery to the annual report, and consider possible management needs;
3. Report on the 1996 summer lobster research cruise; and
4. Other business as required.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to
