October 18, 1996.

Northern states that the expanded capacity would be used to provide incremental firm transportation service

to shippers which have executed precedent agreements in conjunction with Northern's Peak Day 2000 open season. Northern states further that the proposed facilities would provide additional peak day capacity on Northern's Market Area mainline by approximately 267,161 Mcf of natural gas per day.

Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.
