**ACTION:** Notice.

**SUMMARY:** This notice announces Agency approval of an application submitted by Buckman Laboratories, Inc., to conditionally register the pesticide product Busan 1104 containing a new active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

**FOR FURTHER INFORMATION CONTACT:** By mail: Marion Johnson, Product Manager (PM) 31, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 250, CM #2, Environmental Protection

Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, (703-305-5675).

**SUPPLEMENTARY INFORMATION:** EPA issued a notice published in the Federal Register of September 2, 1992 (57 FR 40186; FRL-4081-5), which announced that Buckman Laboratories, Inc., 1256 N. McLean Blvd. Memphis, TN 38108, had submitted an application to register the pesticide product Busan 1104 (EPA File Symbol 1448-GLR) containing the active ingredient 1H-pyrazole-1-methanol 3,5-dimethyl at 93 percent, an active ingredient not included in any previously registered product.

The application was approved on August 19, 1996, as Busan 1104, a preservative in manufacturing emulsion paints, adhesives, latex emulsions, polishes, waxes, papermaking chemicals, coatings, detergents, inks, textiles, and construction materials (EPA Registration Number 1448-351).

A conditional registration may be granted under section 3(c)(7)(C) of FIFRA for a new active ingredient where certain data are lacking because a period reasonably sufficient for generation of the data has not elapsed since the Administrator first imposed the data requirements, on condition that such data are received by the end of the conditional registration period and do not meet or exceed the risk criteria set forth in 40 CFR 154.7; that use of the pesticide during the conditional registration period will not cause unreasonable adverse effects on the environment; and that use of the pesticide is in the public interest.

The Agency has considered the available data on the risks associated with the proposed use of 1H-pyrazole-1-methanol 3,5-dimethyl, and information on social, economic, and environmental benefits to be derived from such use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of 1H-pyrazole-1-methanol 3,5-dimethyl during the period of conditional registration is not expected to cause any unreasonable adverse effect on the environment, and that use of the pesticide is in the public interest.

Consistent with section 3(c)(7)(C), the Agency has determined that this conditional registration is in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not

result in unreasonable adverse effects to man and the environment.

More detailed information on this conditional registration is contained in the EPA Pesticide Fact Sheet on 1H-pyrazole-1-methanol 3,5-dimethyl.

A copy of the fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the Product Manager. The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, DC 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.
