SUMMARY: EPA is proposing to grant the one (1) year attainment date extension request for the New York-Northern New Jersey-Long Island Consolidated Metropolitan Statistical Carbon Monoxide nonattainment area (NYCMSA) which includes parts of two counties in southwestern Connecticut. in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

I. Introduction

The U.S. Environmental Protection Agency (EPA), Region 6, announces its intent to delete the Cal West Metals Superfund site, Lemitar, Socorro County, New Mexico, from the National Priorities List (NPL), which constitutes Appendix B of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), Code of Federal Regulations, Title 40 (40 CFR), Part 300, and requests comments on the proposed deletion. The EPA identifies sites that appear to present a significant risk to public health, or the environment, and maintains the NPL as the list of those sites. Sites on the NPL may be the subject of remedial actions financed by the Hazardous Substance Superfund Response Trust Fund (Fund). Pursuant to Section 300.425(e)(3) of the NCP, any site deleted from the NPL remains eligible for Fund-financed remedial actions if conditions at the site warrant such action. The EPA will accept comments concerning this proposal for thirty (30) days after publication of this notice in the Federal Register and a newspaper of record. Section II of this notice explains the criteria for deleting sites from the NPL. Section III discusses procedures that EPA is using for this action. Section IV discusses the history of this site and explains how the site meets the deletion criteria.

II. NPL Deletion Criteria

The NCP establishes the criteria that the Agency uses to delete sites from the NPL. In accordance with 40 CFR § 300.425(e)(1), sites may be deleted from or recategorized on the NPL where no further response is appropriate. In making a determination to delete a site from the NPL, EPA shall consider, in consultation with the State, whether any of the following criteria have been met:
