**High Power Microwave Amplifiers and
Components Thereof From Japan:
Initiation and Preliminary Results of
Changed Circumstances Antidumping
Duty Administrative Review, and Intent
To Revoke Order in Part**

AGENCY: Import Administration,
International Trade Administration,
Department of Commerce.

ACTION: Notice of initiation and
preliminary results of changed
circumstances antidumping duty
administrative review, and intent to
revoke order in part.

SUMMARY: In response to a request by
NEC Corporation and NEC America,
Inc., the Department of Commerce (the
Department) is initiating a changed
circumstances antidumping duty
administrative review and issuing an
intent to revoke in part the antidumping
duty order on high power microwave
amplifiers (HPMAs) and components
thereof from Japan. NEC requested that
the Department revoke the order in part
with regard to imports of traveling wave
tubes (TWTs) and klystron tubes, two

components of HPMAs. Based on the
fact that MCL Inc., a domestic producer
of HPMAs and petitioner in the less-
than-fair-value (LTFV) investigation,
supports NEC's request for a changed
circumstances review and revocation in
part of the order with regard to TWTs
and Klystron tubes, we are initiating
this review and we preliminarily
determine to revoke the order in part
with regard to this merchandise.

EFFECTIVE DATE: November 1, 1996.

FOR FURTHER INFORMATION CONTACT:

Hermes Pinilla or Kris Campbell, Office
of AD/CVD Enforcement, Import
Administration, International Trade
Administration, U.S. Department of
Commerce, 14th Street and Constitution

Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-3477/4733.

SUPPLEMENTARY INFORMATION:

Background

On June 28, 1996, NEC requested that the Department conduct a changed circumstances administrative review to determine whether to revoke the order partially with regard to TWTs and Klystron tubes, two components of HPMAs, covered by the order. NEC stated that lack of interest in the continued application order to TWTs and Klystron tubes is a sufficient changed circumstance to merit revocation under 19 CFR 353.25(d). NEC stated further that the support of the domestic industry for such partial revocation makes it appropriate for the Department to initiate and complete the review on an expedited basis pursuant to 19 CFR 353.22(f)(4).

On August 26, 1996, counsel for MCL, Inc., submitted a letter from MCL to the Department supporting NEC's request for review and partial revocation of the order. NEC stated that as a domestic producer of HPMAs it "has no further interest in the continued application of the order on TWTs and Klystron tubes." However, MCL indicated that it "is still interested in the continued application of the antidumping duty order to HPMAs and all parts thereof, other than TWTs and Klystron tubes." The order with regard to imports of HPMAs and other parts/components of HPMAs is not affected by this request, this changed circumstances review, or this revocation in part.

The Applicable Statute

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations, as amended by the interim regulations published in the Federal Register on May 11, 1995 (60 FR 25130).

Scope of Review

The products covered by this changed circumstances review are imports of TWTs and Klystron tubes, which are components of HPMAs.

The products covered by the order are high power microwave amplifiers and components thereof. High power microwave amplifiers are radio-frequency power amplifier assemblies, and components thereof, specifically designed for uplink transmission in C,

X, and Ku bands from Fixed earth stations to communications satellites and having a power output of one kilowatt or more. High power microwave amplifiers may be imported in subassembly form, as complete amplifiers, or as a component of higher level assemblies (generally Earth stations). This merchandise is currently classifiable under item 8525.10.80 of the Harmonized Tariff Schedule (HTS). The HTS item number is provided for convenience and customs purposes. The written description remains dispositive.

Initiation and Preliminary Results of Changed Circumstances Antidumping Duty Administrative Review, and Intent To Revoke Order in Part

Pursuant to section 751(d)(1) of the Act, the Department may partially revoke an antidumping duty order based on a review under section 751(b) of the Act (*i.e.*, a changed circumstances review). Section 751(b)(1) of the Act requires a changed circumstances administrative review to be conducted upon receipt of a request containing information concerning changed circumstances sufficient to warrant a review.

The Department's regulations at 19 CFR 353.25(d)(2) provide that the Department will conduct a changed circumstances administrative review under 19 CFR 353.22(f) based upon an affirmative statement of no interest from the petitioner in the proceeding (*i.e.*, such a statement constitutes "changed circumstances sufficient to warrant a review"). Section 782(h) of the Act and 19 CFR 353.25(d)(1)(i) further provide that the Department may revoke an order or revoke an order in part if it determines that the order under review is no longer of interest to domestic interested parties. In addition, in the event that the Department concludes that expedited action is warranted, 19 CFR 353.22(f)(4) permits the Department to combine the notices of initiation and preliminary results.

Therefore, in accordance with sections 751(d) and 782(h) of the Act and 19 CFR 353.25(d) and 353.22(f), based on MCL's affirmative statement of no interest in the continued application of the order to TWTs and klystron tubes, we are initiating this changed circumstances administrative review. Based on the fact that no other domestic interested parties have objected to the position taken by petitioner that it has no further interest in the order regarding TWTs and Klystron tubes from Japan, we have determined that expedited action is warranted, and we are combining these notices of initiation and preliminary results. We have

preliminarily determined that there are changed circumstances sufficient to warrant partial revocation of the order on HPMAs from Japan. Therefore, we are hereby notifying the public of our intent to revoke in part the antidumping duty order as it relates to imports of TWTs and Klystron tubes from Japan.

If final revocation in part occurs, we intend to instruct the U.S. Customs Service (Customs) to liquidate without regard to antidumping duties and to refund any estimated antidumping duties collected for all unliquidated entries of TWTs and Klystron tubes from Japan on or after July 1, 1996, in accordance with 19 CFR 353.25(d)(5). We will also instruct Customs to refund interest for those entries, in accordance with section 778 of the Act. The current requirement for a cash deposit of estimated antidumping duties will continue until publication of the final results of this changed circumstances review.

Public Comment

Any interested party may request a hearing within 10 days of publication of this notice. Any hearing, if requested, will be held no later than 28 days after the date of publication of this notice, or the first workday thereafter. Case briefs and/or written comments from interested parties may be submitted not later than 14 days after the date of publication of this notice. Rebuttal briefs and rebuttals to written comments, limited to the issues raised in those comments, may be filed not later than 21 days after the date of publication of this notice. All written comments shall be submitted in accordance with 19 CFR 353.31(e) and shall be served on all interested parties on the Department's service list in accordance with 19 CFR 353.31(g). Persons interested in attending the hearing, if one is requested, should contact the Department for the date and time of the hearing. The Department will publish the final results of this changed circumstances review, including the results of its analysis of issues raised in any written comments.

This notice is in accordance with sections 751(b)(1) and 782(h) of the Act and sections 353.22(f) and 353.25(d) of the Department's regulations.

Dated: October 24, 1996.
