

**ACTION:** Notice of availability of the terms and conditions of proposed commodity futures options contract.

**SUMMARY:** The Chicago Board of Trade (CBT or Exchange) has applied for designation as a contract market in Eurodollar futures options. The Acting Director of the Division of Economic Analysis (Division) of the Commission, acting pursuant to the authority delegated by Commission Regulation 140.96, has determined that publication of the proposals for comment is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

**DATES:** Comments must be received on or before October 30, 1996.

**ADDRESSES:** Interested persons should submit their views and comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, Three Lafayette Centre, 21st Street NW, Washington, DC 20581. In addition, comments may be sent by facsimile transmission to facsimile number (202) 418-5521, or by electronic mail to [secretary@cftc.gov](mailto:secretary@cftc.gov). Reference should be made to the CBT Eurodollar futures option contract.

**FOR FURTHER INFORMATION CONTACT:** Please contact Stephen Sherrod of the Division of Economic Analysis, Commodity Futures Trading Commission, Three Lafayette Centre, 21st Street, Washington, DC, 20581, telephone 202-418-5277. Facsimile number: (202) 418-5527. Electronic mail: [ssherrod@cftc.gov](mailto:ssherrod@cftc.gov)

**SUPPLEMENTARY INFORMATION:** Copies of the terms and conditions will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, Three Lafayette Centre, 21st Street Washington, D.C. 20581. Copies of the terms and conditions can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 418-5097.

Other materials submitted by the CBT in support of the application for contract market designation may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations thereunder (17 CFR Part 145 (1987)), except to the extent they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9. Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Act Compliance Staff of the Office of the Secretariat at the Commission's

headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views, or arguments on the proposed terms and conditions, or with respect to other materials submitted by the CBT, should send such comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, Three Lafayette Centre, 21st Street, NW, Washington, DC 20581 by the specified date.

Issued in Washington, DC, on September 24, 1996.

Blake Imel,

*Acting Director.*

### Intent To Announce a Determination of Surplus Land and Buildings; CA

**AGENCY:** U.S. Army Corps of Engineers, Sacramento District, DoD.

**ACTION:** Dispose of Surplus Property.

In accordance with Public Laws 103-421; 100-526; and, 103-337, this is a Notice of Availability for Surplus Land and Buildings, located at Oakland Army Base, Oakland, California.

**SUMMARY:** The U.S. Army Corps of Engineers, Sacramento District, on behalf of the Department of Army, announces the availability of surplus land and buildings, located at Oakland Army Base, Oakland, California. The area available consists of approximately

322 acres of land and involves approximately 81 buildings.

Approximately 189 acres is subject to the reversionary rights and interest of the City of Oakland, California.

There is approximately 54 acres of submerged lands under the control of the installation, 29 acres of which lies south of its berthing facilities, and extends into the Oakland Outer harbor. The installation contains several recreational activities, which include several recreational activities, and a full service gymnasium.

Special interest areas at Oakland Army Base consist of properties of historic significance based on importance and contribution during World War II. The historic properties consist of 2 historic districts encompassing 12 buildings and building types that are eligible for listing on the National Register of Historic Places.

Land areas of the installation are currently used for operations involving cargo handling, temporary open storage, warehousing, administrative support, troop housing, family housing, visitor housing, and community morale, welfare, and recreation facilities. This Determination of Surplus involves approximately 81 facilities, comprising approximately 1,302,619 square feet of space, which is currently used for covered storage space; open storage space; administrative space; 112 apartments (2 & 3 bedrooms); troop housing/training; and, community facilities (library, bowling alley, gymnasium, etc.). There is also an 11 mile network of roads and 26 miles of railroad tracks.

## Department of the Army Corps of Engineers

### Intent To Prepare a Draft Environmental Impact Statement for the Limited Reevaluation Study for the Deepening of the Arthur Kill/Howland Hook Navigation Channel; New York District, NY

**AGENCY:** U.S. Army Corps of Engineers, DoD.

**ACTION:** Notice of intent.

**SUMMARY:** In response to a House of Representatives, Committee on Public Works and Transportation Resolution dated May 9, 1979 to alleviate current and future navigation restrictions associated with the Arthur Kill/Howland Hook navigation channel, the U.S. Army Corps of Engineers, New York District prepared a feasibility report and a final environmental impact statement in October 1985 that recommended a six foot deepening (from -35 to -41 feet) for a distance of approximately 2.1 miles and five foot deepening (-35 to -40 feet) along another 1.0 mile section of the channel.

The New York District suspended work on the project in 1991 and the final environmental impact statement was not completed. The New York District has initiated a Limited Reevaluation study to reaffirm the recommended plan. A new environmental impact statement is being prepared. Public information meetings are being scheduled for the beginning of October 1996.

#### FOR FURTHER INFORMATION CONTACT:

Please contact Mr. Mark Burlas, ATTN: CENAN-PL-EA, Corps of Engineers, New York District, 26 Federal Plaza, New York, NY 10278-0090, Phone (212) 264-4663.

#### SUPPLEMENTARY INFORMATION:

The Arthur Kill navigation channel a component of the New York Harbor Estuarine System connecting Raritan Bay and Newark Bay. The channel is situated between New Jersey and Staten Island, New York. The Arthur Kill/Howland Hook navigation channel's northern limit is the confluence of the Kill Van Kull and Newark Bay channels and the project area extends south for approximately 3.1 miles.

Currently, navigation in the project area is severely constrained. The existing depth of the Arthur Kill/Howland Hook channel section is not sufficient to allow the safe and efficient passage of fully loaded container and liquid bulk (tankers) vessels still willing to call on terminals in the channel. The current mode of operation calls for tankers to lighter-off in anchorages and enter the Arthur Kill/Howland Hook section of channel during high tides. Container ships calling on terminals must be loaded to less than their design capacities at their home ports and sail without a full load. This is inefficient, costly, and results in unnecessary navigational and environmental risks.
