### **National Highway Traffic Safety Administration**

[Docket No. 96-016; Notice 02]

RIN 2127-AF57

#### **Final Theft Data; Motor Vehicle Theft Prevention Standard**

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

**ACTION:** Publication of final theft data.

**SUMMARY:** This document publishes the final data on thefts of model year (MY) 1994 passenger motor vehicles that occurred in calendar year (CY) 1994. The final 1994 theft data indicate an increase in the vehicle theft rate when compared to the theft rate experienced in CY/MY 1993. The final theft rate for MY 1994 passenger vehicles stolen in calendar year 1994 increased to 4.17 thefts per thousand vehicles produced. Publication of these data fulfills NHTSA's statutory obligation to periodically obtain accurate and timely theft data and publish the information for review and comment. The data were calculated for informational purposes only.

**FOR FURTHER INFORMATION CONTACT:** Ms. Rosalind Proctor, Office of Planning and Consumer Programs, NHTSA, 400 Seventh Street, SW., Washington, DC 20590. Ms. Proctor's telephone number is (202) 366-1740. Her fax number is (202) 493-2739.

**SUPPLEMENTARY INFORMATION:** NHTSA administers a program for reducing motor vehicle theft. The central feature of this program is the Federal Motor Vehicle Theft Prevention Standard, 49 CFR Part 541. The standard specifies performance requirements for inscribing and affixing vehicle identification numbers (VINs) onto certain major original equipment and replacement parts of high-theft lines of passenger motor vehicles.

The agency is required by 49 U.S.C. 33104(b)(4) to periodically obtain, from the most reliable source, accurate and timely theft data and publish the data for review and comment. To fulfill this statutory mandate, NHTSA has published theft data annually since 1983/84. Continuing to fulfill the section 33104(b)(4) mandate, this document reports the final theft data for CY 1994, the most recent calendar year for which data are available.

In calculating the 1994 theft rates, NHTSA followed the same procedures it used in calculating the MY 1993 theft rates. (For 1993 theft data calculations, see 61 FR 1228, January 18, 1996). As in all previous reports, NHTSA's data were based on information provided to NHTSA by the National Crime Information Center (NCIC) of the Federal Bureau of Investigation. The NCIC is a government system that receives vehicle theft information from nearly 23,000 criminal justice agencies and other law enforcement authorities throughout the United States. The NCIC data also include reported thefts of self-insured and uninsured vehicles, not all of which are reported to other data sources.
