# Government-Owned Inventions; Availability for Licensing

**AGENCY:** National Institutes of Health,

DHH.

**ACTION:** Notice.

The inventions listed below are owned by agencies of the U.S. Government and are available for licensing in the U.S. in accordance with 35 U.S.C. 207 to achieve expeditious commercialization of results of federally funded research and development. Foreign patent applications are filed on selected inventions to extend market coverage for U.S. companies and may also be available for licensing.

ADDRESSES: Licensing information and copies of the U.S. patent applications listed below may be obtained by writing to the indicated licensing contact at the Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, Maryland 20852–3804 (telephone 301/496–7057; fax 301/402–0220). A signed Confidential Disclosure Agreement will be required to receive copies of the patent applications.

Image Registration Using Voxel Gradients With an Iterative Registration Process

J Ostuni (LDRR) Serial No. 60/016,429 filed 29 Apr 96 Licensing Contact: John Fahner-Vihtelic, 301/496–7735 ext. 285

To date, it has been difficult to combine or compare images which represent a similar scene using different and unrelated intensities, for example, two magnetic resonance volumes taken with different sequences. The current invention represents a means by which this difficulty may be overcome, and embodies an algorithm which allows for the registration or the "matching up" of multiple three-dimensional images. Specifically, the algorithm is based upon finding the correspondence of closest gradient voxels, where a gradient voxel is any voxel containing a high 3D intensity gradient. Typically, gradient voxels represent areas of change within the image. This algorithm can successfully perform registrations under conditions of unrelated voxel intensity, significant object motion and/or significant amounts of missing data. The invention, therefore, represents a

powerful new tool for users of a variety of three-dimensional systems. (portfolio: Devices/Instrumentation—Other)

Compositions for the Prevention or Retardation of Cataracts

JS Zigler Jr., P Russell, S Tumminia, C Qin, CM Krishna (NEI) Serial No. 60/010,637 filed 26 Jan 96 Licensing Contract: J. Peter Kim, 301/ 496–7056, ext. 264

Oxidative stress is becoming recognized a major problem, and free radicals and activated oxygen species are recognized as agents of tissue damage associated with a number of conditions. Aging-related cataract is a disease of multifactorial origin involving many of the same processes which characterize the process of aging in other tissues. It appears that once cataractogenesis has begun, the process of cataract development may proceed via one or more common pathways or processes. The subject invention focuses on intervening at the level of these common pathways in hopes of stopping or slowing the progression of the disease process. The present invention provides methods and compositions for the prevention and treatment of cataract formation which comprise a nitroxide free radical compound or its hydroxylamine and a thiol reducing agent. (portfolio: Ophthalmology-Therapeutics, chemical)

Molecular Cloning and Characterization of a Differentiation Antigen, CAK1, Present on Mesothelium, Mesotheliomas and Ovarian Cancers

I Pastan, K Chang (NCI)
Serial No. 60/010,166 filed 05 Jan 96
Licensing Contact: Larry Tiffany, 301/496–7056 ext 206

CAK1, or "mesothelin", is an antigen present on the cell surface in mesothelium and on many mesotheliomas and ovarian cancers. While the role of this differentiation antigens has not yet been determined, it is postulated that it may be implicated in adhesion and in the dissemination of mesotheliomas and of ovarian cancers. CAK1, therefore, is a potential target for monoclonal antibodies to be used in the diagnosis and treatment of these cancers. The gene for CAK1 has been cloned and sequenced, as embodied in the current invention. The invention, therefore, should provide a valuable research tool for use in the development of diagnostics and/or therapeutic agents toward mesotheliomas and ovarian cancers. (portfolio: Cancer-Research Materials, DNA based)

Method of Mobilizing Pluripotential Hematopoietic Stem Cells With IL-7

RH Wiltrout, F Ruscetti, K Grzegorzewski, J Keller, KL Komschlies-McConville (NCI) Serial No. 08/341,399 filed 16 Nov 94 Licensing Contact: Jaconda Wagner, 301/496–7735 ext 284

This invention provides a method of increasing numbers of hematopietic stem cells in a subject by administering interleukin-7 to the subject. Hematopoietic stem cells are distinguishable from hematopoietic progenitor cells in that the stem cells are pluripotent and not yet committed to myeloid or lymphoid lineages. After treatment, a population of leukocytes enriched for hematopoietic stem cells may be isolated from the subject's peripheral blood. Such a population of leukocytes enriched from hematopoietic stem cells may be transferred into a recipient in order to enhance the repopulation of the recipient's hematopoietic and immune cells. In addition, the method provides for improved engraftment of a bone marrow transplant in a recipient following transplantation or irradiation. A Notice of Allowance has recently been issued for this patent application. (portfolio: Internal Medicine—Therapeutics; Cancer—Therapeutics; biological response modifiers, growth factors)

Dated: November 20, 1996.

## Office of the Secretary

Notice of Meeting of the Human Genetics Subcommittee of the National Bioethics Advisory Commission (NBAC)

SUMMARY: Pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), this notice is hereby given to announce an open meeting of The Human Genetics Subcommittee of the National Bioethics Advisory Commission (NBAC). The purpose is to discuss issues regarding the use of genetic information and technologies.

