Form Number: FCC 398

Affected Public: Business or other for-profit

Number of Respondents: 1,200

Needs and Uses: On 08/08/96, the Commission adopted a Report and Order in MM Docket No. 93-48 Policies and Rules Concerning Children's Television Programming. As a result of this Report and Order, the Commission has developed a new FCC Form 398, Children's Television Programming Report. The FCC 398 will request information to identify the children's educational and informational programs aired to meet their obligation under the Children's Television Act of 1990 ("CTA"). The form will also request information on children's educational and informational programs that stations plan to air in the next calendar quarter. This standardized form will facilitate consistency of reporting among all licensees, assist in efforts by the public and the Commission to monitor station compliance with the CTA, and lessen the burden on the public and Commission staff.

Streamlining the International Section 214 Authorization Process and Tariff Requirements

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: On July 29, 1996, the International Bureau of the Federal Communications Commission released an order adopting an exclusion list. The exclusion list identifies restrictions on providing service using particular facilities or to particular countries for those carriers receiving a global international Section 214 authorization. With this action, carriers will be able to

determine which non-U.S. licensed facilities they will be able to use under the grant of a global Section 214 authorization.

EFFECTIVE DATE: July 26, 1996.

FOR FURTHER INFORMATION CONTACT:

James Hedlund, Attorney-Advisor,
Policy and Facilities Branch,
Telecommunications Division,
International Bureau, (202) 418-1399.

SUPPLEMENTARY INFORMATION: This is a summary of the International Bureau's Order adopted on July 26, 1996 and released on July 29, 1996 (DA 96-1205). The full text of this Order is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, N.W., Washington, D.C. 20554. The complete text of this Order also may be purchased from the Commission's copy contractor, International Transcription Service, Inc., 2100 M Street, N.W., Suite 140, Washington, D.C. 20037 (202) 857-3800.

Summary of Order

1. On February 29, 1996, the Federal Communications Commission adopted rules to streamline the international Section 214 authorization process and tariff requirements. (Report and Order, Streamlining the International Section 214 Authorization Process and Tariff Requirements, IB Docket No. 95-118, FCC 96-79, released March 13, 1996, 61 FR 15724 (April 9, 1996)). The Report and Order adopted procedures for issuing global, rather than country-specific and facility-specific, Section 214 authorizations to qualified applicants. As part of the new procedures, the International Bureau was required to establish and maintain an exclusion list identifying restrictions on providing service using particular facilities or to particular countries for those carriers receiving a global Section 214 authorization.

2. On June 20, 1996, the International Bureau released a Public Notice seeking comment on a draft exclusion list for global Section 214 authorizations. Several parties raised concerns that including CANUS-1 on the exclusion list may place the cable system at a competitive disadvantage and impose undue costs on carriers and the Commission. The Bureau stated, however, that removal of the cable from the exclusion list may be inconsistent with certain conditions of the U.S. Department of State's support for grant of the CANUS-1 cable landing license. In addition, the Bureau did not agree with MFSI's position that the exclusion list is confusing because it lists carriers and facilities that are excluded as well

as non-U.S. licensed facilities that U.S. carriers with global authority are permitted to use. Given that MFSI notified the Commission of new non-U.S. licensed cable systems that were not listed as "permissible" foreign-licensed facilities, the Bureau modified the proposed exclusion list to permit use of these new facilities by carriers with global authority.

Ordering Clauses

3. Accordingly, it is ordered that the Exclusion List attached to this order, which identifies restrictions on providing service using particular facilities or to particular countries for those carriers receiving a global Section 214 authorization, is hereby adopted.

4. This order is issued under 0.261 of the Commission's Rules and is effective upon adoption. Petitions for reconsideration under Section 1.106 or applications for review under Section 1.115 of the Commission's Rules may be filed within 30 days of the date of the public notice of this Order (see 47 CFR 1.4(b)(2)).

Federal Communications Commission.

*Chief, Telecommunications Division,
International Bureau.*
