Bureau of Reclamation

[INT-DES-96-46]

Draft Programmatic Environmental Impact Statement; Availability and Notice of Public Hearings

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability and notice of public hearings on the draft programmatic environmental impact statement; INT-DES-96-46.

SUMMARY: The Gila River Indian Community (Community) and the Bureau of Reclamation (Reclamation) have prepared a Draft Programmatic Environmental Impact Statement (PEIS) on the Pima-Maricopa Irrigation Project (Project) in compliance with the National Environmental Policy Act (NEPA) of 1969, as amended, and other applicable environmental laws. The purpose of the draft PEIS is to assist in decisionmaking by the Commissioner of Reclamation regarding the approval of construction-related expenditures of funds authorized for the Central Arizona Project (CAP) to implement portions of the Project within the constraints of law. Any project that involves a major Federal action, such as Federal funding, permitting or approval, must comply with NEPA.

This draft PEIS describes four alternatives for rehabilitation of 66,000 acres and new development of 80,330 acres of irrigated agricultural lands. The proposed action is to rehabilitate San Carlos Indian Irrigation Project (SCIIP) facilities and build new facilities both on and off the Reservation. Ultimate project size would be 146,330 acres which will enable the Gila River Indian Community to better utilize water supplies and provide additional economic employment opportunities. A No Federal Action alternative is also described.

The Community is the Project proponent and is responsible for the preparation of this draft PEIS through a Self-Governance Agreement with Reclamation. Reclamation is responsible for disbursing CAP-related Federal funds and functions as the lead Federal agency for the Project. The Bureau of Indian Affairs (BIA) is a cooperating agency in this process because of its trust responsibility and administration of SCIIP.

DATES: A 60-day public review period begins with the publication of this notice. Written comments on the draft PEIS should be submitted to the Bureau of Reclamation.

Public hearings on the draft PEIS will be held on the following dates at the locations indicated.

SUPPLEMENTARY INFORMATION: The Gila River Indian Community (Community) proposes to construct a common-use irrigation system to deliver water to 146,330 acres within the Gila River Indian Reservation (Reservation) and to rehabilitate SCIIP Joint Works facilities. The Proposed Action, known as the Project, represents a component of the Community's Master Plan for Land and Water Use (Franzoy Corey, 1985). The Master Plan identifies the Community's major goals and preferences for improving and developing Reservation land and water resources.

The Project would support the continued role of agriculture as a primary element of the Community's traditional economy and way of life. The Project would enhance economic growth, development and self-sufficiency of the Community. The Project has the potential to significantly improve the standard of living for Community members.

The Community is the Project proponent and is responsible for the preparation of this draft PEIS through a Self-Governance Agreement with Reclamation. Reclamation is responsible for disbursing CAP-related Federal funds and functions as the lead Federal agency for the Project. The Bureau of Indian Affairs (BIA) is a cooperating agency in this process because of its trust responsibility and administration of SCIIP.

Hearing Process Information

The purpose of the hearings is to allow the public an opportunity to present their views and comments on the environmental impacts of the proposed project.