**DATES:** Friday December 13, 1996, 7:30 a.m. to 3:30 p.m.

PLACE: National Institutes of Health, Building 31 C wing, 6th Floor, Conference Room 9, Bethesda, Maryland 20892.

**SUPPLEMENTARY INFORMATION:** The President established the National

Bioethics Advisory Commission (NBAC) by Executive Order 12975, October 3, 1995. The purpose of NBAC is to provide advice and make recommendations to the National Science and Technology Council and other appropriate entities on bioethical issues arising from research on human biology and behavior and the applications, including the clinical applications, of that research.

Tentative Agenda

Friday, December 13, 1996

Morning Session

7:30–11:30 a.m. Discussion of issues by subcommittee members regarding the use of genetic information and technology.

11:30-12:30 p.m. Lunch.

#### Afternoon Session

12:30–3:00 p.m. Continuation of discussion by subcommittee members of issues regarding the use of genetic information and technology.

3:00–3:30 p.m. Public comment. 3:30 p.m. Adjourn.

## **Public Participation**

The meeting is open to the public with attendance limited to space available. Members of the public who wish to make oral statements should contact NBAC at the address or telephone number listed below. Reasonable provisions will be made to include on the agenda presentations by persons requesting an opportunity to speak. Individuals who plan to attend the meeting and need special assistance, such as sign language interpretation or other special accommodations, should also contact NBAC at the address or telephone number listed below at least seven business days prior to the meeting. Persons who wish to file written statements with NBAC may do so at any time.

### FOR FURTHER INFORMATION CONTACT:

Patricia Norris, Communications Director, National Bioethics Advisory Commission, MSC-7508, 6100 Executive Boulevard, Suite 3C01, Rockville, Maryland 20892-7508, telephone 301-402-4242, fax 301-480-6900.

Dated: November 22, 1996.

Philip R. Lee,

Assistant Secretary for Health.

# Notice of Meeting of the Human Subjects Subcommittee of the National Bioethics Advisory Commission (NBAC)

**SUMMARY:** Pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), this notice is hereby given to announce an open meeting of the Human Subjects Subcommittee of the National Bioethics Advisory Commission (NBAC). The purpose is to discuss issues regarding the protection of human research subjects.

**DATES:** Monday, December 16, 1996, 7:30 a.m. to 3:30 p.m.

PLACE: National Institutes of Health, Building 31 C wing, 6th Floor, Conference Room 8, Bethesda, Maryland 20892.

SUPPLEMENTARY INFORMATION: The President established the National Bioethics Advisory Commission (MBAC) by Executive Order 12975, October 3, 1995. The purpose of NBAC is to provide advice and make recommendations to the National Science and Technology Council and other appropriate entities on bioethical issues arising from research on human biology and behavior and the applications, including the clinical applications, of that research.

Tentative Agenda

Monday, December 16, 1996.

Morning Session

7:30–11:30 a.m. Discussion of human subjects protections issues by subcommittee members.

11:30-12:30 p.m. Lunch.

### Afternoon Session

12:30–3:00 p.m. Continuation of discussion of human subjects protections issues by subcommittee members.

3:00–3:30 p.m. Public comment. 3:30 p.m. Adjourn.

### **Public Participation**

The meeting is open to the public with attendance limited to space available. Members of the public who wish to make oral statements should contact NBAC at the address or telephone number listed below. Reasonable provisions will be made to include on the agenda presentations by persons requesting an opportunity to speak. Individuals who plan to attend the meeting and need special assistance, such as sign language interpretation or other special accommodations should also contact NBAC at the address or telephone number listed below at least seven business days prior to the

meeting. Persons who wish to file written statements with NBAC may do so at any time.

### FOR FURTHER INFORMATION CONTACT:

Patricia Norris, Communications Director, National Bioethics Advisory Commission, MSC-7508, 6100 Executive Boulevard, Suite 3C01, Rockville, Maryland 20892-7508, telephone 301-402-4242, fax 301-480-6900.

Dated: November 22, 1996.

Philip R. Lee,

Assistant Secretary for Health.

National Oceanic and Atmospheric Administration

Notice of Availability of Final Handbook for Habitat Conservation Planning and Incidental Take Permitting Process

AGENCIES: Fish and Wildlife Service, Interior, and National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Commerce.

**ACTION:** Notice of document availability.

**SUMMARY:** The Fish and Wildlife Service and National Marine Fisheries Service (hereafter referred to as the Services) announce the availability of their final Handbook for Habitat Conservation Planning and Incidental Take Permitting Process. This final guidance document provides internal guidance for conducting the incidental take permit program under section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). Its purpose is to provide policy and guidance for section 10(a)(1)(B) procedures to promote efficiency and nationwide consistency within and between the Services. Although intended primarily as internal agency guidance, this Handbook is fully available for public evaluation, and use, as appropriate.

ADDRESSES: Persons wishing to receive a copy of the final Handbook for Habitat Conservation Planning and Incidental Take Permitting Process should contact the Division of Endangered Species, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 452, Arlington, Virginia 22203, or the Endangered Species Division, National Marine Fisheries Service, 1335 East-
