BILLING CODE 4410-10-M

FEDERAL RESERVE SYSTEM

12 CFR Parts 207, 220, 221 and 224

[Regulations G, T, U and X]

Securities Credit Transactions; List of Marginable OTC Stocks; List of Foreign Margin Stocks

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule; determination of applicability of regulations.

SUMMARY: The List of Marginable OTC Stocks (OTC List) is composed of stocks traded over-the-counter (OTC) in the United States that have been determined by the Board of Governors of the Federal Reserve System to be subject to the margin requirements under certain Federal Reserve regulations. The List of Foreign Margin Stocks (Foreign List) is composed of foreign equity securities that have met the Board's eligibility criteria under Regulation T. The OTC List and the Foreign List are published four times a year by the Board. This document sets forth additions to and deletions from the previous OTC List and the previous Foreign List.

EFFECTIVE DATE: November 12, 1996.

FOR FURTHER INFORMATION CONTACT:

Peggy Wolffrum, Securities Regulation Analyst, Division of Banking Supervision and Regulation, (202) 452-2781, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. For the hearing impaired only, contact Dorothea Thompson, Telecommunications Device for the Deaf (TDD) at (202) 452-3544.

SUPPLEMENTARY INFORMATION: Listed below are the deletions from and additions to the Board's OTC List, which was last published on July 30, 1996 (61 FR 39556), and became effective August 12, 1996. A copy of the complete OTC List is available from the Federal Reserve Banks.

The OTC List includes those stocks traded over-the-counter in the United States that meet the criteria in Regulations G, T and U (12 CFR Parts 207, 220 and 221, respectively). This determination also affects the applicability of Regulation X (12 CFR Part 224). These stocks have the degree of national investor interest, the depth and breadth of market, and the

availability of information respecting the stock and its issuer to warrant regulation in the same fashion as exchange-traded securities. The OTC List also includes any OTC stock designated for trading in the national market system (NMS security) under rules approved by the Securities and Exchange Commission (SEC). Additional OTC stocks may be designated as NMS securities in the interim between the Board's quarterly publications. They will become automatically marginable upon the effective date of their NMS designation. The names of these stocks are available at the SEC and at the National Association of Securities Dealers, Inc. and will be incorporated into the Board's next quarterly publication of the OTC List.

Also listed below are the deletions from and additions to the Foreign List which was last published on July 29, 1996 (61 FR 39556) and became effective August 12, 1996. A copy of the complete Foreign List is available from the Federal Reserve banks.

Public Comment and Deferred Effective Date

The requirements of 5 U.S.C. 553 with respect to notice and public participation were not followed in connection with the issuance of this amendment due to the objective character of the criteria for inclusion and continued inclusion on the Lists specified in 12 CFR 207.6 (a) and (b), 220.17 (a), (b), (c) and (d), and 221.7 (a) and (b). No additional useful information would be gained by public participation. The full requirements of 5 U.S.C. 553 with respect to deferred effective date have not been followed in connection with the issuance of this amendment because the Board finds that it is in the public interest to facilitate investment and credit decisions based in whole or in part upon the composition of these Lists as soon as possible. The Board has responded to a request by the public and allowed approximately a two-week delay before the Lists are effective.

RIN 2120-AA64

Airworthiness Directives; LITEF GmbH Attitude Heading System (AHRs) Unit Model LCR-92, LCR-92S, and LCR-92H

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that is applicable to LITEF GmbH Attitude and Heading Reference System (AHRs) Unit Model LCR-92, LCR-92S, and LCR-92H installed on but not limited to Sikorsky Aircraft Model S-76 helicopters, McDonnell Douglas Helicopter Systems Model MD-900 helicopters, Bell Helicopter Textron, Inc. Model 412 helicopters, and Pilatus Model PC-12 airplanes. This action requires either installing a placard adjacent to each primary attitude indicator which states that flight is limited to Visual Flight Rules (VFR) operations only, or modifying and inspecting the AHRs wiring cables, requiring a repetitive

inspection of the cable shielding, and inserting a statement into the aircraft flight manual. This amendment is prompted by a field report and verified by laboratory tests that shows there is an unusual AHRs reaction to certain radio frequency signals. The actions specified by this AD are intended to prevent reliance on or to correct the cause of misleading roll and pitch information produced by the AHRs when encountering certain radio frequency signals.

