

would be extracted using a continuous highwall mining machine.

Mined coal would be transported by haul trucks approximately 14 miles to a loadout facility at Arch of Wyoming's Seminoe No. 2 Mine, 2 miles north of Hanna. Existing facilities at the Seminoe No. 2 Mine would be used to crush, store, and ship coal produced from the proposed Carbon Basin Mine.

Mining is proposed to begin in the year 2000. The anticipated rate of production is about 2,000,000 tons of coal per year. It is predicted that surface minable reserves could be depleted in 8 to 10 years. Potential for underground mining exists, but will not be evaluated until after the completion of surface mining.

Upon completion of mining activities, disturbed lands within the project area would be reclaimed and recontoured to approximate original contours and would be revegetated to accommodate pre-mining uses.

The Office of Surface Mining will be a cooperating agency in the preparation of the EIS because it is the Federal agency that administers surface coal mining under the Surface Mining Control and Reclamation Act of 1977.

Land and resource management issues and concerns specific to surface coal mining, development, operation, and reclamation in the proposed project area, adjacent State and private lands within the project area, and the transporting of mined coal to a remote facility that will be analyzed in the EIS include: air quality, hydrology, soils, vegetation, agriculture, transportation and public safety, conflicts with oil and gas lessees, Native American concerns, threatened and endangered species, impacts to raptor/sage grouse breeding and nesting areas, visual resources, recreation, social and economic effects on local communities, and cumulative impacts. Integral to the consideration and analyses of these issues and concerns and the preparation of the EIS, will be conducting the four steps of the coal screening/planning process (i.e., identifying the occurrence and development potential of coal resources in the project area, applying the coal unsuitability criteria, identifying other multiple use conflicts and impacts associated with the proposed coal mining, and surface owner consultation).

### Notice of Consent Judgments Pursuant to the Comprehensive Environmental Response, Compensation and Liability Act

In accordance with Departmental Policy, 28 CFR § 50.7, 38 FR 19029, and 42 U.S.C. § 9622(d), notice is hereby given that a proposed Consent Decree in *United States v. American Locker Group, Inc. et al.*, Civ. No. 92-CV-0700 (CGC), was lodged in the United States District Court for the Northern District of New York on November 5, 1996. The proposed Consent Decree resolves the United States' claims against American Locker Group, Incorporated, Bristol-Myers Squibb Company, Inc., General Electric Company, Inc., International Business Machines Corporation, and Pass & Seymour Corp. under Section 107(a) of the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), as amended, 42 U.S.C. § 9607(a), for past response costs incurred in connection with response actions at the Solvent

Savers Superfund Site in Lincklaen, New York.

Under the terms of the Consent Decree, the Settling Defendants will pay \$1,665,685.80 to the Superfund in reimbursement of past response costs. Also, the United States, on behalf of the U.S. Air Force, will pay \$125,374.20 to the Superfund in reimbursement of past response costs. In return, the United States covenants not to sue Settling Defendants for past response costs.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, written comments relating to the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States v. American Locker Group, Inc. et al.*, Civ. No. 92-CV-0700 (CGC), DOJ, #90-11-3-704.

The proposed Consent Decree may be examined at the Office of the United States Attorney, Northern District of New York, James Foley U.S. Courthouse, 445 Broadway, Room 231, Albany, New York 12207; at the Region II Office of the U.S. Environmental Protection Agency, 290 Broadway, New York, New York 10278; and at the Consent Decree Library, 1120 G Street, N.W., 4th Floor, Washington, D.C. 20005, (202) 624-0892. Copies of the Consent Decree may be obtained in person or by mail from the Consent Decree Library, 1120 G Street, N.W., 4th Floor, Washington, D.C. 20005. In requesting a copy, please enclose a check in the amount of \$6.00 (25 cents per page reproduction costs) payable to the Consent Decree Library.

### Notice of Lodging of Consent Decree Pursuant to the Clean Air Act

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that a proposed consent decree in *United States v. CITO Asphalt Refining Company*, Civil Action No. 96-5420 (SSB) was lodged on November 7, 1996, in the United States District Court of the District of New Jersey. The consent decree settles an action commenced in a complaint filed November 7, 1996, under the Clean Air Act, 42 U.S.C. § 7401 *et seq.*, arising out of operations at the CITO Asphalt Refining Company refinery in Paulsboro, New Jersey. The

refinery's primary finished petroleum product is asphalt. The asphalt processes at the refinery also yield several useful byproducts, including marine diesel oil, vacuum gas oil and straight run gasoline.

The Complaint alleges that the CITO Asphalt Refining Company violated the Clean Air Act, the New Jersey State Implementation Plan, the New Source Performance Standards for petroleum refineries, 40 CFR Part 60, Subpart J, and the National Emissions Standards for Hazardous Air Pollutants, 40 CFR Part 61, Subpart FF, by: (1) Failing to install emissions monitoring equipment; (2) failing to submit emissions reports; (3) failing to conduct performance tests; (4) failing to comply with the sulfur oxide emissions limitation; (5) failing to submit a notification regarding benzene waste operations; (6) failing to obtain a permit for the construction and operation of a wastewater treatment plant; and (7) operating equipment in violation of permit restrictions.

Under the Consent Decree, the CITO Asphalt Refining Company will pay a civil penalty to the United States of \$1.23 million. The Consent Decree also provides for substantial injunctive relief to bring the refinery into compliance with the Clean Air Act. Under the agreement, the CITO Asphalt Refining Company will comply with the Clean Air Act's sulfur oxide emissions standard; conduct a performance test at the refinery; install a desulfurization unit at the refinery; install a continuous emissions monitoring system; and submit excess emissions and monitoring system reports.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States v. CITO Asphalt Refining Company*, DOJ Ref. #90-5-2-1-2010.

The proposed consent decree may be examined at the office of the United States Attorney, Mitchell H. Cohen Courthouse, Fourth Street and Cooper Street, Camden, New Jersey; the Region II Office of the Environmental Protection Agency, 290 Broadway, New York, New York; and at the Consent Decree Library, 1120 G Street, N.W., 4th Floor, Washington, D.C. 20005, (202) 624-0892. A copy of the consent decree may be obtained in person or by mail from the Consent Decree Library, 1120 G Street, N.W., 4th Floor, Washington, D.C. 20005. In requesting a
