FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by the Federal Communications Commission

November 6, 1996.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments January 13, 1997.

ADDRESSES: Direct all comments to Dorothy Conway, Federal Communications Commission, Room 234, 1919 M St., N.W., Washington, DC 20554 or via internet to dconway@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the

information collections contact Dorothy Conway at 202-418-0217 or via internet at dconway@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: New Collection.

Title: Application for Station Authorization in the Microwave Services (Parts 74 and 101).

Form No.: FCC 415/415T.

Type of Review: New Collection.

Respondents: Individuals or households; Businesses or other for-profit; State, Local or Tribal Government; not-for-profit institutions.

Number of Respondents: 20,000.

Estimated Time Per Response: 7 hours.

Total Annual Burden: 140,000 hours.

Needs and Uses: This collection of information is required by the Telecommunications Act, 47 U.S.C. 308, and Commission Rules 1.922, 1.924, 1.926, 73.3500, 101.13, and 101.15. As a result of WT Docket No. 94-148, FCC 96-51, adopted February 8, 1996 and released February 29, 1996, Private Operational Fixed Microwave Services and Common Carrier services were combined under a new rule Part 101, effective August 1, 1996. FCC Form 415 was developed so that one common application form would be used and to streamline filing and processing as specified in the new Part 101. This combined form will replace FCC Forms 402 and 494, and Forms 313, 430 and 703 for Microwave services. Once the new form is implemented, a public notice will be released announcing the obsolescence of these forms.

FCC Form 415 is used to apply, or to amend a pending application, for an authorization to operate a radio station in 47 CFR Part 101, Fixed Microwave Services, and 47 CFR Part 74, Subpart E, Aural Broadcast Auxiliary Stations and Subpart F, Television Broadcast Auxiliary Stations. Purposes of filing include New, Modification, Renewal, Reinstatement, and Amend a Pending Application. Private Operational Fixed and Broadcast applicants may use it to apply for a full assignment of a radio station authorization and a Transfer of Control. Private and Common Carrier applicants may use it to apply for a Minor Modification and to request authorization of a developmental station. Common Carrier applicants may request authorization to convert from Private to Common Carrier.

If certain conditions are met, applicants may self-certify and operate under a Conditional Temporary Authorization (FCC 415T) which is included in the FCC 415 application package.

OMB Approval Number: New Collection.

Title: Application for Electronic Renewal of Wireless Radio Services Authorizations.

Form No.: FCC 900.

Type of Review: New Collection.

Respondents: Individuals or households; Businesses or other for-profit; State, Local or Tribal Government; not-for-profit institutions; Farms; Federal Government.

Number of Respondents: 35,255.

Estimated Time Per Response: 10 minutes (.166).

Total Annual Burden: 5,852 hours.

Needs and Uses: This "generic" renewal application, FCC Form 900, may be used in lieu of FCC Forms 313R, 402R, 405, 405A, 405B, 452R, 574R and 610R, to file electronically for renewal of a Wireless Radio Services authorization. Concurrent with renewal, applicants may also request a change of licensee name (with no change to corporate structure, ownership or control), change of mailing address, change the name of their ship, add an official ship number, re-instate a Land Mobile license, and notify the Commission of a change in the number of mobiles/pagers for a Land Mobile license.

This "generic" renewal form for electronic filing will greatly reduce the burden to the applicant and provide an immediate confirmation that the renewal has been filed giving them continued authority to operate until the renewed license has been received.

OMB Approval Number: 3060-0035.

Title: Application for Renewal of Auxiliary Broadcast Remote Pickup or Low Power License.

Form No.: FCC 313R.

Type of Review: Revision of a currently approved collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 50.

Estimated Time Per Response: 30 minutes (.50).

Total Annual Burden: 25 hours.

Needs and Uses: FCC 313-R is used by licensees of remote pickup and low power stations that are not broadcast licensees (e.g., cable operators, network entities, international broadcast services, motion picture producers and television producers) to renew their auxiliary broadcast license. Statutory authority for this collection of information is contained in Section 307 of the Communications Act. It is also required by 47 CFR 73.3500 and 73.3539.

