

Since the number of units to be field tested for Project 0616 would exceed the 10-unit Commission-set limit, GRI is required to first obtain Commission approval before field testing any units in excess of this limit. Accordingly, GRI seeks approval to field test the eleventh unit.

GRI plans to fund the field tests using reprogramming authority within Stipulation 6 limits, and notes that all of the planned field tests have at least 50% cofunding.

Any person desiring to be heard or to protest GRI's petition should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure, 18 CFR 385.214 and 385.211. All protests, motions to intervene and comments should be filed on or before November 13, 1996. All comments and protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to this proceeding. Copies of this petition are on file with the Commission and are available for public inspection.

Secretary.
