Notice is hereby given that the Environmental Protection Agency (EPA) is holding a public meeting on November 21 and 22, 1996, for the purpose of information exchange on issues related to the development of rules to address microbial contaminants and disinfectants/disinfection byproducts in drinking water. The meeting will focus on the need for expedited development of an Interim Enhanced Surface Water Treatment Rule and a Stage I Disinfectants/Disinfection Byproducts Rule to enable the Agency to meet statutory deadlines for these rules established as part of the recently reauthorized Safe Drinking Water Act. Topics for discussion will include: (1) options for regulatory policy alternatives; (2) issues and concerns pertaining to these options; (3) existing information that may be available and what analyses of this information would be helpful to resolve issues and concerns; and (4) next steps and approaches to rule development.

EPA is inviting all interested members of the public to participate in the meeting, which will be held at the Center for Environmental Dispute Resolution (RESOLVE), 2828 Pennsylvania Avenue, Northwest, Washington, D.C. A limited number of phone lines will be available to enable attendance by teleconference also. Because of limitations on conference room seating, members of the public who are interested in attending are requested to contact Elizabeth Corr of EPA's Office of Ground Water and Drinking Water at (202) 260-8907 prior to the first day of the meeting. Inquiries regarding the availability of phone lines should also be directed to Ms. Corr.

Total Annual Burden: 140,000 hours.

Needs and Uses: This collection of information is required by the Telecommunications Act, 47 U.S.C. 308, and Commission Rules 1.922, 1.924, 1.926, 73.3500, 101.13, and 101.15. As a result of WT Docket No. 94-148, FCC 96-51, adopted February 8, 1996 and released February 29, 1996, Private Operational Fixed Microwave Services and Common Carrier services were combined under a new rule Part 101, effective August 1, 1996. FCC Form 415 was developed so that one common application form would be used and to streamline filing and processing as specified in the new Part 101. This combined form will replace FCC Forms 402 and 494, and Forms 313, 430 and 703 for Microwave services. Once the new form is implemented, a public notice will be released announcing the obsolescence of these forms.

FCC Form 415 is used to apply, or to amend a pending application, for an authorization to operate a radio station in 47 CFR Part 101, Fixed Microwave Services, and 47 CFR Part 74, Subpart E, Aural Broadcast Auxiliary Stations and Subpart F, Television Broadcast Auxiliary Stations. Purposes of filing include New, Modification, Renewal, Reinstatement, and Amend a Pending Application. Private Operational Fixed and Broadcast applicants may use it to apply for a full assignment of a radio station authorization and a Transfer of Control. Private and Common Carrier applicants may use it to apply for a Minor Modification and to request authorization of a developmental station. Common Carrier applicants may request authorization to convert from Private to Common Carrier.

If certain conditions are met, applicants may self-certify and operate under a Conditional Temporary Authorization (FCC 415T) which is included in the FCC 415 application package.

Concurrent with renewal, applicants may also request a change of licensee name (with no change to corporate structure, ownership or control), change of mailing address, change the name of their ship, add an official ship number, re-instate a Land Mobile license, and notify the Commission of a change in the number of mobiles/pagers for a Land Mobile license.

This "generic" renewal form for electronic filing will greatly reduce the burden to the applicant and provide an immediate confirmation that the renewal has been filed giving them continued authority to operate until the renewed license has been received.