The Commission intends to revise the application to include a place for the applicant to provide an Internet address

and a Taxpayer Identification Number. The Internet address will provide the FCC with another media of contacting the applicant with questions about their application and the Taxpayer Identification Number is required to comply with the Debt Collection Improvement Act of 1996. The anti-drug statement has been added to the items the applicant certifies to when signing the application. The Certificate of Renewal at the bottom of the application has been removed because the Certificate of Renewal is computer generated on laser printer and is no longer needed. In the near future, the Commission will implement electronic filing for this type of renewal as part of a "generic renewal", FCC Form 900. The burden will be adjusted accordingly once this new form has been implemented and frequency of use has been determined.

As a result of Part 101 becoming effective August 1, 1996, Part 74 licensees (television auxiliary and aural studio link) are no longer required to use this form to renew their licenses. The number of respondents in this category was extremely low and since the estimate of number of respondents can vary in the remaining services, the number of respondents is not being revised.

OMB Approval Number: 3060-0093.

Title: Application for Renewal of Radio Station License in Specified Services.

Form No.: FCC 405.

Type of Review: Revision to an existing collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 540.

Estimated Time Per Response: 2.25 hours.

Total Annual Burden: 1,215 hours.

Needs and Uses: FCC 405 is used by all common carriers and Multipoint Distribution Service non-common carriers to apply for renewal of radio station licenses. Section 307(c) of the Communications Act limits the term of common carrier radio license to ten years and requires that written applications be submitted for renewal. FCC Form 405 is required by CFR Parts 5, 21, 22, 23, 25 and 101 (effective August 1, 1996).

We intend to revise the form to include a place for the applicant to provide an Internet address and a Taxpayer Identification Number. The Internet address will provide the FCC with another media to contact the applicant with questions about the application and the Taxpayer Identification Number is required to comply with the Debt Collection

Improvement Act of 1996. The questions relating to NEPA and Anti-Drug Certification will be deleted and certification to these items will be included in the Certification text, eliminating the "yes" and "no" responses.

In the near future, the Commission plans to implement electronic filing for this type of renewal as part of the "generic renewal" FCC Form 900. The burden for FCC Form 405 will be adjusted accordingly once this new electronic renewal form has been implemented and frequency of use can be determined.

OMB Approval Number: 3060-0127.

Title: Assignment of Authorization.

Form No.: FCC 1046.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals; Business or other for-profit; State or local governments; Non-profit.

Number of Respondents: 6,000.

Estimated Time Per Response: 5 minutes (.083).

Total Annual Burden: 498 hours.

Needs and Uses: This form is required by the Communications Act, International Treaties and FCC Rules 47 CFR Parts 1.922, 1.924, 80.19, 87.21, 90.119 and Part 101. To assign authorization of radio station to another entity, the assignor must, in writing, assign all right, title and interest of the authorization to the other entity.

The Commission uses the data to determine if assignment of authorization submitted with the application will meet the rule requirements for issuance of a station authorization. The form is being revised to change the reference to Microwave Radio Services form from FCC 402 to FCC 415. This change does not affect the number of respondents or burden.

OMB Approval Number: 3060-0728.

Title: Supplemental Information Required for Taxpayer Identifying Number for Debt Collection.

Form No.: N/A.

Type of Review: Extension of an existing collection.

Respondents: Individuals; business or other for-profit; State or local governments; non-profit.

Number of Respondents: 10,469,716.

Estimated Time Per Response: .017 hours.

Total Annual Burden: 177,985 hours.

Needs and Uses: The information will be used by the Commission to comply with Public Law 104-134, Omnibus Consolidated Rescissions and Appropriations Act of 1996. Chapter 10 requires each Federal agency to obtain from each person doing business with it their Taxpayer Identification Number

(TIN). In cases of individuals the number is the person's social security number; in the case of a business, it is the employer identification number (ein) as assigned by the Internal Revenue Service, U.S. Department of the Treasury.

Federal Communications Commission.

William F. Caton,

Acting Secretary.

BILLING CODE 6712-01-P

Notice of Public Information Collections Being Reviewed by FCC for Extension Under Delegated Authority 5 CFR 1320 Authority, Comments Requested

November 6, 1996.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

The FCC is reviewing the following information collection requirements for possible 3-year extension under delegated authority 5 CFR 1320, authority delegated to the Commission by the Office of Management and Budget (OMB).

DATES: Written comments should be submitted on or before January 13, 1997. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should
