## INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-744 (Final)]

### Certain Brake Drums and Rotors From China

**AGENCY:** United States International Trade Commission.

**ACTION:** Scheduling of the final phase of an antidumping investigation.

**SUMMARY:** The Commission hereby gives notice of the scheduling of the final phase of antidumping investigation No. 731-TA-744 (Final) under section 735(b) of the Tariff Act of 1930 (19 U.S.C. § 1673d(b)) (the Act) to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of less-than-fair-value imports from the People's Republic of China (China) of certain brake drums and rotors, provided for in subheading 8708.39.50 of the Harmonized Tariff Schedule of the United States.<sup>1</sup>

<sup>1</sup> For purposes of this investigation, Commerce has defined the subject brake drums as being made of:

"Gray cast iron, whether finished, semifinished, or unfinished, ranging in diameter from 8 to 16 inches (20.32 to 40.64 centimeters) and in weight from 8 to 45 pounds (3.63 to 20.41 kilograms). The size parameters (weight and dimension) of the brake drums limit their use to the following types of motor vehicles: automobiles, all-terrain vehicles, vans and recreational vehicles under 'one ton and a half,' and light trucks designated as 'one ton and a half.'

Finished brake drums are those that are ready for sale and installation without any further operations. Semi-finished drums are those on which the surface is not entirely smooth, and has undergone some drilling. Unfinished drums are those which have undergone some grinding or turning.

These brake drums are for motor vehicles, and do not contain in the casting a logo of an original equipment manufacturer (OEM) which produces vehicles sold in the United States (e.g., General Motors, Ford, Chrysler, Honda, Toyota, Volvo). Brake drums covered in this investigation are not certified by OEM producers of vehicles sold in the United States. The scope also includes composite brake drums that are made of gray cast iron, which contain a steel plate, but otherwise meet the above criteria."

##### **Background**

The final phase of this investigation is being scheduled as a result of an affirmative preliminary determination by the Department of Commerce that imports of certain brake drums and rotors from China are being sold in the United States at less than fair value within the meaning of section 733 of the Act (19 U.S.C. § 1673b). The investigation was requested in a petition filed on March 7, 1996, by the Coalition for the Preservation of American Brake Drum and Rotor Aftermarket Manufacturers, whose members consist of Brake Parts, Inc., McHenry, IL; Kinetic Parts Manufacturing, Inc., Harbor City, CA; Iroquois Tool Systems, Inc., North East, PA; and Wagner Brake Corporation, St. Louis, MO.

A party that filed a notice of appearance during the preliminary phase of the investigation need not file an additional notice of appearance during this final phase. The Secretary

will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.