DATES: Effective November 12, 1996.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of November 12, 1996.

Comments for inclusion in the Rules Docket must be received on or before December 27, 1996.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Office of the Assistant Chief Counsel, Attention: Rules Docket No. 96-SW-12-AD, 2601 Meacham Blvd., Room 663, Fort Worth, Texas 76137.

The service information referenced in this AD may be obtained from LITEF GmbH, Postfach 774, 79007 Freiburg, Germany or Sikorsky Aircraft Corporation, 6900 Main Street, P.O. Box 9729, Stratford, CT 06497-9129. This information may be examined at the FAA, Office of the Assistant Chief Counsel, 2601 Meacham Blvd., Room 663, Fort Worth, Texas; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert McCallister, Aerospace Engineer, Rotorcraft Standards Staff, FAA, Rotorcraft Directorate, 2601 Meacham Blvd., Fort Worth, Texas 76137, telephone (817) 222-5121, fax (817) 222-5961.

SUPPLEMENTARY INFORMATION: The Luftfahrt-Bundesamt (LBA), which is the airworthiness authority for the Federal Republic of Germany, recently notified the FAA that an unsafe condition may exist on aircraft equipped with LITEF GmbH (LITEF) AHRs Unit Model LCR-92, LCR-92S, or LCR-92H. The LBA advises that the AHRs unit may provide misleading roll and pitch information to the attitude indicator, with no failure indication, when exposed to radio frequency levels much lower than the levels to which the AHRs unit was qualified.

LITEF has issued LITEF Alert Service Bulletin (ASB) No. VW/JH 6B751 dated June 12, 1996, which specifies that the AHRs unit should only be used under

Day VFR conditions. LITEF has also issued LITEF ASB No. 141450-0000-840-002, dated June 28, 1996, that gives directions for the modification of the AHRs units. The LBA classified this service bulletin as mandatory and issued LBA LTA No. 96-212, dated July 4, 1996, in order to assure the continued airworthiness of these AHRs units in Germany. However, LITEF has also issued LITEF ASB No. 141450-0000-840-003, dated July 9, 1996 which supersedes LITEF ASB No. 141450-0000-840-002, dated June 28, 1996. Additionally, Sikorsky Aircraft, a manufacturer that has installed the affected AHRs units on certain of its helicopters, has issued Sikorsky Aircraft ASB No. 76-34-6A (287A), dated September 12, 1996, which provides directions for the modification of the AHRs units on those helicopters.

This AHRs unit is manufactured in Germany and was approved under TSO C4c for operation in the United States under the TSO provisions of 14 CFR part 21 and the applicable bilateral airworthiness agreement. Pursuant to the bilateral airworthiness agreement, the LBA has kept the FAA informed of the situation described above. The affected AHRs units have been installed on U.S. type certificated aircraft, including but not limited to, Sikorsky Aircraft Model S-76 helicopters, McDonnell Douglas Helicopter Systems Model MD-900 helicopters, Bell Helicopter Textron, Inc. Model 412 helicopters, and Pilatus Model PC-12 airplanes. The FAA has examined the findings of the LBA, reviewed all available information, and determined that AD action is necessary for products of this type that were approved for operation in the United States.

Since an unsafe condition has been identified that is likely to exist or develop on other LITEF AHRs units installed on, but not limited to, Sikorsky Aircraft Model S-76 helicopters, McDonnell Douglas Helicopter Systems Model MD-900 helicopters, Bell Helicopter Textron, Inc. Model 412 helicopters, and Pilatus Model PC-12 airplanes registered in the United States, this AD is being issued to prevent reliance on or to correct the cause of misleading roll and pitch information produced by the AHRs when encountering certain radio frequency signals. This AD requires either installing a placard adjacent to each primary attitude indicator that states that flight is limited to Day Visual Flight Rules (VFR) operations only, or if the primary attitude instrument(s) have been deactivated, that states that flight is limited to VFR operations only; or modifying and inspecting the AHRs
