

Note: The implants and procedures used for the augmentation mammoplasty are in compliance with Federal Drug Administration guidelines.

¹⁰ Each regional lipectomy will carry a separate charge. Regions include head and neck, abdomen, flanks, and hips.

¹¹ These procedures are inclusive in the minor skin lesions. However, CHAMPUS separates them as noted here. All charges are for the entire treatment regardless of the number of visits required.

¹² Dental services are based on a Composite Time Value (CTV). Charges should be calculated based on the time value of the procedure times the CTV rate. The first CTV (1.0 value) shall be calculated using the CTV 1 rate. Any subsequent CTVs and portions thereof shall be calculated using the CTV 2 rate. The Composite Lab Value (CLV) should be used to calculate charges for dental appliances and prostheses.

¹³ Ambulance charges are based on full hours and 15 minute increments of service. Providers should calculate the charges based on the number of hours (or fraction thereof) that the ambulance is logged out on a patient run. Fractions of hours should be rounded to the next 15 minute increment (e.g. 31 minutes becomes 45 minutes).

¹⁴ Air in-flight medical care reimbursement charges are determined by the status of the patient (Litter or Ambulatory) and are per patient.
