Notice of Data Availability and Extension of Comment Period on Environmental Release Descriptions Supporting the Hazardous Wastes Characteristics Scoping Study

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is announcing the availability of the individual facility site profiles associated with the draft report entitled "Hazardous Waste Characteristics Scoping Study: Environmental Release Descriptions." This report, which focuses on environmental contamination resulting from the management of non-hazardous wastes, was made available to the public for comment on September 25, 1996 (61 FR 50295). The draft report itself presents the criteria for the selection of data, the methodologies used to gather the data, and the initial results. However, there was a delay in making available the appendix to the report which contains the individual facility site descriptions because the Agency wanted to allow the affected facilities and states an opportunity to comment on them before they were available to the public. EPA believes that commenters should have additional time to review the individual descriptions in preparing their comments on the draft report and, therefore, is extending the original comment deadline on the report. The report was prepared in support of a study being conducted by the Agency under a May 17, 1996 consent agreement with the Environmental Defense Fund to investigate if there are gaps in coverage in the existing hazardous waste characteristics under the Resource Conservation and Recovery Act (RCRA), as well as the nature and extent of such gaps. The overall study is referred to as the "Hazardous Waste Characteristic Scoping Study."

DATES: Copies of the appendix, which contains the individual facility site descriptions, to EPA's draft report on environmental release descriptions will be available from the RCRA Information Center (RIC) after October 28, 1996. Written comments on both the draft report on environmental release descriptions and the appendix must be received by November 7, 1996 to be considered in completion of the Scoping study. Comments received after November 7, 1996 will be utilized by the Agency in follow-up activities associated with the Scoping study.

ADDRESSES: Commenters must send an original and two copies of their comments referencing docket number F-96-ERDA-FFFFF to: RCRA Docket Information Center, Office of Solid Waste (5305G), U.S. Environmental Protection Agency Headquarters (EPA, HQ), 401 M Street, SW., Washington, DC 20460. Hand deliveries of comments should be made to the Arlington, VA, address listed below. Comments may also be submitted electronically by sending electronic mail through the Internet to: rcra-docket@epamail.epa.gov. Comments in electronic format should also be identified by the docket number F-96-ERDA-FFFFF. All electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

Commenters should not submit electronically any confidential business information (CBI). An original and two copies of CBI must be submitted under separate cover to: RCRA CBI Document Control Officer, Office of Solid Waste (5305W), U.S. EPA, 401 M Street, SW., Washington, DC 20460.

The draft report "Hazardous Waste Characteristics Scoping Study: Environmental Release Descriptions", the appendix, and any public comments are available for viewing in the RCRA Information Center, located at Crystal Gateway I, First Floor, 1235 Jefferson Davis Highway, Arlington, VA. The RIC is open from 9 a.m. to 4 p.m., Monday through Friday, excluding federal holidays. To review docket materials, it is recommended that the public make an appointment by calling 703 603-9230. The public may copy a maximum of 100 pages from any docket at no charge. Additional copies cost \$0.15/page. For information on accessing paper and/or electronic copies of the document, see the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Persons needing further information regarding this notice should contact Tamara M. Irvin, Office of Solid Waste, 5304W, Environmental Protection Agency, 401 M St., SW, Washington, DC 20460; telephone: (703)-308-8807; e-mail: irvin.tamara@epamail.epa.gov. SUPPLEMENTARY INFORMATION: Under the Resource Conservation and Recovery Act Section 3001, EPA is charged with

defining which solid wastes are hazardous by identifying the characteristics of hazardous waste and listing particular hazardous wastes. The current hazardous characteristics are ignitability, corrosivity, reactivity, and toxicity. As stated above, EPA has entered into a consent decree with the Environmental Defense Fund to conduct a study of the potential gaps in these characteristics. As part of this study, EPA has collected facility specific data on human health or environmental damages from the management of non-hazardous waste.

For a paper copy of the draft report "Hazardous Waste Characteristics Scoping Study: Environmental Release Descriptions" or the facility site descriptions appendix, please contact the RIC at the address in the **ADDRESSES**, section of this notice.
